TERROR REIGNS ON ACCOUNT OF THE LABOR WAR

PIERCER CONFLICTS OCCUR BETWEEN STRIKERS AND OFFICERS IN LIVERPOOL.

TROOPS POUR INTO CITY

Two Laborers Killed and Many Wounded—Trade Is Being Menaced and Travel Blocked—General Strike is Threatened.

(By Associated Press.)

London, Aug. 16.—There is little, if any, abatement in the strike fever today. Rioting nearly all night in Liverpool resulted in the death of two laborers. Work along the docks is at a standstill and the strikers now threaten to tie up all the railways.

Liverpool, Aug. 16.—A reign of terror existed here last night, and troops are pouring into the city to put down disorder. A special guard has been detailed to protect the landing stage of the transatlantic steamers, which it is asserted the rioters have planned to destroy by fire.

Five prison vans, escorted by fifty Hussars, were attacked by 3,000 members of the roughest class in Vauxhall street, in an attempt to rescue the prisoners. The mob attacked the soldiers with missiles of every description and in defending themselves the Hussars fired. At first blanks were used and then ball cartridges.

In this affray one man was killed and many persons were severely wounded. The troops then charged the mob with drawn sabers and cleared the street. So daring were the rioters that one of them tried to unhorse an officer, who was obliged to use his revolver, wounding the man severely in the head.

Another, but less serious affray, in which the troops again were compelled to fire, occurred in one street. Only a few persons were wounded.

At a meeting this evening of the executive of the Amalgamated Society of Railway Servants, the Society of Locomotive Engineers and Firemen, and the General Railway Workers' Union, a resolution was unanimously adopted declaring a general strike throughout the entire United Kingdom.

The rioter who was shot by an officer died later in a hospital. Still another riot occurred in the Everton district, where the mob was trying to stop street cars. The riot act was read, but the disorderly element answered with a fusillade of stones, including several policemen. This disturbance, however, was quelled without the aid from the military.

Shipping here is becoming completely paralyzed. The steamer Lusitania, which arrived from New York today, has been unable to dock, owing to the strike of the tugboat men and it is doubtful if she will be able to coal in time to sail on her voyage next Saturday. The same conditions surround the Celtic. Other liners likely to be affected are the Adriatic, Ivernia, Havertonford, Lake Champlain and Canadian. The special boat trains from London to Liverpool were cancelled today, but hundreds of Americans are here already awaiting boats to take them home.

TO MAKE UNUSUAL PLEA

Jackson, Miss., Aug. 16.—It is a seldom thing that a negro enters the idea of the unwritten law, although this idea has become quite familiar in the South among white people. But George Atkinson, a negro who was brought to Jackson, will enter this plea on a murder charge when it is brought in before the circuit court. He is charged with killing a negro at Ulea who had shown too much friendship for his wife.

CHANGES NAME TO—SMITH!

Minneapolis, Minn., Aug. 16.—Because the name of Olson is so common in Minnesota, and she wanted something distinguished and distinctive in the way of a monicker, Miss Esther Kadell Olson will hereafter be known

Two Young Aviators Fall to Death During Flight

Chicago, Aug. 16.—Two aviators, W. R. Badger, of Pittsburg, and St. Croix Johnston, of Chicago, young men, were killed at the International Aviation meet here yesterday.

Death in both cases was due to unexplained accidents, probably the result of unsuspected defects in the mechanism of the machines but in no way was caused by carelessness or lack of responsibility of the drivers.

Badger, wealthy, aged 25, careened to death in the pit of the aviation field. There was a flaw in one of the wings of the propeller of the Baldwin machine he drove. Centrifugal force broke the propeller and upset the delicate equilibrium of the machine, and Badger was dashed a hundred feet to the bottom of the pit and his neck was broken.

Johnstone fell 500 feet under his machine and was drowned as a result of an equally unsuspected defect. He was caught under the heavy engine in a Moisant monoplane, and was

carried deep into the waters of Lake Michigan and the body was not brought to the surface until several hours later.

Badger lived three quarters of an hour after being extricated from the remains of his engine. He never recovered consciousness and died as soon as he reached the hospital.

