

THE FARM.  
The Ohio Farmer says: In splitting large or tough oak and hickory logs with a man and wedge, a great amount of muscle has to be brought into use, and a good deal of strength is expended foolishly. By the blasting process a dime's worth of powder will, many times, save a half day's labor, besides the wear of the beetle.

Though gone she is in the sky,  
And so I dropped the curtain white,  
And took my rest by night.

Rev. W. L. Parker has entered upon his duties as Assistant Minister of Grace Church, Utica.

A Vermont doctor recently gave up a case as hopeless, and on his way home broke his leg, while, to illustrate more fully the uncertainty of human predictions, the man he had doomed to death recovered in time to make him a pair of crutches.
