THE CENSUS OF 1890.

The Army of Men Who will Help to Compile it.

New York, June 11.—About 40,000 persons will be employed in the the work of taking the next national census Only a small number will have employment longer than thirty or forty days however. The superintendent of the census and his force of clerks are now at work on the plans for the real work in the field, which is to begin June 1 next year. There will be 175 supervisors appointed according to the population and the work which they have to superintend. They will receive $125 salary, and are given $1 for every 1,000 persons enumerated in thickly settled and $1,40 per 1,000 in thinly settled districts. They shall not be permitted to make an aggregation of over $500 for the entire work. Supervisors must be elected by the president and confirmed by the senate. The enumerators will be appointed by the superintendent of the census upon the reccomendation of the supervisors. The pay fixed the enumerators is 2 cents a head all enumerated, and 5 cents for each soldier or soldeir's widow, 15 cents for a farm and 20 cents each for manufacturing establishments. In the thickly populated regions the enumerators are not permitted to make more than $4 per day, and the sparsely settled districts they are confined to $6 per day. Those having thickly settled distircts are expected to enumerate about 4,000 souls. In thinly settled districts the salaries will be fixed arbitrarily without reference to the number enumerated. The appointments of the supervisors and the numerators must take place not later than May 1, 1890, as all of the work must be done the following June. Under the new appointments Illinois will have eight supervisors, Indiana six, Michigan six, Wisconsin five, Iowa four, Nebraska three and Ohio eight; an increase of two supervisors in Michigan, one in Wisconsin and one in Nebraska; the population of those three states having greatly increased during the last three years.

To Form a Plug Tobacco Trust.

St. Louis, June 13.—The latest trust scheme is one with a capital of 25 millions, which takes in all the plug tobacco manufacturers in the United States. All manufacturers will sell out to one company and then take stock to the amount of the valuation of their plant. Legget & Meyers and Drummond & Co. of this city, and P. Lorillard of New York are the head of the affair.

One thousand dollars will be paid to any chemist who will find on analysis of S. S. S. (Swift's Specific) one particle of mercury, Iodide of potash, or any poisonous substance.

In 1873 I contracted blood poison, which soon developed into its severest form, with blotches and ugly sores all over my body, which totally disabled me for over a year. The doctors treated me all the time without benefit. The disease steadily growing worse and worse, I was unable to work for more than a year; finally was persuaded to take Swift's Specific. After taking seven bottles I was sound and well, and have not felt a symptom of the disease since. This was sixteen years ago.

Wife Murder and Suicide.

Vincennes, Ind., June 12.—Near this city this afternoon Seth Murray, a tenant living on a farm, shot and killed his wife, attempted the life of the wife of his son, but the shot gun was unloaded, and then terminated his own life by swallowing a large dose of prusic acid. Murray was 53 and his wife 52 years old. No cause was given for the commission of the crime except Murray's vicious temper.
