GOOD STYLISH SHOE AT A VERY LOW PRICE.

G. ELLINGER.

REGULATOR OF PRICES.

WOMEN are not the only ones who are sensitive about their ages. A man doesn't like to be told that he is getting old. Health keeps a man young. It doesn't make any difference if he has lived eighty years. If they have been healthy years, he will be hale and hearty and won't look within twenty years as old as he is. Good digestion and rich, red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich, red blood. It makes health in the right way. It works according to the right theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning—begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs wherever they may be and forces them out of the body. All druggists keep the "Discovery."

2nd Hand Feed Mill, nearly new, for sale. Enquire of Bennett Wheeler Mer. Co. 13 Im.

Want a farm? Write A. Saxey, Kossuth, Linn county, Kansas, about his 80. Cheap. 14 Im.

"All signs fail"—except pimples. These never fail to indicate an impure condition of the blood, which may be thoroughly cleansed and renewed by the use of Ayer's Sarsaparilla. The most efficacious and economical of blood purifiers.

The blue bird is hailed as a harbinger of Spring. It is also a reminder that a blood-purifier is needed to prepare the system for the debilitating weather to come. Listen and you will hear the birds singing: "Take Ayer's Sarsaparilla in March, April, May."

Our esteemed friend F. F. Burch, with his estimable wife and baby, left the first part of the week for Perry, Oklahoma, their future home. The Times can commend Mr. Burch to the people of that community as an honorable upright citizen and clever gentleman.

G. M. Tye, one of our good friends at Amsterdam, has his address changed to Belton, Cass county. He has been having great trouble with his eyes, losing the sight of them entirely, and he leaves his farm and goes to Belton for the purpose of consulting Dr. Moad, an oculist of that place. The Times hopes he will meet with success and that the doctor may be able to give him permanent relief.

Pleasant Hill has seventeen cases of small pox. Two deaths have occurred.

Lysander Dotson and Miss Mary Cadwell, of Coffee county, Kansas, were married by Probate Judge Dalton, Thursday evening of last week. The couple were barely of age and had eloped to Bates to get hitched as the old folks objected. Just as the Judge had tied the knot in the most approved style of the art, sheriff Colyer entered the office and placed the two under arrest, having been so requested by telegraph. He held them an hour or so when the old folks learning they were too late to check the wedding ordered their release and they were set free. From general appearances neither of the two looked like they were worth making a fuss about or the cost of a telegram.

The Times regrets to learn that its esteemed friend J. H. Showalter, living near Lone Oak, has sold his farm and taken his departure for the southeast part of the state, for the purpose of looking up a new location. Mr. Showalter was one of the stalwart and progressive democrats of his township, and always took an active part in politics and could be counted on to cast a straight ballot. The Times commends him to the people with whom he may cast his lot as an honest and upright citizen and a kind and good neighbor. and wishes him success.

Sweetly at Rest.

Maxwell Riley, the beautiful little boy of Mr. and Mrs. C. E. Dimmett, who passed away Friday night was tenderly laid to rest Sunday afternoon in Oak Hill cemetery in a white lined grave. A simple and fitting service was held at the family residence conducted by Rev. Blair of the Cumberland Presbyterian church. "Safe in the Arms of Jesus" and "Some Day, Some Time" were selections rendered by a quartette and Mrs. Dora Trimble touchingly sang the sacred Lullaby "Sleep Little Baby of Mine." The fair little form rested amid sweet flowers in a white casket, with violets and white hyacinths, his birth flower, about him.

Little Max was a child of much promise, a continual joy in the household which his leaving has made so desolate and many mingle their tears with the grief-stricken parents and relatives.

"I cannot say and I will not say that he is dead—He is just away."
—Democrat.

The merchants are receiving their spring stocks of goods.

Gov. Greenhalge, of Massachusetts, is reported to be on his death bed.

John Nagley and Miss Emma Peters were united in marriage by Rev. Watkins, on the 27th.

Cures, absolute, permanent cures have given Hood's Sarsaparilla the largest sales in the world and the first place among medicines.

Our old friend J. W. Ashbaugh, called to see us Tuesday. He says he has been a constant subscriber to the Times for seventeen years and in all that time only missed two issues, which he considered a great loss.

Ed. S. Austin of Jefferson City spent Friday, Saturday and Sunday in town, taking a rest from his newspaper labors. He has not been well for some time and the vacation was taken to recuperate.

If the cadaverous looking pictures in the St. Louis papers are correct likenesses of the personages from the country who attended the sound money conference in St. Louis Saturday, then the free silver crowd has nothing to fear unless they are afraid of ghosts.

W. W. Graves and J. S. Francisco attended the meeting of sound money democrats held in St. Louis, Saturday. Among the proceedings we see Mr. Graves was honored with a position on the organization committee. Mr. Graves is a thorough democrat, but at the same time holds to the theory of the administration on the money question. However, if the party in national convention wills otherwise, he will gracefully fall into line and as heretofore lend his support to the ticket named.

