

I understand that there is being a report circulated that I do not care for the office of Alderman, and would resign if elected. I beg to advise that this is a mistake. I would appreciate your vote and endeavor to give the best possible administration.

# Stand for the Enforcement of Law and Vote for **J. D. DONALD** For Mayor. **PRIMARY JULY 29th**

The welfare of our city, the security of our homes, the happiness of our citizens, the rightful protection of our children, depends upon proper enforcement of the law.

## Donald's Election Means a Continuation of Good Government in Hattiesburg

Hearst News Service.  
Mexico City, July 28.—The Mexican government is building an inland canal 104 miles long, to connect the ports of Tampico and Tuxpam. The inland waterway is now about one-half finished, and the contract was recently let for the construction of the remaining portion. It is estimated that the canal will have cost, when completed, about \$5,000,000 Mexican money, which is equivalent to \$2,500,000 gold. It is 75 feet wide and has a uniform depth of 10 1-2 feet.

It has been passed in the last half century. It has already resulted in the employment of many thousand British work people and the introduction of an enormous amount of capital from foreign countries. It appears not improbable that the recent prophecy of Sir Alfred Jones to the effect that the new law will cause the investment of \$125,000,000 of foreign—largely German—capital in manufacturers in this country will be fully realized. Already a large number of foreign firms have secured factory sites. Over 20,000 British patents have been granted to foreigners within the last three years, and not one of the processes for which the patents were taken out has been carried on to any great extent in the United Kingdom.

Toronto, Ont., July 28.—Great Britain's new patent law which becomes operative today, will hamper the activities of many Canadian manufacturing concerns which have heretofore exported goods to the mother country. The new regulations, although primarily directed against the manufacturers of Germany and the United States will operate with the same force against Canada. It is believed, however, that the Canadian companies can satisfy the requirements of the law by opening British factories with only a nominal output.

Washington, July 28.—It is feared here that the enforcement today of the new British patent law will result in a considerable reduction in the exports of this country to Great Britain. After today any patents granted to American manufacturers by the British patent office may be instantly revoked, unless the goods patented are manufactured in Great Britain. British concerns will be at liberty to manufacture the same goods, and the American owners of the patent, if they have failed to establish a factory on British soil, will have no recourse. Patent attorneys here say that a large number of their clients will be affected, although many have complied with the law by starting British factories.

## QUINN FAMILY HOLDS REUNION

Hearst News Service.  
New York, July 28.—P. H. Quinn, leader of the First Assembly District Democratic Association, will appear in the role of the father of one of the biggest families on record at the beach party of the association at Coney Island tomorrow. All of the Quinn followers, with their families, will attend and the affair will likely be one of the biggest of its kind ever held at Coney.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.00.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill." Sold by Hays & Field and Yellow Pine Pharmacy.
