The prospects are Butler Academy will be well attended this winter. The building has been put in first class order and the gentlemen having charge of the school being experienced educators there is no reason why this college should not be one of the most flourishing in the state.

It is announced that Hon. Richard Dalton, collector of customs for the port of St. Louis, is to wed Miss Mayme Carr, of Jonesboro, Mo., in October. The young lady is said to be but 19 years of age, while Col. Dalton is 50. Better late than never.

The yacht race for the silver cup between America and England stands 'hoss' and 'hoss' with three races yet to run. In the first race made Saturday the Defender, the American boat, won easily, and in the second heat Tuesday Valkire, the English yacht was winner. In this second race the Defender met with an accident by breaking her jib topsail which lost her the race.

Prof. W. E. Welch, for several years principal of the Adrian public schools, has gone to Lexington, Va., to attend the Washington-Lee University. Prof. Welch, besides being one of our very best teachers was a versatile writer and composer. He is a poet of no mean merit as his many published short poems show. What is the use in the democrats pulling hair in state elections over the money question. The national convention is the place to settle that matter.

Judge Buckner has withdrawn from the senatorial race in Kentucky. This leaves the fight between McCreeary and Blackburn with the chances decidedly in favor of Senator Blackburn's re-election.

Sedalia is still working on the capitol removal bond. The time to put up or shut up is not long off and the odds seem to be in favor of the capitol remaining where it is. Sedalia has lots of grit, and cash, but when it comes to putting your fist to a bond, men with money to back their signature are a little bit slow in signing their names.

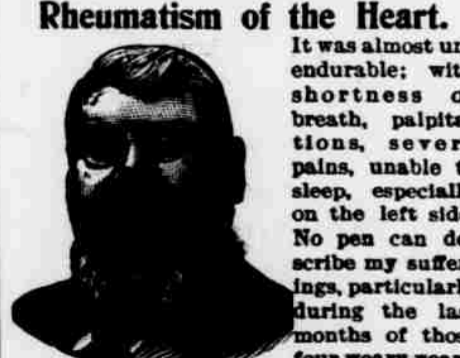

The TIMES returns thanks to it's good friend F. M. Voris for a renewal of his subscription. While able to get about with the aid of crutches Mr. Voris still suffers from the severe injury received to his leg and foot while felling a tree some months ago, and it is probable he will not have full use of the limb for some time to come.

The TIMES' substantial friend and old subscriber, C. C. Jasper, of Foster neighborhood, accompanied by his charming little daughter and niece, Miss Jasper, gave the TIMES a very pleasant call Monday. They came to take a look through the TIMES printing establishment and to see the mode by which the paper was printed. In this they were disappointed as the press days of the TIMES are Saturdays and Wednesdays.

Here is what Mrs. Lease has to say of the populist party in Kansas: "Yes, I want it understood that I am out of politics for the present. I am just as devoted a populist as I ever was, because populism in its purity is good, but populism like that we have in Kansas now, I want no hand in. The party has fallen into the control of a gang of the worst political hybrids I ever heard of. I am not condemning the rank and file of the party. Unfortunately they have been misled by men who are tricky and wiser politicians than they are. Before these thieves and grasping office seekers got control of the machine there never was a young party in this country that had any brighter prospects for the future than the populist party had in Kansas. I am sorry that our good populists have allowed the party to degenerate into the degraded abortion it is to day but, of course, I can't redeem it."

YEARS OF INTENSE PAIN.

Dr. J. H. Watts, druggist and physician, Humboldt, Neb., who suffered with heart disease for four years, trying every remedy and all treatments known to himself and fellow-practitioners; believes that heart disease is curable. He writes: "I wish to tell what your valuable medicine has done for me. For four years I had heart disease of the very worst kind. Several physicians I consulted, said it was Rheumatism of the Heart."

It was almost unendurable; with shortness of breath, palpitations, severe pains, unable to sleep, especially on the left side. No pen can describe my sufferings, particularly during the last months of those four weary years. I finally tried Dr. Miles' New Heart Cure, and was surprised at the result. It put new life into and made a new man of me. I have not had a symptom of trouble since and I am satisfied your medicine has cured me for I have now enjoyed, since taking it

Three Years of Splendid Health. I might add that I am a druggist and have sold and recommended your Heart Cure, for I know what it has done for me and only wish I could state more clearly my suffering then and the good health I now enjoy. Your Nerve and other remedies also give excellent satisfaction." J. H. WATTS, Humboldt, Neb., May 9, '94.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 40c, 6 bottles for \$1.00, or it will be sent, prepaid, on receipt of price, by the Dr. Miles Medical Co., Elkhart, Ind.

People who live in new countries are liable to be prostrated by malarial fevers. Inhabitants of cities, by reason of bad drainage and unwholesome odors, suffer from similar diseases. Ayer's Ague Cure is warranted a specific for all malarial poisons.

Probate Judge Dalton united in marriage the following parties on Thursday, Sept. 5th at his office in this city: Don Alfonso Shackelford of Independence, and Miss Maggie Nash, of Virginia, this county. Also, J. C. Flemming and Miss Kate Kiser, both of Virginia, Bates county, Mo.

At Rockville some improvements are being made. It is the only town in the state on record where the druggist has a saloon license and pays \$100 a year for it. It is run in connection with his drug store. If every druggist in the state could get a license at the same price, Parson Wisker would have no reason to complain of Sunday saloons. There are but few towns in the state, if any, but what have "joints," as a Kansas man would express it, but there are a very few of them that pay license.—Sedalia Bazaar.

Blacks Demand Admission to Schools.

Centralia, Ill., Sept. 3.—The second day of school finds the seats in the new colored school building still vacant except those of the two teachers. A bitter race war is on. The blacks demand admission to all schools, and threaten suits for damages for interfering with their rights of citizenship.

The whites threaten retaliation by refusing employment to black men.

Peculiar to Itself.

Hood's Sarsaparilla is peculiar to itself, in a strictly medicinal sense, in three important particulars, viz: first, in the combination of remedial agents used; second, in the proportion in which they are mixed; third, in the process by which the active curative properties of the preparation are secured. These three important points make Hood's Sarsaparilla peculiar in it's medicinal merit, as it accomplishes cures hitherto unknown.

But it is not what we say but what Hood's Sarsaparilla does, that tells the story. What Hood's Sarsaparilla has done for others is reason for confidence that it is the medicine for you.
