An act to facilitate the arrest of fugitives from justice. Bill to incorporate the Winchester Mills Company, passed. A special committee of five Senators appointed to investigate the Gibbs Hewson imbrolio. Such action is useless, as the sheriff has arranged that they shall not risk their valuable lives in sanguinary contest. No further nominations are sent in. It will take several days to arrange the different applications. Jones and Winston counties deserve honorable mention in not having an applicant here for office during the session. A new printing combination is being quietly formed. Harper, of Raymond, is also suggested as a competitor. JACKSON, May 5.—A majority of the Judiciary Committee adhere to the former report, that the election of public printer was illegal. Gibbs submitted a minority report, stating that if the election was illegal, it is proper for the Courts to decide the same. A third report from the same Committee says the election was void. A bill passed making the creation of Winona county, subject to the vote of people interested. A bill passed to incorporate Ship Island, Mississippi and Paducah Railroad. House.—Bills passed: To incorporate Odd Fellows Lodge at Enterprise. To incorporate Verona Female College. To incorporate Union Baptist Church at Columbus, Miss. To incorporate the Vicksburg Insurance Company. To charter the Mississippi Manufacturing Company. Mr. Eason will, to-morrow, introduce a resolution to remove the sitting of the Legislature to Vicksburg until the buildings here can be repaired. The Railroad Committee goes to Vicksburg to-morrow to investigate the extension of the Railroad to the river. At the mechanics' meeting last night, the committee appointed at a previous meeting reported that the capitol can be repaired thoroughly for fifty-five thousand dollars including every item of work. A fire at Clinton this afternoon destroyed the residence of Mr. Beckett and household goods. Home worth two thousand dollars. No insurance. Harper, of the Raymond Gazette, it is believed, will make a good run for public printer.

The Journal adds: The conspiracy is part of that of last winter, the investigation into which, has been so far protracted. When the examinations are terminated, which soon will be, the public will know all and be able to appreciate the danger in which the country has been placed. Ollivier addressed a letter to the Monitor in which he assures the editor that the Government will not follow the policy of reaction though obliged to take oppressive measures against its enemies. He hopes this frank answer will dissipate the fears expressed by the Monitor. PARIS, May 3.—The following is a description of an infernal machine captured at a house of conspirators against the Emperor: They resemble a granite ring, divided into several small chambers, each of which contained a vial of nitrate of potash. Percussion caps were ingeniously fitted, slightly raised from the surface, so that in falling upon any hard substance the machine is nearly certain to explode. A ring is attached to the periphery to aid in throwing the mine adroitly. The La France says recent discovered conspiracies makes amnesty for 22 persons now in custody improbable. There is some disorder, but no violence at meetings. PARIS, May 3.—Afternoon.—A serious riot occurred yesterday at Quatin, caused by the arrest of a member of the International Society. RICHMOND, Va., May 4.—To-day the churches were filled, and the city presented a Sabbath appearance. In the United States Circuit Court the Chief Justice at a meeting of the court, in response to resolutions of the Richmond bar, regarding the late calamity, said: "Human emotions are but poorly expressed by words. When the first vague rumors of the terrible event in this city, which has been so fully named the great calamity, went through the land a few days ago, all hearts felt a shock like that of a sudden and awful personal bereavement. Then as the terrible news came distinctly over the wires and fearful disaster took shape and form in the minds of the people, it seemed for a time to oppress all hearts like a nightmare. The pulses of life throbbd heavily, and human utterance failed under the crushing sense of sorrow which paralyzed the land, but soon the currents of feeling began to flow, and now for many days heartfelt expressions of condolence and substantial manifestations of sympathy have been flowing towards Richmond like a great tide, and no right-minded and true hearted man can help feeling this vast development of unaffected good will so strikingly devoid of everything like sectional or party feeling; as one of those gleams of radiance which in God's good providence so often brightens the darkest clouds of human grief. When two days since we took our seats upon this Bench, our eyes and hearts alike missed familiar faces from the bar. Let us thank God that those whose voices were often heard here yet survive. May the Great Physician comfort their sorrowing households, and give them speedily and complete restoration. But there were other members of the Bar who will never again join in honorable contentions. One has gone to the ripened fullness of honorable years; another with the distinction of his profession clustering thickly upon