GOSSIP ABOUT PARTIES AT DINNER

Senators Bourne and Hanthorn, Who Are Said to Have Been Present, Call at the White House.

WASHINGTON, April 6.—President Roosevelt is receiving many letters regarding the combination which it is asserted has been formed to defeat in the coming presidential campaign the policies of Mr. Roosevelt.

"You gentlemen are all wrong as to the details of the dinner" is all that Secretary Loeb would tell the newspaper men today, except to indicate that the personnel of the party attending it at which the plot is said to have been elaborated remain a secret so far as any information at the White House is vouchsafed.

Secretary Loeb said Senator Bourne had called on the president to discuss some land and other appointments which had been hanging fire for a long time. Senator Penrose of Pennsylvania, whose name has been used, has not communicated with the White House since the story became public.

NEBRASKA FROM DAY TO DAY

Quaint and Curious Features of Life in a Rapidly Growing State.

At the present time the office of game warden is no sinecure, but the "pothunters" wish it were.

Assessors are abroad now and the average Nebraskan will wait a few weeks before telling of his successful business deals.

Candidates for county offices are making announcements in York. The new primary law seems to have no terrors in that county.

A man who can, without loss of time, create confidence of automobiles in horses would make a fortune by introducing his system in Nebraska.

The village of Dodge wants to become a city of the second class, even if it has to acquire all adjoining land to secure the requisite population.

Complaint is general in the state that there are too few houses for rent. Returns from farm land seem to have attracted the majority of investors.

Rare Discoment—At a declamatory contest the audience can't help feeling that success in picking the winner shows judgment that would win in a land trade—Norfolk News.

Industrious Preachers—Arnold has two preachers who are not afraid of work. Rev. Mayfield is working on the new street, while Rev. Jewell is laying the foundation for the new Baptist church—Arnold Correspondent Gandy Pioneer.

Corpses in moving—It seems that the church people are getting tired of their corpses of divine expounders, or else the ministers think they can find a more profitable field of labor—one has handed in his resignation and, from rumor, another is about to do likewise.—Gresham Gazette.

Where the Editor Will Work—The change of the Gazette does not mean that the Thurston harness and shoe repair shop will close its doors, but, on the other hand, the public will always find the competent editor at his old stand pulling wads and pegging shoes the same as usual.—Thurston Gazette.

Where Willie Ran—A. E. Olson of Winnetka was to West Point in his automobile one day last week. On his way home he passed a young man who was fixing a water tank near the road. The machine was going quite swift and went by so fast that the young man did not see it, but he heard the noise. Thinking that he had run, he started home so fast that he lost his hat. It was Willie, the great hunter.—Germany Correspondent Beemer Times.

Lumber Wanted at Genos—Work on the new Masonic temple has been suspended for a few days because of the absence of one of the carpenters. A single door thirty-foot long joint. We understand they were ordered by one of our local lumber dealers over a year ago, at which time it is claimed they were shipped and trace of them can be found. One of the Masonic brethren, however, informed the leader this week that the trouble was caused by a drought out west somewhere. The tree which they planted upon receipt of the order failed to make the expected growth last year. They began to irrigate it this spring and hope it will be large enough to cut up by a year from next fall.—Genoa Leader.

Strong Language at Kimball—That general, whole-souled fellow, Agent Kitchin, respectfully requests that the phone-using public desist from using such large and odorous words when talking to the depot. The receiver on the instrument there burst with a resounding whack the other day and Operator Strand was found in a chaotic state and a large-sized "brain storm," all resulting from sulphurous fumes emitting from the telephone. The situation is serious.

Home-made Fire Extinguished. LEAD, E. D., April 6.—The fire in the Home-made mine is extinguished and the workings are rapidly clearing of gas. The steam, which was turned on quenched the fire.

The Chicago Sunday Tribune will be on sale at all news stands at 7 a. m. today. Pay 5 cents only for it.

Ship for Lake to Pacific. SUPERIOR, Wis., April 6.—Captain E. S. Ewart of San Francisco has arrived here to take out the steamer Winnebago bound for San Francisco, the entire trip being over 15,000 miles. The Winnebago probably will take on a cargo of caribole at Detroit. The longest stretch of the voyage will be from Fort Sidney to Corcoran, Minn. The ship, together with the Lucy Nett of Milwaukee and the Star of Wisconsin, has been purchased for the San Francisco-Puget Sound lumber trade.

Boston Brokers Fail. BOSTON, April 6.—The failure of Webster, Putnam & Co., bankers and brokers of this city, was announced today on the Boston Stock exchange.

GREAT NORTHERN IS FINED

Case Tried on Agreed Facts and Will Be Appealed by Road.

MINNEAPOLIS, April 6.—Agreeing to a stipulation of facts in fifteen counts involving illegal rebates, the Great Northern railroad was today found guilty and fined \$10,000 by Judge Page Morris in the federal district court.

This handling of the case is to facilitate an appeal by the road to the federal circuit court of appeals on the question whether it is possible to bring prosecution under the Elkins law on charges which defendant alleges are covered in the new Hepburn law. With the appeal in view the proceedings in court today were perfunctory, both sides stipulating that the fine imposed should in no way be construed as a precedent in other cases. Rebate cases against the Chicago & North Western, Minneapolis & Omaha railroad were taken up by the court following the disposition of the Great Northern matter.

LORAIN STRIKE TO CONTINUE

Employers Say They Will Reject Proposition to Arbitrate.

STEEL TRUST PLANT CLOSES FOR REPAIRS

Eight Thousand Idle Men, Most of Them Unionists, May Meet to Complicate the Situation.

LORAIN, O., April 6.—Arbitration which was attempted as a possible means of settlement of the strike at the yards of the American Shipbuilding company did not succeed today, but a renewed attempt will be made Monday by a committee acting on behalf of the strikers.

Superintendent LeMarche of the American Shipbuilding company declares tonight that the backbone of the strike is broken and said that the company officials would on Monday, as they did today, decline to meet the committee on arbitration. They hold that there is nothing to arbitrate. LeMarche said tonight that 500 men are working at the plant and that double that number will be there Monday.

C. A. Vanderver, Thomas Murtah and other labor representatives are urging the strikers to stand out and not to accept either arbitration or a return to work under present circumstances. D. Van Nuy of this city, who is at the head of one of the city organizations in which most of the strikers are enrolled as members, came out tonight strongly in favor of arbitration.

Big Steel Plant Closes for Repairs.

Notices were posted at the mills of the United States Steel corporation here today that the plants would shut down for two weeks for repairs, beginning tonight. This will affect about 8,000 men.

That the city authorities think so is shown by an order of Mayor King to Captain Gove of Company B to keep his company at the armory under arms until further orders.

A large number of strikers today applied at the local plant of the United States Steel corporation for employment. When it was learned, according to the statement of the applicants, that they were strikers from the steel yards they were refused work. The strikers are leaving the city.

Later in the day a crowd of strikers attempted to hold up a wagon carrying broad