Johnstone's fall was witnessed by his wife although it was half an hour before she knew he was dead. A warping strand in the Moisant monoplane broke the wings of the machine, which crumbled like a piece of paper and the machine was hurled into the lake, the heavy engine and tangled wires dragging Johnstone to his death.

as—take three guesses—as Smith! The courts have granted Miss Olson the legal right to change her name, without waiting for the right man to come along.

Olson is a much commoner cognomen in Minnesota than Smith, owing to the large Scandinavian population of the state.

MEXICO ADMITS ANOTHER REVOLT

Zapata Defies Government And Orders Federals Removed From Moreelos.

Mexico City, Aug. 16.—In government circles there is no longer shown a disposition to deny that the government has on its hands another revolution. The movement begun by Emiliano Zapatas' men has gained such headway that it can be stopped, apparently, only by the use of the army. The movement is purely local, however, and is causing no great uneasiness in the capital.

Unlike the revolt conducted by Madero, Zapata's rebellion depends upon discontent. His grievance is not shared by anyone outside the State of Moreelos.

Orders from the War Department went to Chilpancingo, Guerrero, and to Puebla for troops to march immediately to Curnavaica and to report to Huerta. It is not improbable that more troops will be sent from here tomorrow.

VOLCANO KILLS THREE

Trenton, N. J., Aug. 16.—The Shubert Theatrical Company was incorporated here yesterday with an authorized capital of \$1,800,000. The charter indicates that the corporation is to take over all the property and business of the New York company operating under the same name.

ANDREW ALLEN LOSES HIS LIFE

Jackson, Miss., Aug. 16.—Andrew Allen, the sixteen-year-old son of Mrs. Joe Allen, was accidentally killed two miles east of McComb City, in Pike county, Tuesday afternoon. With several other boys he had gone to hunt wild grapes, and among the youngsters was a gun, which was leaned against a tree. Some limbs were cut from the tree which fell about the gun and as the weapon was drawn from the limbs by Saline Solomon, an Assyrian youth, the limbs caught the hammer, discharging the gun and killing young Allen instantly.

TRANSFERS MADE IN CITY PROPERTY

Deeds showing the following real estate transfers have been filed in the office of the Chancery Clerk of Forrest county:

\$500—G. W. Batson to Thos. M. Ferguson. Lot 8 in block 2 of the A. K. Melnis second survey and addition to Hattiesburg.

\$350—W. A. Johnson to E. K. Moore. Lot 3 of block 3, Hattiesburg Heights.

\$25.00 Henry Hale to Lady Hardy. Lot No. 1 in block No. 8, according to the Nancey Adams survey and addition.

MAN KILLED SELF

Port Gibson, Miss., Aug. 16.—Moses Marx, aged 32 years, shot and killed himself late Sunday afternoon in the rear of his brother's furniture store on Main street.

Mr. Marx was the pioneer shipper of vegetables to Northern points in carload lots. For the past two months he was employed as bookkeeper for J. E. Nelson & Co., of Vicksburg, and was spending the day here with his parents. No cause can be assigned for the act.

ADVOCATES OF STATEHOOD ARE STILL ACTIVE

SUBCOMMITTEE APPOINTED TO TRY TO ARRANGE FOR A COMPROMISE.

Washington, Aug. 16.—To determine whether a compromise can be effected between the two houses of Congress to provide statehood for Arizona and New Mexico, the House territories committee today appointed a subcommittee to confer with the Senate committee. The Senate deferred consideration of the statehood bill until tomorrow.

THE WOOL BILL PASSES SENATE

Will Now Go to President Taft For His Expected Veto—Bill Puts Ad Valorem Duty of 29 Cents on All Raw Wool.

Washington, Aug. 16.—To determine whether a compromise can be effected between the two houses of Congress to provide statehood for Arizona and New Mexico, the House territories committee today appointed a subcommittee to confer with the Senate committee. The Senate deferred consideration of the statehood bill until tomorrow.

WOOL BILL PASSES.

