STOCKS CLIMB IN A BROAD MARKET

Every Division of List Participates in Heavier Trading Today.

New York, Jan. 16.—Every division of the stock list shared in today's broader and stronger market, leaders rising 1 to 3 points, with greater gains in some of the speculative issues. Sales were estimated at 750,000 shares.

United States Steel, the shipping group and Industrial Alcohol were the strongest issues at today's opening with gains of 1 to 2 points on moderate dealings. Mexicans also were firm on the dissolution of the joint commission. Equipments, notably Baldwin Locomotive, General Electric and Westinghouse, were higher by material fractions, and rails manifested a better tendency, especially coalers. Coppers also made further responses to favorable trade conditions and leather issues were in better demand.

The market broadened considerably before the end of the first hour, embracing many inactive specialties and rails. Motors were among the strongest issues at gains of 2 to 8 points. Equipments, munitions and oils increased initial quotations and shipping and sugars also augmented early advances. Steel was taken in moderately large lots up to 113⅜, or an extreme gain of 1⅜, and semi-war shares like Industrial Alcohol and American Can rose from ½ to almost 4 points. Reading, Norfolk and Western, Lehigh Valley and Canadian Pacific were among the strong and active rails. Bonds were firm.

Further advances were made by railway shares in the afternoon, Reading gaining almost 2 points and Norfolk & Western 2. Among industrials and specialties realizing sales caused minor reaction, Steel, however, advancing to 114.

Steel, coppers and Central Leather, all at best prices, infused fresh activity to the final hour's dealings. The closing was strong

COPPERS SHARE IN MARKET UPTURN

Prices Start Upward With a Jump and Public Comes in Again.

After several weeks of inactivity, coppers had their inning in a bull market today and participated in the price gains in good measure, ranging from 4 points in the case of Utah to 1 in that of Miami. In a general way a thoroughly liquidated market was responsible for today's sudden upturn in prices. Public interest was again manifested in the trading. Sales on the New York exchange passed the half million mark an hour before the close.

Maximum advances were made by General Motors and Industrial Alcohol today, each closing 7 points above the opening. United States Steel opened at 112⅝ and sold up to 115 at the close. Utah opened at 105 and climbed steadily to 109, closing a quarter under this. Republic gained 2½ points on the day, Lackawanna 1½, American Locomotive 1⅜, Baldwin 2½. Inspiration all but equalled Utah's gain with 3 points on the day. Granby gained 3 points, American Smelting 2 and Miami 1. Even the rails shared in the upturn, Union Pacific closing 1½ points above the opening and Reading 3.

For the last week or two stocks have come back on every drive. Within the next few weeks, big corporations, including U. S. Steel and Republic, will issue some remarkabel tsatements of earnings it is said. These earnings, it is said in market circles, show no tendency towards decline.

Anaconda opened today at 83⅞, was low at that figure, high at 86⅜ and closed at 86¼. Butte & Superior opened at 47½, was low at that figure, high at 49½ and closed at 49. North Butte was quoted at from 22 to 22¾. East Butte at 14⅝, Tuolumne at 1⅜ and Davis-Daly at from 7¼ to 7⅜.

News and comment received over wires of the Paine-Webber company says in part:

Ben Bryan says: 'I stil feel confident that the stock marget will do better."

Stock letter: "The reported German foreign minister's statement that the entente reply to President Wilson's note bars further peace steps by Germany now, may cause a continuance of short-covering and some replacement of long lines."

Stock opinions received over wires of the Heilbronner company say in part:

Harris, Winthrop & Co.—"No decided move in the stock market in either direction seems likely at present."

Clark, Childs & Co.—"An unmistakable tendency in the majority of Washington to realize the necessity for tariff has a bearing on the market's firmness."

F. B. Keech & Co.—"We look for a narrow trading market in stocks."

PLAN TO MOVE ON THE LEGISLATURES

Suffragists Will Attempt to Secure Right in Many States.

The Post's Washington Bureau.

Washington, Jan. 16.—That the suffragists are planning to move on practically all of the state legislatures in session this winter with a demand for the passage of a bill providing for presidential suffrage, is announced by the National American Woman Suffrage association.

State legislatures are empowered by the federal constitution to prescribe the qualifications of voters in presidential elections. The National Suffrage association declares that "the presidential suffrage bills in each state will be an acid test of the good faith of suffrage planks in platforms adopted by state conventions."

The Illinois act, which grants the franchise to women in presidential and municipal elections, will be used as the model measure, the association announces. The announcement says:

"Aside from the dominant influence exerted by women in the western states during the November election, the exercise of suffrage by women of Illinois was one of the most conspicuous features of the last election. The hundreds of thousands of votes cast by women in Illinois obliterated suggestions that women are not personally interested in the ballot. The complete exercise of their prerogative in Illinois has, in the opinion of suffragists, at once proved the vitality of equal suffrage and made apparent the anomaly of permitting women suffrage in some states and denying it in others."

Presidential suffrage bills have their legal status well defined. Six attacks upon the validity of all or parts of the Illinois act resulted in as many court decisions which accurately define the limitations of the act and validate the right granted by it.

In some states local conditions or the peculiarities of the state constitution may require that the model act be slightly amended. In those commonwealths where referenda on suffrage are imminent the presidential suffrage bill will give way to the more immediate issue.

Reports received at the national association headquarters here show that many of the women most active in promoting suffrage this winter will be the daughters of men who played conspicuous parts in national politics during the last generation. Mrs. Harriet Taylor Upton, whose father succeeded James R. Garfield in the house, will have charge of the presidential suffrage bill in Ohio. Mrs. Kitty Reed Ballantyre, daughter of Speaker Tom Reed, will have an important part in the Maine suffrage campaign. In New Hampshire, Mrs. Winston Churchill, wife of the novelist, will be in charge. An active figure in the Massachusetts campaign will be Mrs. Quincy Shaw, daughter of the scientist, Agassiz.

PET FISH DROWNED.

Oakland, Cal.—Horatio is no more. Some time last night Horatio died a most unusual death, a tragic climax to a remarkable life.

Horatio was a pet sucker which, by being able to live out of water, had baffled the world of science for six months.

S. H. Masters one day found the fish flopping in the mud in the Oakland estuary, put it in a can of water and brought it home. Masters performed one of the scientific wonders of the age by getting the fish to live out of water and he now bemoans the loss of his pet.

By keeping a constant temperature and removing a millimeter of water each day from Horatio's pool in the back yard of the Masters home at 396 Fairmont avenue, Masters eventually got the sucker to breathe the atmosphere.

The fish was kept in a cage in the back yard, but, due to the cold, one night Masters brought Horatio into the kitchen. Near the kitchen sink was a bucket of salt water. While cavorting about the kitchen last night Horatio found the water. He heard the call of the wild and plunged into the bucket, where he was found this morning by Masters, drowned.
