SOME FADS AND FASHIONS FROM GAY OLD GOTHAM

By Catherine Mann-Payzant.
New York, July 2.—The coat is an all important feature of dress this summer and is appearing in a greater number of styles than heretofore. The different sorts are of all lengths, all materials, borrowed from many historical periods. Every woman should be able to find some mode, some style that will suit her individual needs.

One of the smartest of the dressy jackets is a rather long model with the front parts cut away, in some so much that the hips are left free and fastened by means of one or two buttons only. The shortened back parts of these jackets terminate in a rounded off basque toward the sides. Sleeves are the most interesting part of the new coats, and they are very long and tight in front and at the back, from the elbow shows folds and is finished off with lace frills at the hand. It is a sleeve style of which is used both for dresses and jackets.

When intended for evening wear the loose owing lines predominate, and among general utility coats there are many of picturesque type with a suggestion of mantle or cape or perhaps a fancifully draped sleeve.

One of the fancies of the sea is the moire coat, though the taffetas and pongees are still holding their own. Taffeta is used for everything in the coat line from the dust coat to evening wraps, and particular mention should be made of the serviceable little coatees so popular this season and worn so frequently over the lingerie dress.

The lace coats are having a great run and no wonder, for they are light, just enough warmth for the cooler evenings, and yet if occasion demands, may be worn over a gown in the daytime.

There are two smart models. The first is tight-fitting to the waistline

and snug in the front and back. The sides are molded upon the same lines as the tailor-made gown, giving it a little of a look of a tailor-made. The second coat is only half-fitting, it is fitted in the back, but open and loose in the front, and hangs in graceful lines away from the figure. The last type is the more generally becoming and may be worn by the tall and the stout woman.

Women hesitate to wear a jacket over a handsomely gown, but the lace coats or wraps are doing just the need.

It is a fad among women who can afford it to have several lace coats.

the indispensable black coat, a light or white coat for evening wear, and there is a fad just now for pale pink lace coats to wear over pink silk and lace lingerie gowns, and the light yellows to wear with yellow overed stuffs that will be in use so much this summer.

Brown laces are exceedingly smart, and one can buy a brown lace blouse with a long brown lace coat to match. A brown voile skirt trimmed with brown taffeta completes a very neat afternoon costume which may be either short or long. Of course, the same idea may be carried out in other colors as well.

HE MAY TURN DOWN BONDS

TREAS. EDWARDS DON'T LIKE SURETY COMPANIES.

Has Been Advised By Friends to Turn Them Down in the Face of the Supreme Court Ruling, and Is Said to Be Seriously Considering it.

It is currently reported that State Treasurer Edwards is seriously considering the advice of friends to disregard that part of the state depository law requiring the acceptance of bonds of surety companies by the banks bidding for the custody of state funds, and to let them institute mandamus proceedings to force him to accept such bonds if they care to do so.

Mr. Edwards has bitterly opposed the acceptance of this form of security, but was outvoted by the other members of the commission, and as he regards his own responsibility for the funds still binding even when the money is let out to the depositories, it is very probable he will take the course mentioned, in spite of the decision of the Supreme Court on the validity of the law, although at the same time criticizing the surety bond feature of it. The result is awaited with a good deal of interest, especially by the banks and the surety bond concerns.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that it saved his life—William Stroling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by Hays & Field and Yellow Pine Pharmacy.

WANTED—Ten hustling boys to sell the Daily News every afternoon. Ask for the Circulation Manager.

Tires repaired for 15c per puncture. Jones Repair Works. July 1st

REGISTRATION NOTICE. I will be at the following places on the dates given below for the purpose of registering the voters of Forrest county.
Rawls Springs, Monday, June 1st.
Eatonville, Tuesday, June 2nd.

THOMAS L. LEWIS.

John Mitchell's successor as president of the United Mine Workers of America, Thomas L. Lewis, already has had large experience in labor executive work. He held the position of treasurer of the United Mine Workers for two years and then was chosen vice president. Earlier in life Mr. Lewis was prominent in the Knights of Labor organization. He was born forty-two years ago at Midway, Pa., and worked in the anthracite mines many years, beginning at the tender age of seven. His father was a coal miner, a native of Wales. The family removed to Martins Ferry, O., when Tom Lewis was a youth.
