

Ugh! Calomel Sickens; Salivates! Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work. Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced, just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a bottle of Dodson's Liver Tone for a few cents under my personal money-back guarantee that each spoon-

ful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

WOMAN'S LAND ARMY INVADES NEW YORK CITY

One thousand farmerettes, most of them students of the various high schools of New York city, dressed in smocks, bloomers, puttees and large straw hats celebrated the first field day of the woman's land army by launching their campaign for funds to carry on the work of the organization. This photograph shows Eugenie Barnett and Adelaide Miller collecting contributions from a haywagon on Fifth avenue.

VICTORY FLEET COMES BACK FROM CUBAN WATERS

One hundred and twelve vessels of the victory fleet have returned from target practice in Cuban waters. All of New York's harbor craft turned out to greet the sea fighters. The photograph shows in the foreground the U. S. S. Delaware following the fleet into the harbor.

ROOSEVELT TREES PLANTED IN BROOKLYN

To the borough of Brooklyn fell the honor of planting the first trees to the memory of the late Col. Theodore Roosevelt. The celebration was attended by many of the ex-president's closest friends. The planting was held under the auspices of the Junior League of the American Association for the Planting and the Preservation of City Trees. This photograph shows the trees being set at Bedford park, Brooklyn.

FOR JAMESTOWN ISLAND

This fine bronze statue of Pocahontas, made by William Ordway Partridge, will be placed on the site selected for it on Jamestown Island just as soon as the Pocahontas Memorial association raises the balance of \$1,200 due on its purchase. The statue is now in the Corcoran Gallery of Art in Washington.

INSPECTING MISSOURI SIGNAL CORPS

Major General Menoher and all the commanding officers of the field inspecting a signal battalion of the Rainbow division that formerly was the First battalion, Missouri National Guard, at Launnes, France, before the division started on its homeward way.

GATHERED FACTS

Java has spiders that make webs so strong that it requires a knife to sever them.

Guatemala manufactures about 100,000,000 cigarettes a year, chiefly from Honduran and native tobacco.

A library table that unfolds and forms a full-sized double bed is a furniture novelty of recent invention.

A patent has been granted for a hand truck with adjustable braces that make it to be used as a step ladder.

A patent has been issued for a pin-cushion that resembles a cactus plant. The business of the London stock exchange under peace conditions requires the services of 25,000 persons every day.

Agriculturists have succeeded in raising a brown cotton in Egypt that is stronger than any heretofore produced there.

An English inventor has brought out a simple device using gasoline or acetylene to prevent the radiator of a motortruck from freezing.

Cities of Crete.

There is a touch of irony in the news from Crete. Homer's "island of a hundred cities" possesses now but three towns, and two of these, Candia and Canea, find it necessary, in their growing pains, to destroy ancient monuments to make space for modern improvements. Happily there seems no disposition yet to colonize Knossos where lie the remains of thousands and thousands of years of civilization as exalted, artistically, as the world has ever known. That old civilization makes the culture of ancient Greece seem by comparison like that of yesterday.—London Chronicle.

Ingenious Cow.

He is a little lad, a trifle over three, and he lived in Brookside circle, Auburn, relates the Indianapolis News. The other day he saw a cow for the first time and during his inspection of the strange animal she loved. A little later he was visiting a neighbor, and told of the strange animal he had seen, and about her horns.

"How do you know it was a horn?" inquired the lady.

"Oh, I know it was a horn because she blowed it at me."

Who says that children are not original at times?

Much Timber Wasted.

We have used up about half the forests we originally possessed. Although there are forest associations in nearly every state, supplementing the excellent work of the national forest service, trees are being used up faster than they are being grown. When a tree is cut less than half of it reaches the consumer. The sawmill wastes amount to 40 per cent of the tree. Forest fires cause a loss of \$25,000,000 to \$30,000,000 yearly. There are 147 national forests in the United States, consisting of 185,196,610 acres.

BIGGER SAVINGS

For convenience sake, Calumet Baking Powder is packed in 10, 20 and 30-cent sizes.

For 30 cents you get a full pound (16 ounces) net weight.

Of course, the larger the size the bigger the saving in buying—but remember that the 10-cent size shows a double saving compared with most other brands.

The value of Baking Powder is quality not quantity. It is leavening strength that counts. You cannot judge it by the size of the can nor the amount you get for your money. You must determine its worth to you by what it does, not by what it is, by the amount you are required to use in your baking and the results it gives.

A 10-cent can of Calumet will go twice as far as a 10-cent can of most other powders.

You Save When You Buy It
You Save When You Use It

BROOD MARES

In foal or foal at foot, having Distemper or Influenza, or any other form of Contagious Disease, may with absolute safety to Mare and Foal, be given

SPOHN'S DISTEMPER COMPOUND

sickness of any kind among your horses. Sold by druggists. Write for booklet. SPOHN MEDICAL CO., GOSHEN, INDIANA

WOULDN'T STAND FOR THAT

Bilddad's Hurried Exit From Doctor's Office Only Thing to Do Under the Circumstances.

Bilddad, age four, is so called because he is a shoe height, which indicates something approaching a sense of humor in West Indianapolis, as well as in the effete suburb to the east.

Bilddad got a splinter in his thumb and hid himself into the office of the family physician and his first friend next door. The splinter was firmly imbedded and Bilddad, though a regular Indian, otherwise, is no stoic. He howled.

"Maybe I'd better give you an anal-gene," said the doctor.

While his friend's back was turned Bilddad stole softly out of the office, splinter and all, and in a jiffy was in his mother's lap. In his own words he "ist beltered awful." When his mother had quieted him to the point of explanation he said:

"It wasn't the splinter so much, but Dockey said he was goin' to give me to a ole geezer."