him, having already won these heights of public estimation from which the ascent to the highest seemed easy and sure, another younger yet mature treading with firm steps the upward path of usefulness and honor, how terribly do such a calamity as this rebuke our vain expectations, and how impressively does it admonish every one of us to look beyond the shadow of Time to the realm of Eternity. It is said that among those dying, crushed under the mass of ruins, there were some who could yet exchange a few faint words with their companions in that fearful place; none of them which have been related by the rescued, have impressed me so much as that of one mangled and broken sufferer, who still found strength to exclaim: 'Oh, grave, where is thy sting? What a triumph was that? What a testimony to the incomparable worth of Christian faith. So in the very depth of this awful distress and anguish, open springs of human sympathy and fountain of sublimest and heavenly comfort. Let us take these lessons to our hearts. This is a day of humiliation and prayer. The churches will be filled with worshippers.—Let us carry into them not merely the burden of sorrow, but also the consolations of faith, ever remembering that all is of God. If He but waves His hands, the rains cloud, the wind blows, the sun and moon look back from the departing cloud. His will be done!" Intelligence was received to-day from Mayor Fox, of Philadelphia, that additional funds had been raised there for the sufferers here. NEW ORLEANS, May 4.—A shooting affair occurred last night between John Barrett, local reporter of the Picayune, and ex-special police officer Smith. The latter was dangerously, the former slightly wounded. Ex-special officer Diepert was shot and dangerously wounded during the difficulty. The cause was animadversion in the Picayune on special policemen and the publication by Smith of a scurrilous circular on Barrett. The Council for Jackson Railroad brought suit against H. S. McComb and associates for a million dollars damage, growing out of the recent contest for control of the New Orleans, Jackson & Great Northern Railroad. WASHINGTON, May 5.—The subcommittee proceedings of House Pacific Railroad Committee, favors granting franchises to trans continental or thirty-second parallel. In the House yesterday Beck's resolution calling on the President to know why Terry suspended the habeas corpus in Georgia, meeting with objection, Beck objected to everything, and the regular order was resumed. Paine introduced a bill for compensation in contested elections. The Civil Service bill being taken up, Jencks said the heavy vote against the bill yesterday was in interest with thieves. A motion to table the whole matter was defeated, and the bill was recommitted. clined, to receive actual expenses. Bill for the relief of Capt. Beatty's heirs of Tenn. passed. The Committee on Foreign Affairs reported a resolution declaring that Rear Admiral Gordon neglected to perform his duty in neglecting to aid Washburn in reaching the Nicaraguan government. A minority report was presented. Balance of the day occupied in an effort to pass the Senate Joint resolution granting additional land and privileges to the Northern Pacific Railroad. House adjourned till Monday without coming to a vote. WASHINGTON, May 5.—The report of Senate Committee on Pensions is adverse. House bill granting Mrs. Lincoln a pension of \$3,000 per annum, for the reason that she is not destitute. She represents herself to be that in 1867 she received from Congress and Mr. Lincoln's estate \$59,000. The committee report they have good reason to believe she received a large amount of clothing, plate and household goods after the death of Mr. Lincoln, which should be added. The committee think a fortune of \$200,000 should be sufficient to take her out of the category of those whose necessities in consequence of casualties of public service give them a claim upon the Treasury. The report is signed by six members of the committee. The Medical Association will consider a special committee to consider abortion, with a view of suggesting means whereby abortionists might be expelled. Officers for ensuing year: President, Stille, of Pa.; Vice President, Weatherly, of Ala.; Gibbons, of Cal.; Hurd of Texas; Willey, of Minn. The place for the next meeting is California. This will leave the taxes of the following articles in force: Distilled spirits, fermented liquors, tobacco, gross incomes at the rate of 3 per cent. All the stamp taxes or taxes collected by stamps. WASHINGTON, May 5.—SENATE.—A bill was reported from the Finance Committee, granting a subsidy of \$150,000 per year for ten years, for a semi-monthly steamship line between New Orleans, Campeachy, Sinal, Tampico and Havana. WASHINGTON, May 5.