

THE OMAHA DAILY BEE. PUBLISHED EVERY MORNING. OFFICE: 100 FIFTH STREET.

TERMS OF SUBSCRIPTION. Daily (without Sunday), One Year, \$2.00. Daily (with Sunday), One Year, \$2.50.

ADVERTISING. All business letters and notices should be addressed to The Bee Publishing Company.

STATEMENT OF CIRCULATION. For the month of July, 1897, was as follows: Total number of copies printed, 10,000.

Table with 3 columns: Date, Circulation, and Total. Rows list dates from July 1st to July 31st, showing daily circulation figures and a total for the month.

THE BEE ON TRAINS. All railroad news items are supplied with enough lines to accommodate every passenger who wants to read a newspaper.

PARTIES LEAVING FOR THE SUMMER. Parties leaving the city for the summer can have the Bee sent to them regularly by notifying the Bee business office in person or by mail.

What is the Ministerial union going to do about the slot machine gambling devices? Nebraska is on the high road to permanent prosperity.

If dollar wheat is republican luck, it is the kind of luck the farmers would like to keep with them always.

Mexico will have a government exhibit at the Transmississippi and International Exposition, with the accent on the International.

Don't forget that the State fair this year will give a glimpse of what Nebraska's exhibit at the Transmississippi Exposition will be.

When the farmers enjoy good times, everybody enjoys good times because agriculture is the foundation upon which all other pursuits are built.

Omaha's credit has always been classed as gilt-edged and for that reason there ought to be a brisk competition for the forthcoming issues of renewal and refunding bonds.

Property owners should move at once for the repayment of the streets on which their property abuts. They may never again see paving laid in Omaha as cheaply as it can be laid now.

The two men to be nominated for university regents by the republican state convention should be men specially qualified to perform the duties of the position. Such men will add strength to the republican ticket.

The fusion State Board of Transportation has discreetly set the hearings of the complaints pending before it against railroads and telephone companies for dates after the state conventions of the popular parties.

When the railroads are forced to run every scheduled freight train in two and three sections of full size in order to accommodate the traffic as they are doing in Nebraska, there is no use denying that the revival of business has set in.

Two Americans who have inventions that promise to revolutionize telegraphy have had to go to England for an opportunity to make practical experiments of their devices. There must be some progressiveness in government-operated postal telegraphs after all.

Our amiable poperaic contemporary and organ of the gamblers, the World-Herald, has returned to the publication of the free Talmage syndicate sermons, but it has not yet explained why it suppressed Talmage's denunciation of the gambling evil a few weeks ago.

It looks as if Great Britain were ready to push the concert aside and go it alone in the peace negotiations between Turkey and Greece. It may be put down as certain, however, that the concert will play on until the end of the program is reached.

From the results of the county conventions now in progress it develops that the sentiment of the silver parties is by no means unanimously for fusion. In counties where the populists have an assured or even fair prospect of carrying the election, it is hard to persuade them that they ought to divide up the offices with democrats and so-called silver republicans.

To attempt fusion without reciprocal benefits between the elements is too much like trying to make bricks without straw.

RAISING THE GRAIN RATE. The recent advance in the price of breadstuffs has been seized by the traffic managers of the trunk lines east of Chicago as a pretext for increasing freight rates on flour, wheat and corn shipped from Chicago to New York.

CLIMAX IN AGRICULTURE. Is the time near at hand when our own population will consume the entire wheat product of the United States? The opinion is expressed by those who have given careful study to the matter that our agricultural development in some lines is probably at its climax.

It is this arbitrary system of railway rate making that has aroused such universal hostility to the railroads among western farmers and exasperated them to the point of retaliatory legislation.

FRENCH DUTIES ON BREADSTUFFS. The agitation in France for a reduction of the tariff duties on breadstuffs is but in the incipient stage and it is highly probable that very serious trouble may grow out of it.

