SHELBY NEWS.

Born:—On the morning of the 13th inst a daughter, to Mrs. W. B. Shoemaker. Will is looking up all sorts of fall fashions now, to see that his daughter shall be dressed up to the top notch. The cigars Will gave out to his friends were the very best Havanas. Nothing is to good for him now.

Mr. and Mrs. Fred Sullivan are visiting at the home of Mrs. Sullivan's parents, Mr. and Mrs. Chas. Hilger.

Mr. Wm. Mead, is laid up with a very bad hand, caused from a bruise received while he was pinching up cars on the G. F. & C. Ry.

Hugh Reynolds was committed for sixty days by Justice Dawes. Reynolds was a vagrant of the most pronounced type; he would not work and the residents of Cut Bank would not stand him any longer. Deputy Sheriff Moberly took him to Choteau Tuesday morning.

W. W. Parrott and wife visited Mr. and Mrs. McDoytt Saturday and Sunday last.

Ferd Gains was in from West Butte purchasing supplies for the winter, and shed material.

Jos. C. McCraig and C. E. Davis of Pondera went to Galata Friday to deliver lambs they sold to the Taylor Bros.

John La Motte passed here Thursday with five cars of horses consigned to Thuet Bros. Sioux City. When John arrived here he ran against a snag in the shape of last winter's inspection law regarding horses. When he went to bill them the agent told him to produce this inspection certificate. John not having one the agent refused to bill the horses, being no facilities for unloading here and in the absence of the deputy sheriff Justice Dawes put a man in charge of them with orders to unload at Galata, and hold them until the deputy sheriff could get there and inspect the horses. Horse shippers ought to inform themselves as to the law and avoid trouble and delays.

John H. Devlin is still here, his bucks being held in quarantine.

Mr. Wilcox has given up the management of the Mercantile Hotel and moved to his ranch. Dan Sullivan is running the Hotel now, and has placed Wm. McCoy as manager.

Several cars of hay have been received from Collins, our feed stables finding it cheaper to buy baled hay than to purchase from the ranchers in bulk.

Miss and Miss Cummings, mother and sister of Mrs. W. B. Shoemaker are here on a visit. They are from Iowa.

Clint Clark has taken the management of the Shelby Hotel. Mr. and Mrs. McLeod the present managers resigned for the purpose of taking up a ranch out towards the Sweet Grass Hills.

Mrs. Chas. Farrell and Lily Raglin are visiting with Mr. and Mrs. Chas. Dearen. It is Mrs. Farrell's intention to move to Choteau to send her children to school this winter. Mrs. W. would have preferred Shelby but there were no vacant houses.

Bruce Stewart from Alan Coules is in after material for sheep sheds.

Miss Mary Berthelotte and brother Joe were in town Saturday on their way to Augusta, where they intend spending the winter.

L. C. Marsh of the firm of Barney & Marsh, went north last week to receive about 100 bucks he purchased from Pat Buckley.

Mose Silverman, an old Choteau boy, who represents Greenhood & Co. of Helena was here showing his samples last week.

Bob Reid of Gold Butte was in town Saturday renewing old acquaintances and making new ones.

C. C. Tangedahl who has been at Ehrbridge as agent for the G. N. has moved to town, and will be our night operator.

Dr. T. L. Clark and Ed Cummings took a hunting trip to Sweet Grass last week their objective point being the ranch of Hardy Clark. Both the Dr. and Ed thought they knew a nearer road than the wagon road so struck off across the country. Night overtook them before reaching the ranch, and the result was that they found out after wandering around until after midnight that the longest way round was the shortest after all. Near morning they got to the ranch, while if they had followed the road they would have reached there before dark.

Died: of consumption on the morning of the 12 inst. Frank Ventling, aged 39 years. He leaves a wife and family of two small children to mourn his death. Frank was taken sick last winter and went to Hunter Hot Springs and secured the best medical treatment obtainable but nothing the doctors could do afforded him any relief. About a month ago when he realized that all hope of recovery was gone, he came home to die. He was conscious to the last and his last request was to be buried alongside of his son who died about a year ago, and is buried on the hills overlooking the Marias. The funeral took place Sunday afternoon and was well attended.

Get your boots or shoes half soled at the Dupuyer harness shop.

Notice to Tax Payers.

Treasurer's office, Choteau, Montana; October 7th, 1901.

State and County Taxes for the year 1901, are now due and payable at this office. If not paid on or before 6 o'clock p. m. of Saturday, November 30th, 1901, the law requires an addition of ten per cent to the amount of said taxes, and that property upon which taxes are delinquent shall be immediately advertised for sale, or seized and sold for the payment of said taxes and costs.

Respectfully,

JOHN S. GORDON,
Treasurer, Teton county, Mont.

Discouraging For Most.

New York, Oct. 14.—Johann Most was today sentenced to one year in the penitentiary for an article published in his newspaper the day after McKinley was shot.

Anthrax Under Control.

The Canadian authorities claim that the outbreak of anthrax at Swift Current, N. W. T., is now under control. The losses so far are about 2,500 head of sheep and a few cattle and horses. All animals exposed have been inoculated with anthrax vaccine by Drs. Hargrave and Higgins, dominion veterinarians in charge. It is proposed that the quarantined district, which includes seventeen townships, be burned over. The germs of this disease are very hard to kill and have been known to remain alive in the ground for nine years, though that is exceptional. Vaccination in the same manner as for blackleg is a preventive.