The Senate, by a vote of 38 to 28, last night adopted the conference report on the wool tariff revision bill, already adopted by the House. The bill will now go to the White House for the expected veto of President Taft.

The vote came after a vigorous five-hours' debate on the merits of the bill. It was a victory for the combined Democratic and insurgent Republican forces. Only two progressive Republicans, Senators Borah, of Idaho, and Bourne, of Oregon, united with the regulars in the vote against the bill.

The bill as passed by the two houses places a flat ad valorem duty of 29 per cent on all raw wool and proportionate rates on woolen manufactures.

Adjournment Soon.

OPINION IS HELD IN WASHINGTON

The opinion is held in Washington that Congress entered upon the last eight days of the session today. Senator Penrose's resolution, introduced yesterday, for adjournment on Aug. 22, and the belief expressed by Democratic Leader Underwood that all work can be concluded by Tuesday or Wednesday of next week, was taken to indicate it will be difficult to hold the special session together longer than that.

FORM BIG THEATRICAL COMPANY

Trenton, N. J., Aug. 16.—The Shubert Theatrical Company was incorporated here yesterday with an authorized capital of \$1,800,000. The charter indicates that the corporation is to take over all the property and business of the New York company operating under the same name.

ONE KILLED, THREE HURT

Lowell, Mass., Aug. 16.—One person was killed, three fatally injured and a sixty-horse power automobile, traveling at a rapid rate turned turtle two others less seriously hurt when on the boulevard late last night.

One of the rear wheels came off and this caused the machine to turn over, throwing out all of its occupants. Fire destroyed the wreckage.

SKUNK DERAILS CAR

Westbrook, N. J., Aug. 16.—A skunk asleep on the tracks is held for the partial derailling of a shore line trolley car here early yesterday morning, tying up traffic for a couple of hours.

When the car struck, the skunk the forward trucks left the rails and the car ran into a trolley pole, bringing down the feed wires, which caused a suspension of all traffic on the line.

BOOKS SELECTED FOR THE LIBRARY

At a meeting of the committee to select books for the circulating library now organized here, a very interesting list of books was decided upon, about one hundred being the newest fiction by the best modern writers; another hundred being divided between best standards, choice classics, standard juveniles, books on general subjects such as art, music, new thought and astronomy, and some of the newest histories and biographies.

The books will be ordered as soon as all the subscriptions are paid in.

THE WEATHER

Local showers tonight or Thursday.

Business Outlook Grows Brighter For Hattiesburg

The business outlook for Hattiesburg is growing brighter and there is but little doubt that in a few weeks there will be renewal of industrial activity. This is evidenced by the number of improvements being made at several manufacturing plants in the city.

It is of especial interest to note that improvements are being made on the plant of the Carley Manufacturing Company, which has been shut down for some time. Everything is being put in perfect condition and the big industry will resume operation in a few weeks.

The Carley Manufacturing Company manufactures sash, doors, blinds, mantels and other building material and is one of the largest establishments in this section. When in operation a number of skilled workmen are given employment, and the industry is an important one.

The spirit of progress has also struck the Hattiesburg Compress Company, and the buildings of this com-

MIGUEL GOMEZ UNDER ARREST

Alleged to Have Headed Assassins in an Attack on Havana Editor.

Havana, Aug. 16.—Miguel Gomez, a son of President Gomez, and Congressman Armando Andres, editor of El Dia, an anti-administration newspaper, principals in Monday night's pistol fight at the Cafe Cosmopolita, were arrested yesterday. Both men emptied their revolvers, but neither principals nor spectators were wounded.

The opponents of President Gomez declare it is now perfectly plain that the President was fully committed to a policy of terrorism and assassination, which began with the shooting of Gen. Pino Guerra when the commander of the Cuban army was leaving the presidential palace the night of Oct. 22.

El Dia asserts many friends accompanying young Gomez fired on the editor, indicating that the President's son was the leader of a band of assassins. Color is given to this theory by the fact that the walls of the Cafe Cosmopolita and the fronts of the adjoining buildings show bullet marks exceeding in number the shots that could have possibly been fired by the two men alone.

