Montana Crops and Copper are Vital Factors in the War Program

MEN WANTED

for Copper Mining

Agriculture, livestock raising, and mining are Montana's basic industries. Montana farmers and livestockmen are called upon to meet increasing demands for war food supplies. The copper mining industry must produce more of that highly essential war material. The mining industry can use every available man not required on the farm.

Experience in mining is not required, though desirable. Training of physically qualified workers is provided on the job.

(Men now employed at their highest skill in any essential industries cannot be considered)

WHAT FARMERS WANT WHEN THEY BORROW

WHILE WE'RE HERE IN TOWN I THINK I'LL STOP AT THE BANK AND SEE ABOUT A LOAN!  
THE BANK CERTAINLY IS THE CONVENIENT PLACE TO BORROW!

CONVENIENT LOCATION

YOU wouldn't want your barn on one side of your farm and your house on the other. Neither should you have to go far afield to get credit when you need it. And you don't. The bank is right in the center of things, easy to get at when you are in town. Your time is worth money, don't waste it. Time you waste is actually part of the cost of credit; time saved is one of the advantages of borrowing at the bank.

Bank Credit is the best Farm Credit