It is an interesting fact that while in 1895 our exports of corn were valued at only \$15,000,000, in the fiscal year ending June 30, 1897, the value of the exports of this cereal was \$55,000,000.

DISCORDANT REPUBLICS. It seems that the recently heralded Greater Republic of Central America is already threatened with disintegration and that there is even possibility of a war between some of the states composing it.

As was to have been expected, the slot machine license ordinance is encouraging and multiplying gambling in the community. With a protected gambling machine located in every drug store, cigar shop and saloon it will be a miracle if any of the growing generation escape the gambling fever.

Shipping cattle by weight instead of by carload is all right if it is not a cover for an increase of freight charges. If the charge is simply a cloak for adding to the cost of transporting live stock to the markets, it certainly should be resisted by shippers the same as if it were an open raise in the freight tariff.

Farmers on Easy Street. A Nebraska farmer who bought a farm of eighty acres and gave a mortgage of \$1,500 on it has raised 2,200 bushels of winter wheat off of it in one year.

Another Too Slow. The engineer strike in England is spreading, but no judge has yet ventured to explain it or to say how unprogressive they are over there.

Shutting Out Pension Shavers. The pension shaver has made a rattling which doubtless aroused the antagonism of a certain class of pension attorneys. Hereafter it has been the custom to require pension checks in care of attorneys, the object of the latter undoubtedly being in many instances to make sure of the pension money by withholding the check or having it endorsed in their favor.

Issues in Nebraska. Mr. Bryan's demand that the state campaign in Nebraska this year shall be fought out along the lines of the national silver issue is a demand for the acquiescence of the republicans and all other friends of honest money.

Bishop Newman and Temperance. It had been delivered by any other class of speakers in the neighborhood of the address of Bishop Newman at Saratoga might have been seen cast upon a fertile ground, but it is feared that it will bear no fruit.

"A HAPPY EVENT." Also "a Brilliant Inspiration of Wisdom and Patriotism." There is noticeable a disposition to look upon the 10 per cent discriminating duty, whereby the Dingley act has prevented the importation of silver from the carrying business of the United States, as an accident, or as an error in the framing of the law.

WIVES FOR KLONDIKERS. A Big Scheme Developing in the Mind of the Great Man. L. M. Keenan lives and thrives in a South Dakota town bearing the abbreviated name of Ola.

PERSONAL AND OTHERWISE. The Japanese Juggos have subsided, and the republic of Hawaii will remain in the midst of the Pacific until further notice.

ROYAL MAKES THE FOOD PURE, Wholesome and delicious. ROYAL BAKING POWDER. Absolutely Pure.

MARCH OF PROSPERITY. Globe-Democrat. This country is sending its grain to Ireland and India and electric railway equipment to London.

AN INDIAN EXHIBIT. Should be a Lending Feature of the Transmississippi Exposition in Omaha next year. The suggestion that an elaborate Indian exhibit be given in connection with the Transmississippi Exposition in Omaha next year is receiving serious consideration by the exposition managers.

WHITTLED TO A POINT. Philadelphia Record. The man with an iron will and muscles of steel is often placed upon his mettle.

GAINFUL OCCUPATIONS. Interesting Facts Gleaned from a Labor Bulletin. The July Bulletin of the Department of Labor presents some interesting data concerning the workers of gainful occupations.

REPUTATING 16 TO 1. Minneapolis Tribune. Governor Boies last year expressed himself as opposed to a 16 to 1 ratio, and had his wiser counsels been listened to, had the democratic national platform signed for free coinage at a proper rate, with insisting upon a 16 to 1 ratio.

PERSONAL AND OTHERWISE. The Japanese Juggos have subsided, and the republic of Hawaii will remain in the midst of the Pacific until further notice.

Money to Burn in Kansas. New York Tribune. Kansas has \$15,000,000 more in bank deposits than it had on January 1 last, and with wheat at the dollar point the prospects of the free silverites there run lower than the continually decreasing price of that metal.
