

SATURDAY, MARCH 3, 1883.

ANNOUNCEMENTS.

For the Legislature.  
We are authorized to announce Dr. Jno. Y. MERRY, as a candidate for...  
Election, Tuesday Nov. 6, 1883.

For Chancery Clerk.  
We are authorized to announce the name of OLIVER F. RAY as a candidate for...  
at the ensuing November election.

We are authorized to announce the name of T. A. HUNT as a candidate for re-election to the office of Chancery Clerk of Tiptah County at the ensuing November election.

For County Treasurer.  
We are authorized to announce the name of D. W. BARTLETT as a candidate for re-election to the office of Treasurer of Tiptah County, at the ensuing November election.

For Sheriff.  
We are authorized to announce W. A. THOMAS as a candidate for Sheriff of Tiptah County at the ensuing November election.

For Circuit Clerk.  
We are authorized to announce H. B. McCLORD as a candidate for re-election to the office of Circuit Clerk of Tiptah County at the ensuing November election.

The 47th Congress will expire at 12 o'clock Meridian next Sunday, March 4th.

The Senate at the next session will stand thirty-eight Republicans, thirty-six Democrats and two "Readjusters," Mahone and Riddleberger.

In the case of prof. S. P. Brown, for the murder of Dr. J. L. S. dler, the Supreme Court affirms the decision of our Circuit Court, and Mr. Brown has accordingly been sent to the penitentiary at Jackson, where he goes for life.

Prof. Prewitt left early in the week for Grand Junction, Tenn., and it was his expectation to return to-day.

The only iron preparation that does not color the teeth, and will not cause headache or constipation, as other iron preparations will, is Brown's Iron Bitters.

MEMPHIS APPEAL: "Congressman Ellis, and those co-operating with him, have succeeded in crippling, possibly in destroying, The National Board of Health. The time will come when they will regret it, and when they will see they struck a blow at New Orleans."

We were shown a picture the other day, of one of the "handsomest editors" in the State and asked to tell who it was. We guessed it was Col. Power of the Clarion and we guessed correctly. It was executed by Miss Etter Murry of this place, and was a splendid likeness. Miss Etter has a talent for picture making that is possessed by few of no greater experience, and she should by all means cultivate it.

WHAT the people demanded and expected of Congress was a repeal of the bulk of the internal revenue tax and the abolition of the present expensive machinery by which they are collected, and the reduction of the tariff on the implements of industry, blankets, cotton and woolen goods, sugar, salt, iron, etc. But this demand has not been complied with. They ask for bread and the dominant party has given them a stone.—Clarion.

SENATOR EDMUNDS has obtained unanimous consent to introduce a bill for the suppression of polygamy in the Territories of the United States, which is intended to cover the defects of the laws already passed upon that subject. The Edmunds bill of last session was found to be faulty in not being sufficiently drastic. A more stringent measure is needed to expiate the relic of barbarism which has flourished in Utah, and justify decency and mock the Government.—Jackson Clarion.

Circuit Court commences here next Monday.

"The Mozart Society and Conservatory of Music, Memphis," Tenn., was organized July 1, 1882, and numbers about 150 active (singers and instrumental performers) and 200 associate members. Its objects are the cultivation of the amateur musical talent, both instrumental and vocal, and the education and devotion of the musical taste of the community, and the establishment of a high and worthy standard of music in that city and adjacent country.

The Conservatory educates the student upon a well regulated plan of music instruction, which includes Elementary principles, Vocal culture and instrumentation, (Piano and all) Orchestral Instruments, etc. Its teachers are the best to be had anywhere, and are as thorough and efficient, as those of the best music Colleges in the country. Its terms are very reasonable, and the elementary is taught by classes—one hour being devoted to each pupil.

This Conservatory saves the people of Memphis the expense and risk of sending their children abroad to be educated musically, and has thus far received the most encouraging patronage.

THE MOZART MUSIC FESTIVAL is a most extraordinary undertaking for any Southern City, and in fact could only be successfully carried out by Memphis with her splendid society of one hundred and fifty singers led by their eminent chorus leader, Mr. Downs (who gave with such acclat the oratio of "Elijah," "Messiah," & in New York, with "Thomas Orchestra" and the "Philharmonic Club") and backed by its wealthy and influential associate membership. The Society will be assisted by the world-renowned "Thomas Orchestra" of 70 artists, Mme. Julia Rive Kin and five celebrated singers. Three grand concerts will be given in May next, and from Fort Smith, Ark., on the West to Atlanta, Georgia, on the East; from Louisville on the North to New Orleans on the South; the Rail Roads will reduce rates to a very low figure. So Memphis confidently expects an immense concourse of visitors.