—The following was derived from a reliable source last night: A Sub-committee of the House Pacific Railroad Committee agreed to recommend a Southern Railroad on the 351 parallel from San Diego to Marshall, Texas, and to grant the franchise to the Southern Trans-Continental Railroad Company, the route fixed upon, the gauge of the road and the provisions of the bill relating to running arrangements with connecting roads are such as were suggested by the committee of the Gulf State men, composed of Sheldon, Sherrod, Pearce and Clark. The Southwestern States are to be liberally represented by incorporations from among their citizens. This result has been reached after considerable discussion, but a fear that a longer delay might jeopardize the passing of an enactment chartering a company with liberal franchises has brought together all the representatives from the Gulf States and it is now believed that opposition in the Senate will cease, and the bill will go through at no distant date. NEW ORLEANS, May 5.—The Legislature repealed the old statutes for the punishment of crimes, etc., and enacted laws now in force, but made no provision for the prosecution of persons charged with crimes committed prior to April 1st, 1870; leaving a hiatus through which one hundred and twenty-five persons indicted for various crimes will likely pass unprosecuted. scheme immediately. One-tenth of the Bishops present, including the German and Hungarians voted against the scheme for a small catechism. PARIS, May 5.—A decree is published convoke the High Court of Justice to investigate the plot against the life of the Emperor.—The decree says long before the issuance of this decree, Emile Ollivier demonstrated beyond doubt the existence of a revolutionary organization having for its aim the establishment of a democratic and social Republic, the members of which are resorting to systematic vilifications, outrages, calumnies, outbreaks, and assassinations to accomplish their purpose. Circular to-day explains the situation as follows: The Government asks for unqualified approval of the past and carte blanche for the future. The earnings of Adeline Patti for the past season have been one million francs, to no nothing of present duties she has received. Marquis Du Caux, her husband, has just contributed 1500 francs to the fund of the plebi-tary committee. RIVER INTELLIGENCE. The river continues to advance slowly at this place. PERRINSBURG, May 3.—The Monongahela is 5 feet 3 inches and falling. CINCINNATI, May 3.—The river has fallen 1 foot 4 inches, with 23 feet 8 inches in the channel. LOUISVILLE, May 3.—River falling slowly, with 8½ feet in the canal, and 5½ feet in the chute, over the falls, with 70½ feet space under the bridge. CAIRO, May 3.—River fell six inches. MEMPHIS, May 3.—The river at this port continues to rise slowly. It is now about three feet below high water mark of 1867. The Arkansas is again falling slowly at Little Rock. NASHVILLE, May 3.—River still rising, with six feet large on the shoals. PITTSBURG, May 2.—The Monongahela is 5 feet 9 inches and falling; Allegheny, 6 feet 5 inches. CINCINNATI, May 2.—The river has fallen 4 feet 5 inches since Saturday; 22 feet in the channel. LOUISVILLE, May 2.—The river is falling; 10 feet 10 inches in the canal, and 8 feet 10 inches in the chute, and 84 feet under the bridge. CAIRO, May 2.—The river has fallen 4 inches since our last. NASHVILLE, May 2.—The river is rising with 4½ feet on Harpeth Shoals. A Memphis exchange of the 3rd says: "The river here rose two inches and a quarter since Saturday, and is now below high-water mark two feet ten and three-fourths inches. The river will be checked by to-morrow. At Cairo and St. Louis the river is falling. The Ohio is receding from Pittsburgh to Cairo, with eight feet six inches in the canal. The Arkansas rose seven feet at Fort Smith, but commenced falling on Friday, and had fallen an inch up to Saturday morning. At Little Rock it was rising yesterday, with eight feet in the channel from there out. White river is rising slowly at Devil's Bluff, with a good stage from there out." An exchange says: The Evansville, Paducah and Tennessee River Steam Navigation Company perfected its organization yesterday by electing the following Directors: Dr. Brock, of Florence, Ala.; Thomas L. Lee, of Paducah; Captain John Gilbert, of Goldenland; W. G. Brown and Captain F. P. Carson, of Evansville. The Directors subsequently elected Captain John Gilbert President and Superintendent, and W. G. Brown Secretary and Treasurer. A new boat will be built for the trade immediately. Captains Lee Howland and Allen J. Duncan will continue to command the fleet. Captains Woolfolk, Gunce and Shallcross, who were chosen for that purpose, have appraised the Quickstep at \$24,000—a very low estimate. The commerce of the Ohio river amounts to \$24,000,000 per annum. Yet it is allowed to languish and suffer through the inattention of the Government, and for the want of the pitiful sum of \$250,000, which more than one-tenth our commerce receive appropriations amounting to millions. The Evansville Courier says: "In Evansville we have a different way of doing things. If a boat does not leave on the day she is advertised, the shipper goes down to the wharf and demands his goods, and at once reships the goods on another boat. A boat cannot lay at the Evansville wharf two or three days for a load, and if she does not get when advertised once, she never need come back here again for freight. No Pittsburg tricks allowed at this landing." The Eau Claire Free Press reports a jam before Chippewa Falls, containing from forty to fifty million feet of logs, and likely to increase. It is over a mile in length, and from fifteen to forty feet thick.