The "Battle of Roses" at the Christian church last Thursday night was the 2nd exhibition of the contest for supremacy between the House of York and the House of Lancaster, rival Butler Academy societies. The oratory, music, brilliant repartee and debate furnished a delightful evening's entertainment for our citizens, and so nearly equally matched were the contesting societies that five judges, checking on the merits of each participant, after summing up the result, found only a few points difference and it was tacitly agreed to call it a "draw" and let them try it over again at a future date.

J. M. Hogan, of Adrian neighborhood favor us with a renewal of his subscription for '97.

Frank Allison a former well known citizen of this county, now residing on a farm near Walker, Vernon county, spent Saturday in this city on business, having come up to look after some corn he owned. While here he called on the Times and renewed. He is favorably impressed with his new home, and reports corn selling at 18 and 20 cents. He said there was considerable of a howl about low prices, but he preferred well filled granaries at 18 to 20 than empty ones at 60 and 75 cents per bushel, and as long as the bins were full he would not abuse the administration for over production and low prices. That is common sense talk.

YEARS OF INTENSE PAIN.

DR. J. H. WATTS, druggist and physician, Humboldt, Neb., who suffered with heart disease for four years, trying every remedy and all treatments known to himself and fellow-practitioners; believes that heart disease is curable. He writes: "I wish to tell what your valuable medicine has done for me. For four years I had heart disease of the very worst kind. Several physicians I consulted, said it was Rheumatism of the Heart.

DR. J. H. WATTS.

Dr. Miles' New Heart Cure, and was surprised at the result. It put new life into and made a new man of me. I have not had a symptom of trouble since and I am satisfied your medicine has cured me for I have now enjoyed, since taking it Three Years of Splendid Health.

I might add that I am a druggist and have sold and recommended your Heart Cure, for I know what it has done for me and only wish I could state more clearly my suffering then and the good health I now enjoy. Your Nerve and other remedies also give excellent satisfaction." J. H. WATTS. Humboldt, Neb., May 9, '94.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00 bottles for \$5, or it will be sent prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

Dr. Miles' Heart Cure Restores Health

Summit Items.

Farming begins this week and items may be scarce for a while. Frank Chambers says he is going into the hog business and bust the market. That wedding took place on time, if not a little ahead. Some patches of oats were sown last week. G. W. Clarity, who has been down with a spell of pneumonia fever, is recovering. W. B. Tyler is so industrious that he sows his grass seed by moonshine. Roads are getting in good shape again, which make all more at ease, especially those who have to change locations. Geo. Lawson reports his father loading so heavy with wood as to mire down on dry roads. Six horses were sufficient to take it out, however, but his wagon was broken. J. Phillips bought corn at 15 1/2 cents per bushel, and thinks that is more than the cattle market will justify him in paying. The road overseers of our township should have observed, during the spell of bad roads, where it is necessary and what is needed to avoid those impassable places on the roads again. The people of this township will call you blessed if your duty is performed in the right direction. Joe Stearns has been confined to his bed with a severe case of la grip. A little child of Wm Warner's, who is living on Jas. Reynold's farm, died Saturday night. John Moore has some ripe cattle for market, but thinks the market not quite ripe enough for the cattle. The Populists have a broad and pleasant smile on their faces over the apparent rent in the Democratic and Republican parties, which they think will bring thousands of votes to their party. Now, Mr. Pops, you should not build too high in hopes on what you will get from these parties. The truth is the rent is not so bad when

you come to examine some past history of parties, as it might first appear. There has always been more or less division in the great parties on certain lines, which are generally settled in the National conventions, and when the Chicago convention meets, whatever differences may exist will be settled, and in a way that all will acquiesce. The party will come through the campaign unscathed in numbers and should a split occur in the Republican convention at St. Louis, the Democratic party will reap the benefit and not the Populist. The Republicans do not like a Populist and 'twould be hard for the Populists to draw that vote in large numbers unless the good things were in sight and this would only occur in certain localities. No, it don't look so gloomy that we are ready to hide out. A lively old party will be the Democratic in the next campaign and the next, and when it is dead and its principles laid aside—which we think will never be—sad will be the condition of this fair and noble land.

W. R. C.

Thanks are hereby tendered the teachers and pupils of the Butler schools for the loyal and patriotic entertainment given, not only in honor of our hero's birthday, but to the G. A. R. and W. R. C. as well. The warm, bracing atmosphere, the courtesy shown by the G. A. R., and the military music by the band made an episode in the W. R. C. long to be remembered. By order of the Corps.

ALICE SPEICE LYBARGER, Press Correspondent.

Nevada has one case of small pox brought to town by a negro boy from Kansas City, named Lindley. In the house where the patient is quarantined is a family of eight women and children.
