RECLAMATION A NEED OF SOUTH

Uncle Sam Should Intervene And Remove Some of The "Abundant Blessings."

Chicago, Ill., June 26.—"What the nation most needs is the intervention of Uncle Sam to remove to some extent some of the exceedingly abundant blessings that a wise Providence has showered upon His chosen spot of the earth—the South."

Guy L. Stewart, agricultural and industrial commissioner of the St. Louis-Southwestern Railway, formerly assistant to James Wilson, Secretary of Agriculture, thus expresses his attitude toward the efforts of the National Irrigation Congress to be of further aid this year in the reclamation problems of the south.

as and the reclamation of swamp lands in Louisiana, which is just beginning, are demonstrating to the country at large the agricultural possibilities of the long-neglected South. Rice growing is an irrigation industry, but with the South as a whole development is not, of course, a matter of irrigation, as Dixie has been granted the blessing of plenty of rainfall.

"The South does need the help of Uncle Sam just as the West needed it. We want the government to take our water away instead of putting it on the soil. This is a simpler undertaking and a million dollars spent by the government could accomplish the reclamation of an area of swamp lands sufficient for the establishment of thousands of homes and for the production of crops worth each year several times the amount invested.

DIRTY POLITICS.

Neglected Grave Of Senator Bilbo's First Wife is Photographed.

Carriere, Miss., June 26.—Something of a stir has been created in political circles in this county by a report that a political enemy of Senator Theodore G. Bilbo, candidate for lieutenant governor, went twenty miles into the country and photographed the grave where Senator Bilbo's first wife is buried, for the purpose of showing its alleged neglected condition.

The incident has created much feeling and resentment among the supporters of Bilbo. Bilbo's friends claim that he had made arrangements to move the body of his first wife to a cemetery closer to his present home some time ago, and that he purchased a monument to be erected over the new grave after the body is moved.

14-CARAT DIAMOND FOUND IN ARKANSAS

Little Rock, Ark., June 26.—A 14-carat blue-white diamond was found recently in the Mauney diamond fields in Pike county and was shipped to New York.

The stone was washed from a ton of dirt just across the line from the big Ozark Diamond Mine Company's property. John Key, one of the Mauney's laborers, was the first to notice it and the yell he let out brought all hands on the run, Mauney among them.

Mr. Mauney took possession of it and accompanied by two guards carried it to Kimerly, where his office is located.

The stone is the largest and is said to be the finest ever found on this continent. It will be valued by experts in New York. Here it is said to be worth between \$8,500 and \$9,000. Upon examination here it was said to be without a flaw. Its general shape is that of a wedge, it is half an inch wide at the top and tapers down to a quarter of an inch.

A BIG DAY AT NEW AUGUSTA

Barbecue, Masonic Meeting And Politically Rally Combined—Addresses By Several Speakers.

New Augusta, Miss., June 26.—A big barbecue, Masonic meeting and political rally were combined and held here Saturday, and no untoward incident marred the tranquility of the occasion.

At an early hour the denizens of the rural homes began to collect and the trains brought legions of pleasure-seekers from adjacent towns. Beneath druid-like oaks in a park, whose very shades suggest the furious reverence of the ancient Britons who laid worship to their gods, a long table was spread, laden with choicest viands.

R. Whitaker, candidate for railroad commissioner, from this the second district, followed and made a strong impression on his hearers. Then came Mr. Nash, again calling on the people to have his claims to lieutenant governor weighed.

Doctor J. D. Donald, ex-mayor of Hattiesburg, who is a candidate for the State Senate, also addressed the people on his aims and proposed measures, and his talk, too, was well received.

Ross Collins, for attorney-general, made a telling talk.

EDITOR ARRESTED; LIBEL IS CHARGED

Corinth, Miss., June 26.—The editor of the Daily Corinthian was arrested here Saturday on a warrant charging libel, said to have been sworn out by "Private" John M. Allen of Tupelo.

Editor Bonney gave bond at once for his appearance at Tupelo today. It is rumored that one or two other editors in the neighboring towns will be arrested on the same charges.

SHOULDN'T WED UNLESS A COOK

Let Wifey Stay in Bed, Take Her Chocolate, Advises Chicago Municipal Judge.

Chicago, June 26.—The spoon that stirs the soup is the symbol of domestic felicity and the husband should learn to use it as well as the wife, said Municipal Judge Goodnow when he was called on to censure a man, who, unable to cook, had forced his wife to arise at 3:30 a. m. to get breakfast.

"The man that can't cook shouldn't think of getting married," said Judge Goodnow. "He is a pitiable object. Let the June bride beware of her husband if he cannot toss the piping flap-jack or coax the flavor from the carrot to the soup.

"The engaged girl usually does not consider in her beautiful dream of things as they should be the drowsy breakfast time. That's where the husband's business of cooking comes in.

"Let him jump cheerfully from bed, tell the wife to snuggle comfortably in the blankets and then let him go down and turn out a mess for himself and wind up by carrying her a cup of chocolate before he hikes for the 7:15. Don't you see that her harmless illusions will thrive and help their married life?

"I'm a mama boy, if that's what it is, and I am proud of it."

POTATO FAMINE IS IMMINENT

Apprehension in Regard To Potato Situation—Bring \$1.60 a Bushel in Houston, Texas.

Houston, Tex., June 26.—Produce dealers are beginning to feel some apprehension in regard to the potato situation, since a potato famine in this market appears to be a certainty. The price has been steadily advancing, rising from 60 and 70 cents at the beginning of the season to \$1.00 and then \$1.25 per bushel, with another jump this week to \$1.50 and \$1.60 per bushel paid to the growers.

California potatoes are coming in now. Before the Western crop began to move California buyers were in the territory buying at much lower figures than are now prevailing. Now California growers are holding their prices firm at \$2.00 per bushel. The shortage in the potato crop in the North last year caused the supply to be exhausted from that source earlier this year than ordinarily. The Northern crop is reported in a very fair condition, but is not moving to any extent yet.
