HE - I THINK IT ADVISABLE TO BUY HOME PROPERTY INSTEAD OF BUYING SOMETHING WE KNOW NOTHING ABOUT.
SHE - YOU ARE RIGHT, YOU KNOW THE MONEY MR. EASY LOST, BUYING PROPERTY HE HAD NEVER SEEN.

Be On The Safe Side

Have you, as citizens of this prosperous town, ever stopped to think of the great part that the money invested in Home Real Estate plays in the success of our city? The upbuilding and beautifying of our town can only be brought about by investing our money in our home real estate, and every dollar invested here helps to increase the value of the property in this community, encourages local building and makes for the broad gauge road of civic advancement, thus doubly securing your investments.

MORAL:—It is better to be sure than sorry.

THE MAIL ORDER OCTOPUS

It is the prowling hope of this monster to gradually at first and then by mighty lunges, to draw out our strength by taking from us our resources. Its victims come slowly at first and unless it is hunted down it gains in ferocity and envelope and develops quickly. This monster has never paid taxes toward the upkeep of the locality and its presence in our midst should be made more and more objectionable at every turn.

The only way in which to drive out the monster is through the same spirit of co-operation that has brought about the upbuilding. If every man, woman and child in our happy city family will unite in cooperating with the home commercial industries, the mail order octopus will be quickly driven to despair and thence to starvation. Let's all get together and continue the prosperity and success that has been ours in the past.

It has taken many years of co-operative efforts to build up a community like this. We have labored jointly, our forefathers labored and their forefathers before them. The up-building and beautifying of this locality has been in the main brought about through our contributions most popularly known as taxation. Each one of us has thus contributed toward the upbuilding and sustenance of the community and we have come to enjoy its resources.

With this considered in the light that it deserves, we are prompted to protect what we have built up. Like the docile animals of the forests, there is always some monster preying upon and prowling about in search of the life blood. In this community we refer particularly to the mail order octopus that seeks to entwine our homes within its outstretched arms.

WIRELESS TELEPHONE RECEIVER INSTALLED IN HARDING'S STUDY.

Washington, Feb. 8.—President Harding has a new toy to play with if he can find leisure to devote to it.

A wireless telephone receiving outfit was installed today in the President's study on the second floor of the White House by Commander Stanford C. Hooper, at Secretary Denby's request, it is understood.

After tomorrow the President will be able to put the phones to his ears as he sits at his desk in his study, overlooking the lawn toward the Washington Monument, and hear the latest news or snatches of music.

It is expected that a similar receiving instrument will be installed in the White House press room for the correspondents.

CHARGE REPUBLICAN WITH SHADY FINANCING.

Washington, Feb. 9.—The assertion that William Boyce Thompson, "of the national Republican organization," had borrowed \$5,000,000 from the New York Federal Reserve bank on a "dummy note," was made by Senator Heflin, Democrat, Alabama, in the Senate today in the course of an attack on the Federal Reserve board.

Senator Heflin replied to the recent address of Senator Glass, Democrat, Virginia, former secretary of the treasury who defended the board.
