CITY OF WARSAW.

QUARTERLY MEETING.

The Model Courier for 1849.—This universal family Newspaper, for the coming year, is to be reduced in price, increased in beauty and augmented in interest. The Courier is confessedly the "model" paper of the day, and has a circulation of 70,000 copies, and the indefatigable and enterprising proprietor is not satisfied with this, but has set his peg for the unprecedented number of one million readers!

Terms—Single copy, \$2—four copies for \$5—eight copies for \$10—thirteen copies for \$15—and twenty copies for \$20—to be paid in all cases in advance.—Address A. McMakin, Philadelphia.

The Valley Farmer.—This is the title of a monthly Agricultural Journal, proposed to be published in St. Louis, on the first of each month, by Messrs. Pickering, Penn & Co. The utility of a work of this sort must be obvious to every one. That our readers may be fully informed as to the objects to be embraced in the proposed publication, we will insert the Prospectus in our next.

Satisfied Ambition.—Senator Borland, in his late reply to the challenge of the Hon. F. B. Flournoy, at Little Rock, said that he was "sufficiently shot at in the war with Mexico to satisfy the ambition of any man."

A very sensible reply from Senator Borland, and a much stronger exhibition of true courage than we see put forward by our public men, now a-days.—He might very truly have replied in the language of the anecdote which we published the other day, that "any fool could give a challenge, but it takes two to fight a duel."

Gen. Persifer F. Smith has been appointed Governor of California, in the place of Col. Mason, recalled.

HERMITAGE, Hickory Co., Mo., Nov. 28, 1848.

Messrs. Editors:—I have been looking for sometime, and expecting to hear something more about Internal Improvements, which commenced in Warsaw last spring, in the form of a Railroad Convention; but it appears to have died away without any results. So far as I am informed, I believe there has nothing been done to go ahead with the Road. The Osage Company have gone on and done what they could with their money, but the work is not such as to insure a regular market for the products of our farmers, who could afford to pay more taxes than they now do

by half. I have not conversed with a single man who would not be willing to pay three times the amount of tax he now pays, to have a certain outlet for his produce—and I am in hopes our present members to the Legislature will do something to place us nearer upon an equality with other portions of the world than we now are.

Look at our country now, and you will see by riding over it, empty houses and small fields that have been commenced and left—and the census of the present year does not show such an increase as it should do, considering the advantages we have of good land, good water, and timber sufficient for all our purposes. We have minerals of various kinds—iron, lead, copper and zinc, particularly lead, which can be got by a small amount of labor, comparatively speaking, to the profit that may be expected to be obtained.

The only official act of this body was the adoption of a Petition, on behalf of the people of New Mexico, to the Congress of the United States in which they ask for the speedy organization of a Territorial Civil Government for New Mexico.

On motion of Mr. Quinn, it was Resolved, That the petition of the people of New Mexico in Convention assembled, to the Congress of the United States, be forwarded to Hon. Thomas H. Benton, and the Hon. John M. Clayton, and that they be requested to represent the interests of this Territory, in the Senate of the United States.

Santa Fe on the 10th ult., from Monterey, by way of Chihuahua. He was well received. Col. Washington left Monterey, in July last, with a command, part of which, was destined for California. They pursued their march without molestation, and, indeed, receiving the hospitality of the Mexicans, until their arrival at Chihuahua; where, after making all necessary arrangements, the command, on the 4th of September, separated, Col. Washington pursuing his route to Santa Fe; and Maj. Graham assuming the command of the California expedition.

The Emperor of Russia has made peace with Circassia, it is supposed, with the intention to withdraw his troops from thence and send an army of 300,000 men into the principalities of Danube.

IRELAND. Murders and riots continue, and the country is very unsettled. FRANCE. On the 20th inst., there was an extraordinary display of Military exhibited before the Assembly at the capital. There was much agitation, and a collision ensued between the Guards of Mobile and the line, which continued in the northern Faubourgs.

A conflict took place on the night of the 1st. The operations mingled in the tumult, and pelted the Guards with stones. The meeting of the elective was marked by special violence. On the question of the Presidency speeches were made, in which the population of the department were menaced in case Prince Louis should be returned, and right of the minority to raise and maintain their opinions by violence, if necessary, was declared amidst loud applause at a banquet at Dijon.

Cavaignac opposed the movement. An election will take place Dec. 10th, and the Napoleon confederation, it is thought, will be successful.

AUSTRIA. The last accounts left affairs in Austria doubtful. Vienna was bombarded, and the slaughter was great. There is a chance for a peaceful termination of the crisis in Italy.

It was rumored at Vienna that it had been decided in case the Imperial Bank of Vienna should be pillaged, the notes should be declared of no value. Measures also have been taken to place the Bank under military guard.

SWITZERLAND. The Peasants of Frieberg took a stand against the Government, but were put down by troops from Deric.

Below, we copy from the Metropolitan the official vote of the whole State, at the late election, and that paper says that from a hasty estimate which it has made, Gen. Cass' majority will be about 7,406.

SCARLET FEVER.

On the first attack of this disease, the fauces generally become much inflamed, soon succeeded by grayish sloughs, which renders the breath fetid—the parotid and other glands swell, tumefy and suppurate. The tongue, teeth and lips are covered with a brown or blackish incrustation; the eyes red and dull, deafness, delirium, coma, and when malignant, death frequently closes the scene.

fect. Follow up with the Tonic Pills for a few days to restore the system to healthy action, and sound health will soon be established.

For sale by Brown & Dunn, Warsaw. See Dr. Bragg's advertisement in another column.

Though diseases may be fastened upon us, yet how thankful ought we to be that Providence has placed within our reach the means for their speedy and efficient removal. Coughs, Colds, Consumptions and Liver Complaints form by far the most fatal class of diseases known in our land.

DR. WISTAR'S BALSAM OF WILD CHERRY.

COUNTERFEITS. OLD VIRGINIA JGALVY

Albemarle Co., Va. March 21, 1847.

Mr. Seth W. Fowle—Dear Sir—I take pleasure in stating to you my experience in the use of Wistar's Balsam of Wild Cherry. I own a very valuable negro girl, who was attacked with a difficulty of the lungs, which brought her in appearance to the brink of the grave.

Consumptive Patients.—Will please read the following statement from the Harrison Gazette:—The credulous are invited to read the following note from Rev. Mr. Coldron, whose character for truth and veracity is above suspicion, and have their doubts dispelled by the superiority of Wistar's Balsam of Wild Cherry, over all other remedies now before the public of the same character.

It is no less a duty than a pleasure to state, for the benefit of the afflicted, that I consider Wistar's Balsam of Wild Cherry a great blessing to the human race.—Having tried it in a case of severe afflication of the lungs, I unhesitatingly recommend it to those similarly afflicted, as the best remedy I have ever tried, and one which cured me when physicians said I must die, and when I thought myself that my time to depart was near at hand.

CAUTION.—To guard against a spurious imitation of Wistar's Balsam, put up in Philadelphia by one W. M. Spear, the genuine has the names of Henry Wistar, M. D., Philadelphia, and Sanford & Park on the fine steel engraved wrapper—without both of these names, it is positively counterfeited.
