Mob Took Him From Brighton Jail Last Night After Holding Indignation Meeting.

TROOPS AND STRIKERS ENGAGE IN A BATTLE

Firing Took Place in Inky Darkness and No Fatalities Are Thus Far Reported—Martial Law Now Seems Imminent.

Hearst News Service. Birmingham, Ala., August 5.—Will Millings, the negro who is alleged to have dynamited the homes of non-union miners, was found hanging to the limb of a tree this morning.

Millings was captured yesterday and placed in the Brighton jail last night. The jailor says that he went to sleep at the usual hour and that he knew nothing of the coming of the mob. His house is only a short distance from the jail, but the jail is a flimsy affair and the mob had no trouble in breaking the doors.

It is said that Brighton citizens held an indignation meeting early in the night, when strong resolutions were passed condemning the blowing up of homes occupied by non-union miners. Participants in this meeting deny that they had anything to do with the lynching of Millings, but the officers are investigating.

Four other alleged dynamiters were captured by officers in Ensley this morning and it is understood that they will be brought to this city for safe keeping. Excitement is running high in the vicinity of Brighton and it would hardly be wise to take them to that place.

INDIVIDUALS HAVE RIGHT OF ACTION

The Telephones at the Hotel Hattiesburg and Dead Head Telephones Should Not Be Counted as Subscribers—Individual Action Suggested.

The report of the finance committee, to whom was referred the matter of investigating the charges of discrimination was read by Alderman H. Katz, at the city council committee and was signed by the full committee.

From this report it will be seen that the Cumberland Telephone and Telegraph Company admits that it has not been following the law—that it has been discriminating. Taking the company's reports, the committee finds that the company fell short of 800 for the months of October, 1907, and for March, 1908. For the two months mentioned the company had no right to charge over \$1.50 for residence phones and \$2.50 for business house telephones. Where the company charged more than these prices, those who paid them have a right to demand a return of the overcharge.

It was stated by the chairman of the committee that it was the opinion of the members that the Cumberland had no right to count as subscribers the 150 phones in the rooms of the Hotel Hattiesburg and for which only a nominal charge is made, and the equipment of which is furnished almost entirely by Capt. Jones. It was also the opinion of the committee that the dead-head phone, should not be counted as subscribers.

According to the opinion of the committee all subscribers who have been discriminated against by being charged an increased rate since March, 1907, have a right of action against the Cumberland.

The report of the committee ordered spread upon the minutes of the council.

Duplicate Report.

To the Mayor and Board of Aldermen of the City of Hattiesburg: We, the undersigned members of finance committee, to whom was assigned the duty of ascertaining the number of telephones in use at the Cumberland Telephone and Telegraph Company, and also to inquire into alleged discriminations made by the company in rates charged, beg to submit herewith the following report:

That on the 30th day of August, 1908, this committee, with the Mayor, City Assessor, Reed, of New Orleans, and J. M. Hayes, local member of the Cumberland Telephone and Telegraph Company, at the city of Hattiesburg, Mississippi, had an examination of the company's books, and found that the company had received from the city of Hattiesburg, Mississippi, for the month of August, 1908, the sum of \$150 in advance for the use of telephones.
