Moose, Helena, Montana. Frank Murray has announced his candidacy for the Office of Secretary of State on the Democratic ticket. Frank is a native of Montana, who knows from personal experience what a wonderful work the Loyal Order of Moose is doing. He was orphaned at an early age, and had to work his way up the hard way. That he has the right kind of stuff is attested by his work and his record. He was a school trustee and deputy Clerk and Recorder in Butte. He is a successful business man. His incumbency as Clerk of the Supreme Court has been one of efficiency and courtesy to the public. While the Fraternalist does not take part in party politics, and the Order is completely non-political, when a deserving Brother needs a boost, we are more than glad to be among the first to offer help, and we are for Frank Murray in a big way, and unhesitatingly recommend him to the more than 8,000 Moose members of Montana Lodges. Pol. Adv. paid for by Frank Murray for Secretary of State Club. Mrs. Ellen V. Jones, Secretary, 114 Grand Street, Helena. Advertising deadline is Wednesday afternoon for the Hungry Horse News.

KNOW MONTANA... DEER LODGE COUNTY -By George Adams, Anaconda Standard Deer Lodge county received its name from the hot springs formation near Warm Springs by the Indians. The formation from which hot water bubbled, keeping vegetables green, attracted, white-tailed deer. Indians called it "the lodge of the white-tailed deer;" French "la lodge du chevreuil", and early Montanans "Deer Lodge." Dawson COUNTY -By Cy Davis, Dawson County Review. Dawson county was staked out as a part of Idaho Territory on January 16, 1864. Subsequently attached to Big Horn, Chouteau and Custer counties, it was re-organized as a separate county in 1882, with Glendive as county seat. The county received its name from Andrew Dawson, American Fur Co. clerk, factor and owner of Fort Benton trading post. First industries were beaver trapping, fur trading and buffalo hide-hunting. Today the area produces some of Montana's best dry-land wheat and the 24,000 acres of the recently completed Buffalo Rapids irrigation project grows thousands of tons of sugar beets and alfalfa. A wealth of lignite coal underlays the region, and the first gas well in the state was "brought in" at the mouth of Cedar Creek in 1912 which led to the exploration and development of Glendive-Baker field. From where I sit ... by Joe Marsh Will's Hospitality Isn't "Cracked"! Ever since January, Will Dudley planned to give his living room that "new look"—planned to carefully refinish the woodwork and replaster the walls. So Will's living room doesn't look like it did a year ago—but it's far the most "livable" living room I know: A place you can always drop in for good talk, good beer, and a warm welcome. From where I sit, so long as Will puts that atmosphere of hospitality and good fellowship ahead of everything else, we'll all be happy to help Will change the looks of his living room any time he wants.