WAR ON THIEVES

New York, Aug. 16.—Feeling that their lives are no longer safe from such "strong arm" thugs and robbers as those who murdered Adolph Stern in Jacob Jacob's jewelry store a few weeks ago, the heads of the seven large jewelers' associations in the United States will meet in New York on Sept. 13, to form an organization for their mutual protection.

ATWOOD CONTINUES FLIGHT

Elkhart, Aug. 16.—Aviator Atwood started on his eastward trip this morning a few minutes after 8 o'clock. He expected to stop at Toledo and spend the night at Sandusky, sixty miles further eastward.

THE PUBLICITY BILL IS NOW UP TO PRESIDENT

Washington, Aug. 16.—The Senate today agreed to a conference report on the campaign publicity bill and it now goes to President Taft for his signature. It includes a provision that no Senator shall spend more than ten thousand dollars and no representative more than five thousand to insure his election.

ANOTHER ELECTION INQUIRY

Washington, Aug. 16.—The Senate today agreed to a conference report on the campaign publicity bill and it now goes to President Taft for his signature. It includes a provision that no Senator shall spend more than ten thousand dollars and no representative more than five thousand to insure his election.

WILEY BEFORE THE INVESTIGATING COMMITTEE—SENATOR SMOOT ATTACKED BY MR. LA FOLLETTE—CLASH BETWEEN MEN RESULTED.

Washington, Aug. 16.—The Senate today agreed to a conference report on the campaign publicity bill and it now goes to President Taft for his signature. It includes a provision that no Senator shall spend more than ten thousand dollars and no representative more than five thousand to insure his election.

WILEY BEFORE COMMITTEE

Senators Heyburn, Sutherland, Bradley, Paynter and Pomerene were today appointed a subcommittee to investigate the election of Senator Stephenson, of Wisconsin. The appointment was made by Chairman Dillingham, of the committee of elections.

WILEY BEFORE COMMITTEE

Accused of having made an illegal contract for the expert services of Dr. Busby, Dr. Harvey Wiley, the pure food expert of the government chemistry bureau, today testified before the House investigating committee. He described his activity in advocating pure food legislation.

CLASH IN SENATE

Arraigning Reed Smoot, one of the twelve apostles of the Church of Jesus Christ of Latter Day Saints, and incidentally a Senator from Utah, as one who had violated a trust reposed in every Senator by reason of having voted on a matter in which he has a pecuniary interest, Senator LaFollette this afternoon opened war on what are known as the "Senators of privilege"—that is, Senators who, unblushingly, vote to impose duties that will enable them to put dividends into their own pockets. With all the dramatic force at his command, and everybody admits that it is great, the Wisconsin Senator denounced his colleague from Utah for the part he took in creating the infamous wool schedule of the Payne-Aldrich law.

Mr. LaFollette addressed Smoot as "you" instead of "the Senator from Utah," but no one sought to call him to order for this breach of the rules intended to prevent breaches of the peace on account of personal references in debate.

Mr. Smoot tried to turn the tables on Mr. LaFollette by asking him if a certain magazine publisher did not vote on Canadian reciprocity. Mr. LaFollette cheerfully said he, a publisher, had done that very thing. "But I had no interest in that matter."

"You had," snapped out Mr. Smoot with as flat a contradiction as has been heard in the Senate since the Tillman-McLaurin fight.

"I did not because that related to paper worth not more than four cents a pound. I pay a good deal more than four cents a pound for paper."

"That may be so; but I want to say to you that within forty-eight hours after you passed the tariff bill two years ago I was notified that I would have to pay still more."

WAR ON THIEVES

New York, Aug. 16.—Feeling that their lives are no longer safe from such "strong arm" thugs and robbers as those who murdered Adolph Stern in Jacob Jacob's jewelry store a few weeks ago, the heads of the seven large jewelers' associations in the United States will meet in New York on Sept. 13, to form an organization for their mutual protection.

ATWOOD CONTINUES FLIGHT

Elkhart, Aug. 16.—Aviator Atwood started on his eastward trip this morning a few minutes after 8 o'clock. He expected to stop at Toledo and spend the night at Sandusky, sixty miles further eastward.