His Alibi.

"Have you ever loved another girl?" "No."

"But Bella Lowd told me you once proposed to her."

"Ahem! Don't you pay any attention to what Bella Lowd says. That girl doesn't know a poor imitation of ome from the real thing."

The Reason.

"Are you going to skip that society function?"

"I must; it's a hop."

A mosquito weighs less than an elephant but it can pester you a lot more.

Reading Off His Plate.

Thomas, nearly three years old, son of a Huntington family, is accustomed to hearing his father give thanks for the necessities of life at the family meals. At a late supper one day they had food hot off the stove, and while father was busy mother loaded his plate with hot food to give it an opportunity to cool.

"Daddy hasn't read yet!" the boy told his mother.

"Hasn't what?" she queried.

"Daddy hasn't read off his plate yet," he explained, and caused "daddy" to choke while he was performing the rite of "reading."—Indianapolis News.

Their Limit.

"Those discouraged-looking gents over there," said the landlord of the Petunia tavern, "are members of our street-corner board of strategy. They know how to carry on war, make peace, cure rheumatism, save the country from the dogs, and transform the human race into angels. But they can't persuade their wives that they—the despondent gents just mentioned—are afflicted with ketches in their backs, stitches in their sides, and other symptoms that make it dangerous, not to say deadly, for them to spade up the garden and assist in the spring house-cleaning."—Kansas City Star.

Salute to the Flag.

The salute to the flag is given by raising the right hand, palm outward, until the index finger is even with the lower edge of the forehead, and standing at attention.

Accounted For.

"The fellow you speak of is a human midsft." "Of course he is. Isn't he a self-made man?"

ITCH!

A WAR-TIME ILL THAT'S SPREADING HUNT'S SALVE CURES IT!

BRED in the war trenches of Europe, a wave of ordinary ITCH is spreading over the country. This skin disease, history shows, has always prevailed, following wars and the concentration of armies. It was common during the Civil War and following that conflict. There was an epidemic of the Itch after the Spanish-American War. Now history is repeating itself after the great European struggle.

Returned soldiers and those with whom they come in contact will find a recognized remedy for the Itch in Hunt's Salve, commonly known as "Hunt's Itch Cure." Many a veteran of the late '90's will testify to its merits.

If directions are followed HUNT'S SALVE will prove a never failing cure for all forms of the Itch, and your druggist will tell you so. He sells HUNT'S SALVE under a strict guarantee to refund the purchase price to any dissatisfied user.

A Medford, Oklahoma man, among thousands who praise HUNT'S SALVE, says:

"Some people dislike to call it the Itch, but candor compels me to admit I had it badly. Your Hunt's Salve, however, cured me after many other remedies had totally failed. One box completed the cure—the first application afforded wonderful relief. My advice to those who have to scratch, is to use Hunt's Salve."

Hunt's Salve is especially compounded for the treatment of Itch, Eczema, Ringworm, Tetter and other itching skin diseases and is sold on our guarantee by all reliable drug stores, or it will be sent direct by mail if your local druggist cannot supply. Price 75c per box.

A. B. RICHARDS MEDICINE COMPANY, INC. SHERMAN, TEXAS.

Nervousness and Headaches Caused by Acid-Stomach

There is a much closer connection between the stomach and brain than most people imagine. It is because of this close connection that indigestion, belching, sour, gassy stomach and other stomach miseries—all of which are sure signs of acid-stomach—are so often followed by severe attacks of blinding, splitting headaches.

Nervousness, sleeplessness, irritability, mental depression, melancholia and many other disorders which affect the brain can also nearly always be traced to the same source—acid-stomach.

So often you hear people say "I am so nervous I think I'll fly to pieces"; or "It seems I never get a good night's sleep any more, my nerves are all on edge." Little do they dream that acid-stomach is the direct cause of their troubles because very often there are no pains in the stomach at all. So you see, you can't always judge an acid-stomach condition by the way your stomach, itself, feels.

If you are weak, nervous, unwell—if you are not up to your old time form—if you lack your accustomed enthusiasm, energy and pep—make this test and see if it isn't acid-stomach that is holding you back—robbing you of your health, strength, and vigor. Get a big box of EATONIC—the wonderful modern medicine that so quickly puts an acid stomach to rights. It is in the form of pleasant tasting tablets that you eat like a bit of candy. EATONIC rids the stomach of excess

acid. Brings instant relief from indigestion, heartburn, sour belching, food repelling, bloated and gassy matters of the stomach cool, pure, sweet and comfortable.

Dentists warn us against the bad effects of acid mouth, pointing out that the acid eats through the enamel of the teeth, causing them to decay. You can easily imagine then the amount of damage excess acid will cause to the delicate organization of the stomach!

Thousands of people are using EATONIC and the results obtained are so remarkable as to be almost unbelievable. Yet their letters of gratitude, many of which are received daily, prove absolutely that EATONIC does all and even more than we claim. The medical profession, too, recognizes the great value of this wonderful remedy. A learned Michigan doctor wrote recently: "I have had such wonderful success with EATONIC that I want every one to know how quick-ly it will neutralize the acidity of the stomach (acid-stomach) and the stomach will soon be sweet and normal again, and the sick man well and happy once more."

So be sure to get a big box of EATONIC from your druggist today. If it fails in any way to give you the kind of satisfaction you want, take it back—he will refund your money. He doesn't want one penny of your money unless EATONIC helps you.

EATONIC FOR YOUR ACID-STOMACH

Exactly. "There is so much sparkle in Miss Brighty's talk." "It comes from her gems of thought."