Czolgosz In Solitude.

Albany, N. Y., Oct. 12.—State Superintendent of Prisons Collins has given orders that Czolgosz, the murderer of President McKinley must not be the subject of notoriety while in Auburn prison awaiting electrocution. He must not be seen, and visitors must not be permitted to enter any part of the prison where knowledge might be gained of his location. The warden of the prison has been instructed to inform the guards and other employees of the prison that divulging any information concerning him or his doings will be considered a grave breach of discipline and will be dealt with accordingly.

A Lake's Jawbreaking Name.

The town of Webster, Mass., has always been proud of the beautiful little lake within its limits, but never boasted of the jawbreaking name by which it is known. The lake has the longest and most unpronounceable name of any in the world, and residents and visitors who pass the summer or its shores and islands are quietly suggesting a substitute for the unvalley Indian term which for many years has been applied to this body of water. The full name of the lake is Chaugogagroganachogagogogungamaug, but the residents have contracted it to Chaugungamaug.—Engineer.

Train Robbers are Spending the Money.

St. Louis, Oct. 12.—A ten-dollar treasury note was received through the window at the postoffice today in payment for stamps, purporting to be issued by the Montana National bank of Helena, Mont., but containing signatures which are not those of the president and cashier of the bank. The note is thought to be one from a package containing \$50,000 which disappeared from the United States Express company's car between Indianapolis and St. Louis within the last two weeks. Secret service men and detectives are working on the case and the appearance of a \$10 note in St. Louis leads them to believe that persons who got the package are here. The sub-treasury here was notified of the robbery two weeks ago. Similar notification was sent to every other sub-treasury in the country and careful watch has been kept for a trace of the missing notes.

The note passed here bears the signatures of Thomas B. Hall, president, and John R. Smith, cashier. The president of the Helena bank is T. A. Murlow, and A. L. Smith is cashier.

A new remedy for biliousness is now on sale at Thos. B. Magee's drug store. It is called Chamberlain's Stomach and Liver Tablets. It gives quick relief and will prevent the attack if given as soon as the first indication of the disease appears. Price, 25 cents per box. Samples free at Thos. B. Magee's drug store.

Cheerful In Defeat.

New York, Oct. 11.—Capt. Sycamore and the crew of Shamrock II. worked with renewed vigor today on board their yacht in the Erie Basin, at the task of laying her up.

"It is a little premature to say that I shall challenge again for the cup," said Sir Thomas Lipton when seen on board the Erin today. "That is a matter for future consideration."

A pleasant incident occurred early this morning at the dinner given by Sir Thomas to his crews. Just before the close of the dinner Sir Thomas arose and holding his glass high above his head, proposed the health of the captain and crew of Columbia. "Boys, said he, "while we are enjoying ourselves here, let us not forget that we raced against most honorable opponents. They fought us fair and they are men of whom Americans should feel proud, for they nobly defended their flag, the stars and stripes. Now boys let's drink to the health of Capt. Barr and the crew of Columbia." Every man was on his feet in an instant and three hearty cheers were given.

Sir Thomas made a graceful acknowledgment of the services rendered him by Mr. Jameson. After a toast and cheering Mr. Jameson responded by saying: "I am very sorry we lost the race, but it was the wind that did it. I have never seen, even in Rotsbay bay, a flukier day than we had at the last race."

Cree Indians Again.

County Clerk and Recorder Lagoni, of Flathead county, has sent to Attorney General Donovan claims to the amount of \$602.25 sustained in caring for the Cree Indians who were driven off the Flathead reservation while suffering from smallpox and who, after coming to Kalispell, were quarantined north of the city. The claims are for medical attendance, guards, provisions, etc., which were first filed against the county, and which will form the basis for a suit against the national government.

The chief bone of contention apparently is whether or not the Cree Indians are wards of the United States government or whether they are renegades from Canada. If the former the government will undoubtedly stand the cost of taking care of them, but if the latter, the bills incurred by Flathead county will have to be filed against the Canadian government for settlement. It has been generally supposed that the Cree Indians fled to this state at the suppression of the Riel rebellion in Canada years ago, and that the United States government is not responsible for them. The case will be brought to a test as soon as possible and responsibility for the care of these nomads established.

Launching Battleships.

"It costs from \$4,000 to \$8,000 said the manager of one of our biggest ship-building yards the other day, "to launch a battleship."

"The building ways for the ship to slide down is the main item, and then comes the greasing. Every inch of timber over which the vessel slides must be covered with a lubricant. Soap and tallow form the main ingredients. We use a layer of beef tallow and a layer of soft soap. From one to one and a half tons of the stuff is required to move the average battleship.

"The tallow is spread on first to the depth of about three fingers and the two women use big flat trowels to make the surface as smooth as possible. Then they pour over the soft soap, which is just thick enough to run, or about the consistency of tar.

"The double coating answers admirably, and the ship glides into the water quickly and easily. If it sticks it is likely to spring some of the vessel's plates, and accidents of that kind are so costly that nothing is spared to avert them."—Ex.