Not an experiment or cheap patent medicine is Brown's Iron Bitters. It is prepared by one of the oldest and most reliable chemical firms, and will do all that is claimed for it.

THE FIRST COMET OF THE YEAR.

A little before seven o'clock on Friday evening, Feb. 21, 1883, while Prof. Lewis Swift, Director of the Warner Observatory, Rochester, N. Y., was scanning the Western sky, he discovered a brilliant comet located in the constellation of Pegasus, near the star Beta. The new comet is moving eastward and is very bright. This is the first comet discovered during the present year and also the first discovery made by means of the new telescope of the Warner Observatory, which is the largest private telescope in the world.

Candidates are beginning to let it be known through the papers that they are really candidates. It is a fine thing. Pitch in Lemons and get squeezed.

NO EXTRA SESSION.

WASHINGTON, Feb. 23.—There is no talk anywhere now about an extra session, although it is pretty evident that there will be no tariff revision. It is reported that the President has, within the past twenty-four hours, said that he would call no extra session. He holds that such a session would necessarily be long, and that debate on the tariff would keep the country agitated, and that nothing could be accomplished within the time for the meeting of the next Congress to make an extra session expedient.

On Monday night, the 6th inst., the Comedy "School" will be produced by the Ripley Dramatic Company, for the benefit of the Ripley Female College Fund. Everybody should attend.

Senator Lamar's Speech.

The most masterly speech yet made on the tariff question in Congress was yesterday delivered in the Senate by Mr. Lamar, whose arguments are summarized in our Washington dispatches this morning. Mr. Lamar rightly assumes that what the people want and demand is a lightening of the burdens of taxation, but he shows that it is impossible to effect a reduction of taxation and at the same time maintain a high protective tariff. This fact is entirely overlooked or willfully disregarded by the republican protectionists, who insist on considering the tariff, not in its relation to taxation and revenue, but solely in its relation to manufactures. Their one object is protection to certain favored industries, and they are determined to secure that at the cost even of an increase if necessary of the burdens now borne by the people. Senator Lamar's statesmanlike views ought to be, and doubtless will be, read by the masses, and particularly by every laboring man throughout the country. His speech is a thorough expose of the protection sham.—N. Y. Herald.

The Latest Electrical Discovery.

The Rev. Mr. Gilbert, during an address at Christ Church the other night, remarks: The Otage Times, while speaking of the telephone, asked his audience if they would be astonished if he were to tell them that it was now proved to be possible to convey by means of electric vibrations of light—to not only speak with your distant friend, but actually to see him. The electroscope—the name of the instrument which enabled us to do this—was the very latest scientific discovery, and to Dr. Gnidrah, of Victoria, belonged the proud distinction. The trial of this wonderful instrument took place at Melbourne on the 31st October last in the presence of some forty scientific and public men, and was a great success. Sitting in a dark room, they saw projected on a large disk of white burnished metal the race course at Fernington with its myriad hosts of active beings. Each minute detail stood out with perfect fidelity to the original, and as they looked at the wonderful picture through binocular glasses, it was difficult to imagine that they were not actually on the course itself and moving among those whose actions they could so completely scan.—Scientific American.

Photographing Speech.

The Photo News says: The new system of teaching the deaf and dumb by directing them to look at a person speaking, and to note the position of his lips in giving utterance to different sounds, has now been in practice for several years on the Continent; and, as our readers are probably aware has also been adopted in this country with some success. A Continental teacher has now hit upon a plan of furthering the instruction by having recourse to photography. A model has been chosen whose lips are particularly expressive in their action, and a series of photographs taken to him while pronouncing the different sounds that go to make up a language. Such a "speaking likeness" has been appointed, that in many cases, even an untrained observer has little difficulty in guessing the letter on the lips of the model, as the photographs are displayed one after another. Mr. Warnerke exhibited several of the pictures at the last meeting of the Photographic Society.

