PLEASED AT RATE WAR END

Local Freight and Grain Men Think Omaha Comes Out Well. SOME WHO TALK DOUBT SETTLEMENT. Secretary Merchant of Grain Exchange Says It is Genuine and Omaha Will Profit by Result. The settlement of the grain rate war meets with the approval of local freight men generally and of most of the grain dealers. All of the railway men seem to think the adjustment is very favorable to this city, in fact places it on an equality with Kansas City. Secretary Merchant of the Omaha Grain Exchange says he has the word of local freight men that the settlement is genuine. Opa official said: "It looks to me like Mr. Stickney had been able to get everything he went after in this fight, but the war has been extremely expensive to the railroads which have engaged in it. It is my opinion that it has cost them about \$2,000,000 in round figures. The reduction in rates allowed to Kansas City to the Gulf ports has been equalized by a like reduction from Omaha to points north, and I think this a favorable trade for Omaha. To other eastern markets the rates from Kansas City and Omaha are the same, so there can be no discrimination. Details Not Settled. Of course, the details of the settlement have not yet been arranged. It still remains to get together and check up the rates and this probably will be done soon. So far as a concession being granted to the Northwestern from points in the northern part of the state is concerned, I know nothing of that. I do not believe there is any truth in the report which comes from Chicago to the effect that such a concession has been granted, for it is my understanding the details have not yet been taken up, and this is one of the details and could not possibly have been arranged. I believe some such concession will be granted to the Northwestern when the final adjustment is made, but this would be only fair on account of competition which that line has in the northeastern portion of the state with lines which are not tributary to Omaha and which must be dealt with in a settlement. "Considering everything, I believe Omaha has come off very lucky. In fact, I do not know what more could be asked for this city. I believe I voice the sentiments of all local freight men when I say that I am glad the fight is over." Most Grain Men Pleased. S. A. McWhorter, vice president of the Omaha Grain Exchange, said of the outcome: "This settlement looks right to me. It is all we asked and we should be satisfied. I feel the railroads interested have come to a conclusion there is nothing to be made by continuing the fight. I believe this is the final settlement and they will stand by it." Floyd J. Campbell said: "This reported settlement is on the face of it no settlement. The paper says the war was ended—it has really only begun. The people of Kansas City will not put up with having Omaha into Chicago on the same rate they have. They are somewhat nearer and have always had the advantage in rates and they will not give up now. I do not regard it seriously." E. A. Cope, treasurer of the Updike Grain company—it looks like a fair settlement to me and one which gives all parties a right to carry on a grain business. Kansas City has seen it must concede something and we have done the same. Omaha and Kansas City have the same rate into Chicago.

OMAHA MAY GET STOPOVERS. Can Secure Privilege on World's Fair Visitors by Passing Ordinance. MUST PREVENT SCALPING OF ALL TICKETS. Western Passenger Association Grants Right to Kansas City and Places It Within Reach of Omaha. If Omaha's city council will pass an ordinance forbidding scalpers to pass in World's fair transportation, Omaha may secure the advantage of having World's fair tourists stop over here. The Western Passenger Association, at its meeting in Chicago Thursday, passed a resolution to allow a ten-day stop-over on World's fair tickets sold at points west of Kansas City in that place. The same resolution was passed in regard to this city, but it has a string to it, declaring the city council must pass an ordinance providing that scalpers shall not handle the tickets. The Commercial club in Kansas City secured the passage of such an ordinance and it is believed the matter will be taken up by the Commercial body here. An ordinance probably will be drawn within the next day or two and presented to the council by the Commercial club and that body will use all of its influence in securing its passage. All those entering Omaha from both east and west are interested in the passage of such an ordinance for the reason that in case scalpers are allowed to continue in business they will all be sufferers. The commercial element of this city is very much interested in securing the passage of such an ordinance, because without it it is evident the railroads will refuse to grant stopovers and local merchants will thereby lose a large amount of trade. Now that the privilege has been granted Kansas City, undoubtedly a large number of Nebraska people will take that route to the World's fair unless a like privilege is granted here and this would result in a great volume of business going to that point, which might under similar conditions come here. If no stopovers are allowed here many merchants, it is argued, will buy goods in St. Louis which they would otherwise buy in this city. One local passenger official said it will be impossible to get the Western Passenger Association to grant the stopover privilege in this city unless the Burlington protecting the railroads is passed by the council. Plan to Colonize. The railroads running through Nebraska will all take steps to induce settlers for the government land thrown open under the Kinkaid bill as soon as the land is open to settlement. Some local officials believe it will require but little effort to get the land settled up, but others think that some advertising and preliminary work will have to be done to draw the proposition to the attention of prospective settlers. The Union Pacific will take the matter up shortly, but it is not believed the Burlington will do more than to leave a folder descriptive of the lands to be settled. Reported Changes. It is said the justification of General Superintendent W. L. Park of the Wyoming division of the Union Pacific, has been extended to include the line between Cheyenne and North Platte, 22 miles, and the Julesburg branch, Julesburg to Sterling, fifty-seven miles. This makes 81 miles in the new division. His headquarters will remain in Cheyenne. Another change also has been made, Master Mechanic Niland of the Wyoming and Denver Pa-

city division will have charge of the same territory with Mr. Park. Mr. Niland will hereafter report to Mr. Park instead of to the headquarters in this city. He has formerly reported direct to Superintendent of Motive Power McKean. Reduced Fair to Lincoln. Nebraska lines have announced that the fare to Lincoln from all points in the state during the republican state convention will be one fare plus 50 cents for the round trip. Tickets will be sold May 17 and 18, and they will be good on the return trip until May 21. REAL ESTATE IS VALUABLE Lots Command Substantial Figure, as Shown by Auction Sale at the Exchange. "The little real estate auction we had Wednesday at the meeting of the Real Estate exchange," says a member of that organization, "shows Omaha real estate is beginning to be looked on again as valuable property. The lot which was offered for sale was located at Thirty-second and Vinton streets and was sold for \$190. Last year it would not have got a single offer. The lot Wednesday brought this price among real estate men only, men who know the value of property in every part of the city and who would not pay as much by a good deal as the ordinary investor. We real estate men last year felt we had entirely too much Omaha ground to pay taxes on, but this year it is different. The sale of the lot so far from the center of the city shows that." Health at Small Cost. A few doses of Dr. King's New Life Pills will cleanse, tone and invigorate the whole system. Try them. Only 25c. For sale by Kalm & Co. The Best Want Ads are the best Business Boosters.
