

Wolves Topple Fairview 32-6 in Home Grid Tilt

Scoring four touchdowns in the first half, the Wolves opened their home season and conference schedule with a 32-6 win over the Fairview Warriors here last Friday. The Wolves scored on a sustained march the first time they got the ball and kept on the move the rest of the half.

The first touchdown came by the

air route, Kirkpatrick pitching to Glassey from the Fairview 18 to the end zone for the six points. An attempted place-kick by Glassey failed.

A hard charging line brought the Wolves their next touchdown opportunity as a ball pass from center lost the visitors the ball on their own 4 yard line. Kirkpatrick sneak-

ed over for the touchdown. The place-kick was blocked and the score was 12-0.

Just before the first quarter ended, Grayson picked up a Fairview punt on the Wolf Point 20 yard line and aided by good downfield blocking made a beautiful run to the Fairview 15. The teams changed goals and on the first play of the second quarter Delger raced around end to score standing up. Johnny Hubbard missed the place-kick.

The Wolves held Fairview and taking the ball on their own 40 began another march. Vic Bearskin snaked-hipped his way off-tackle to cross the goal line from the Fairview 16 yard-line to bring the score to 24-0. Johnny Hubbard's place-kick was good and the half-time score was 25-0.

In the third period, the Wolves counted their last touchdown on a Grayson to J. Hubbard pass good for 20 yards. Hubbard's place-kick was again good.

Reserves took over for the Wolves for the balance of the game, and Fairview drove over for a touchdown on a sustained march in the final period. They were down on the Wolves 5 yard-line when the game ended.

All of the Wolf Point squad played. In the final period Johnny Norcutt, 101 pound freshman, made a do-or-die tackle that stopped a Fairview runner from breaking away for a touchdown and also stopped Johnny briefly.

It was a hard-fought clean football game with both teams working hard. On defense Lund, Dasinger, Butzlaff, Coven, Clark and D. Hubbard looked best for the locals.

Friday, at 2:30 p.m. on the Plentywood field, the Wolves meet their old rivals, the Wildcats, in a game that will have a strong bearing on the district title.

The Wolves are defending champions, but the Wildcats, dethroned last year, are riding a victory wave and haven't had a close game yet. They are a big rugged team whose spirit is high because of the return of their former coach, Allen Feldner, who was discharged from the marines. Feldner's teams twice won the northeast district title, in 1948 and 1949, and the Wildcats are determined to regain the title.

Wolf Point hasn't defeated Plentywood there since 1945, and a win there this year is a must if the Wolves stay in the running for the northeast crown.

Butzlaff, right guard, was probably lost for this game because of a foot injury suffered in the Fairview game. With this loss, the Wolves will have to play 48 minutes of hard, defensive football and tough offensive football to down the Wildcats at Plentywood.

The local line turned in an improved game in the charging department against Fairview but missed too many tackles. Both blocking and tackling will have to be good if the Plentywood boys are to be beaten.

Navy Will Accept Enlistees Who Have Passed Army Tests

Applications are now being accepted from men who have passed their preinduction physical examination with selective service up until the time they receive their induction call.

The deadline for this offer is November 30, 1951. Chief Packard, Navy Recruiter at Glasgow, suggests that men in this category who might be interested in taking advantage of this offer, do not wait until the last minute to apply.

Thomas Asbury To Continue Studies At Oklahoma College

Thomas Asbury, of Wolf Point, is returning to Oklahoma A and M college this fall, to continue his studies in the School of Technical Training.

Asbury is majoring in fire protecting, one of 13 fields in which two-year, college level training is offered.

with a 4-5 Plow **JOHN DEERE Model "R" Diesel**

Here's the tractor that can save you up to several hundred dollars a year in fuel costs alone . . . the modern two-cylinder Diesel that can do the heavy-duty jobs in half the time it takes a 2-3-plow tractor, or do the work of two 2-3-plow tractors and two operators.

The Model "R" saves the cost of auxiliary engines on small combines, balers, choppers

or ensilage harvesters—its continuous-running power shaft handles all these machines at top efficiency and rock-bottom costs. The greater simplicity and strength of exclusive two-cylinder construction cuts maintenance costs . . . increases tractor life . . . provides greater accessibility . . . minimizes adjustments. See us for the complete Model "R" story.
