The appointment of Francis D. Winston to the judgeship to succeed the late Judge R. B. Peebles was a happy selection. There is no man in the state more versatile than the former lieutenant governor, none who is more congenial, and none who has more warm friendship. To know Frank Winston is to like him. That he is a finished lawyer there is not the slightest doubt and that he will make an excellent judge his past record is proof.

The Greensboro News says that Jim Kelly's Goats won 14 games during the first half, and it looks like they will better their record during the second period.

The Germans evidently want to assist God in "strafing England," judging by their blows on the English lines.

This Fourth of July was as quiet as Durham or Raleigh after the home team has lost a ball game.

Wouldn't Walter Johnson be a valued recruit for a hand grenade contingent? And maybe the Russians will break the camel's back.

PRESS COMMENT

No Town Rivalry In It. Statesville Landmark.

They're having a sort of epidemic of law enforcement in Catawba and we gain the impression from the Catawba papers that it is partially due to a sort of rivalry between the county court at Newton and the recorder's court at Hickory, or rather to the feeling of citizens of the two towns some citizens of Hickory were arrested and fined in the county court at Newton for infractions of the automobile speed laws.

THE END OF AN ILLUSION

New York Evening Journal. Capt. Morey's account of the Carrizal fight should end one illusion which seems to be widely held, even in military circles. The American commander at that skirmish was under the impression that the Mexicans would run as soon as we fired.

They did not run, and they cannot be trusted to run on other occasions, until persuaded by hot, well directed fire or the close approach of an unwavering line of bayonets.

A SHINGLE PHONOGRAPH. A phonograph recently constructed by a high school boy, and described in the Popular Science Monthly, has as its reproducing part nothing more pretentious than an ordinary shingle, with the point of a darning needle secured fastened in one corner.

To produce these records a further instrument composed of two Morse keys and electric sounders, is required; the sounders being connected with a needle which cuts into the prepared wax record.

TO ENABLE BLIND TO READ. Vienna, July 5.—Dr. Max Herz, a well known Vienna scientist, has invented a sort of combination of talking machine and telegraph which will enable the blind to "read" with far greater ease than the present cumbersome and costly Braille books.

ADVANCE NOTICE. Little Willie came to his mother with the following query: "Mother, what would you do if some one broke the large vase in the parlor?"

THE DED GO DEVIL. Bulletin of the National Tax Assn. The Colorado tax commission had ordered Mr. Cartwright, the assessor of Otero county, to increase the valuation on all motorcycles by fifty per cent.

MAY PUNISH LYNCHERS. Very quietly Solicitor Shaw went about the tedious business of endeavoring to work up evidence against the men who lynched Joe Black, an old negro man whose offense was that he tried to assist his son to escape.

It is not enough that children of the shiftless or feeble minded shall be provided for by the state or some charitable organization. Children should be denied those who are notoriously weak mentally or physically, or who have committed offenses that would bring reproach on their posterity.

Conserving the Race. Naturally everybody takes great pride in fine cows, horses and hogs, regardless of their owners, but few people consider it worth while to trouble themselves about the conditions that surround a family here or elsewhere.