The city council of New Orleans are disposed to make an effort to have the Centennial Cotton exposition held in that city in 1884. Acting Mayor Lagan has appointed Alderman Butler, Sancier, Hardy, Booth and Michaelis a committee to confer with the various commercial organizations on the subject.—Memphis Avalanche.

Taxation.

One of the first duties of the Legislature when it meets, will be to inquire if taxation is uniform, and is equal in its operation upon all the properties, values and industries of the State. No laws are just which place heavier burdens upon one class of persons than on others.—Clarion.

What Can Replace The Gospel?

There are a multitude of men bent on destroying Christianity. They wish to demolish the whole system, and everything connected with it. Well, suppose they succeed? "Suppose," says Dr. E. Greenwald, "the Bible burned, the churches, the pulpits silenced, all Christian schools of instruction stopped, all Christian institutions of whatever kind overthrown, all Christian doctrines, Christian piety, Christian duty, Christian worship, Christian influence, Christian life in public and private, in the Church and in the family, by individuals and communities, to be wholly a thing of the past, and no trace of them permitted to remain anywhere in all the land. This would be the result if they should succeed in their insane crusade against Christianity. What would we choose instead? What system now prevailing anywhere in the wide world would we adopt in place of discarded Christianity? Where would we look for a better system than that which we would so wholly renounce? We have cut down this tree; where do we find another that bears better fruit? Let us look around and see what systems prevail in the world, and under whose control large numbers of the people are now living. Which would be selected in place of Christianity? Let the sceptic ponder this question. Let him look at heathenism, at Mohammedanism, at the dying superstitions of the Eastern world, and let him ask himself the question, would I embrace any of these exploded absurdities? Let him look at agnosticism, a leafless, sapless tree, and inquire what a world would be without Creator, ruler, or law; and let him hesitate before he seeks to undermine a faith which has brought more joy, peace and brightness into this world than all the other religions that man has ever invented or embraced.—Christian Union.

THE ATLANTIC Constitution evolves a solid chunk of common sense in this.—There is no bravery in carrying a pistol, no chivalry in shooting a man, no gallantry involved in a street brawl. Our young men ought to understand these things.—Avalanche.

STRONG FACTS!

A great many people are asking what particular troubles Brown's IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood; thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1883.  
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all. I cannot say too much in praise of it.  
Mrs. MARY E. BRIDGES,  
173 Fremont St.

Kidney Disease Cured.

Christiansburg, Va., 28th Dec. 1882.  
Suffering from kidney disease from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Brown's Bitters with the happiest results.  
J. KYLE MORTGAGOR.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1882.  
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.  
Mrs. JANE HARRIS.

For the peculiar troubles to which ladies are subject, Brown's IRON BITTERS is invaluable. Try it.

For the State of Mississippi:  
To Miss Katy McCarley.  
You are commanded to appear before the Judge of our next Circuit Court of Tiptah County, Miss., to be held in Ripley on the 1st Monday of March, 1883, to show cause, if any you can, why the judgment rendered on the 17th day of Sept. 1880 in favor of Mrs. Mary H. Moore against Mose McCurley, dec'd, should not be revived against the administrators and heirs of the said Mose McCurley, dec'd, in favor of the said Moore for the use of R. J. Thurmond, who, as appears from the records of the Circuit Clerk of Tiptah County, Miss., has purchased said judgment for a valuable consideration.

Witness my hand and seal of office, this 6th of February, 1883.

More people have read The Sun during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read by so many men and women.

We are credibly informed that people buy, read, and like The Sun for the following reasons, among others:

Because its news-columns present in attractive form and with the greatest possible accuracy whatever has interest for mankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs The Sun makes a practice of telling the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. The Sun has absolutely no purpose to serve save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that The Sun is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Overbribery and for honest government. No matter what party is in power, The Sun stands as it will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that The Sun is the best religious newspaper ever published, because its Christianity is unblinded by craft. Another holds that it is the best Republican newspaper printed, because it has already whipped out of the ranks out of that party, and is proceeding against the other half with unflinching vigor.

A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every reader of The Sun discovers one of its many sides that appeals with particular force to its individual liking.

If you already know The Sun, you will observe that in 1883 it is better than ever before. If you do not already know The Sun, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine republican democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.
