

# Be Sure of Next Winter's Feed Order Your Silo Now

Right now, while you have the memory of this winter's feed shortage in mind, is the time to decide on next winter's feed. Don't let another winter run you short, and make your stock suffer, and lose you money. Decide now to put up a silo, and save 40% of the feed value of your corn. While you have time—before your spring work crowds you—look into the silo market—look for the best

## UNADILLA SILO

The Silo with Eight Points of Superiority

- 1.—A perfectly constructed building with a frame as strong as your barn.
- 2.—Strong, safe convenient ladder, on doors.
- 3.—Unadilla hip roof adds four feet to filling capacity.
- 4.—Continuous door opening, doors 17½ inches high. Any boy can handle.
- 5.—Hoops tighten from ladder inside of chute, no dangerous slippery ladders needed.
- 6.—Only adjustable door frame on the market. No need of mud or felt packing.
- 7.—Hoops closer together at bottom, where pressure is greatest.
- 8.—Cold rolled pressed threads on steel hoops.

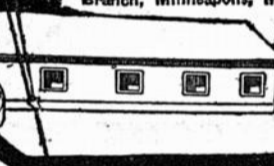

Study these points carefully. Compare the Unadilla, point by point. The Unadilla has been selected by the U. S. Government for the Indian farms, by the Iowa State Agricultural College, at Ames, and Borden's Condensed Milk farms. Order your silo now—and get the best—The UNADILLA SILO.

## MOTOR GOOSE

Rattle, rattle, little car,  
My, how very loose you are;  
A year ago you were some cart,  
Now you're coming all apart.

By the looks of things in the senate article X is going to mark the place where the peace treaty was last seen.

Twenty-seven Princeton students say they never have kissed a girl. Which leads one to wonder whether it's nerve or truthfulness which these men lack.

## A SWEETLY SOLEMN THOUGHT—THE PRICE OF SUGAR.

"Woman finds a way to defeat book agents," says a headline. But if a book agent could find a way to defeat a woman, he wouldn't be a book agent.

Some men are so set in their ways you can never get them to see things your way.

Governor Edwards has withdrawn his name from presidential ballots. However, he has not yet come in out of the "wet."

A lot of men who have no trouble settling the affairs of the universe got stumped filling out their income tax returns.

The Republican delegation from Tennessee has been instructed for somebody or other. We didn't know there were enough Republicans in Tennessee to make a delegation.

## GRAIN ALCOHOL GIVES ONE A PAIN IN THE BRAIN; WOOD ALCOHOL A SLIVER IN THE LIVER.

The richest Indian got married the other day. Now we'll find there's more than one way in which an Indian can become good.

An aviator recently established a new high altitude record. He went higher than the cost of living.

The Turks want Pussyfoot Johnson to run a prohibition campaign there. We had understood that turkey always was dry.

## POLITICAL BEES ARE MOSTLY OF THE BUM-BLE VARIETY.

## HORRORS OF PEACE

Speaking of beating the swords into plowshares, it is reported that the army is now selling surplus cartridge cloth for ladies' garments. A lot of the former service men probably will want to investigate this, and won't be any more deterred by the danger of powder than they were during the war.

It takes less time in Germany to be a "former" president than it does in the United States, evidently.

The New York Times says Bryan won't refuse the nomination. Who said he would?

The navy has decided to take over the Osage Nation oil lands. This spoils all hopes of the oil companies, which had hoped to cut an Osage melon.

Bandits found \$16,000 worth of whisky stored in an insane asylum. If the inmates weren't mad before, they certainly ought to be now.

Some other bandits got away with \$20,000 in income tax receipts. Probably they had just paid theirs and needed it.

People spend more time now buying shoes, a St. Paul paper says. They are also, perhaps you have observed, spending more money.

Ireland now is looking for somebody to do for the lion what St. Patrick did to the snakes.

Perhaps you've noticed that it was after they started to sell the government fleet that the news came out that the Emergency Ship corporation had made something over \$100,000,000.

By the rate they're being discovered, it appears to be almost impossible to keep a "still" on the quiet.

The Honduran senate the other day shot up each other during a debate. And still they insist that the Hondurans are only half-civilized!

## OUR IDEA OF NOTHING AT ALL: THIRTY CENTS' WORTH OF STEAK.

We will have to revise the saying, "Slower than molasses in January," and make it, "Slower than the United States senate."

## CLOTHES

WITH clothing prices where they are, I fear that in a while it's going to bust the average man to even wear a smile. A pair of pants (or trousers, describe them how you will), seem like a modest fortune when you come to pay the bill. And shoes and caps and waistcoats, and socks and shirts and things, according to the price tags are only made for kings. My golly, how I envy the simple cannibal, who makes the profiteering game monotonous and dull! Or the carefree, wild Hawaiian, who is dressed the best he can, when he dons a ukelele and a healthy coat of tan. His trousers are of rushes, and his shoes, they're not at all, the collector from the tailor almost never makes a call. With a sickle and a garden he's dressed up for a song, for he merely swings that sickle where the grass is good and long. I'll go there if the prices don't drop soon with a slam, for I can not pay these prices, and I can't go as I am.

—C. W. V.

# SALE OF GALLOWAY'S 1920 SEPARATORS

All Sizes  
at Proportion-  
ately Low Prices  
Direct from  
Galloway's Factories

That's the reason for this low price. This saves you the difference between my price and the price of the high-priced separators. I cut out all waste and sell you at this rock bottom wholesale figure. You get your new Galloway Sanitary right fresh from my factory floor. ## Make a Good Seed Bed and Grow Bigger Crops

It's easy enough to produce straw but it's hard to get the kernel without the proper care of soil. KOVAR HARROW will loosen up the hardest kind of land—turns the soil and gives the air and sun a chance to help the soil produce—cultivation produces nitrogen—nitrogen produces the kernel. Kovar Harrow is more than just an ordinary spring tooth harrow—it destroys pigeon grass, quack grass, wild oats, Canadian thistle, sow thistle and weeds of all kinds through cultivation.

### IMPORTANT! Two New Kovar Products

KOVAR CORN CULTIVATOR, which operates on the same successful plan as the harrow. KOVAR HARROW CART with dust proof wheels and drawbar guiding axle.

JOSEPH J. KOVAR, Owatonna, Minn.,

PATENTEE AND SOLE MANUFACTURER OF KOVAR LINE
