

A WELL KEPT SECRET.

How the Keeper Managed the Church and Town Clocks... The clockmaker of a small town in the west of England recently retired, and the contract for keeping the church and town hall clocks in order was given to his successor. Unfortunately from the start the new man experienced a difficulty in getting the clocks to strike at the same time. At last the district council requested an interview with the watchmaker. "You are not so successful with the clocks as your predecessor," he was told. "It is very misleading to have one clock strike three or four minutes after the other. Why, before you took them in hand we could hardly tell the time by any striking. Surely you are as competent as Mr. H."

FOR SALE BY ALL DRUGGISTS... ENVELOPES.

Why Some of Them Are Colored Blue on the Inside... "Why are these envelopes made blue on the inside?" asked a man looking at a specimen which a wholesale stationer held in his hand.

OLD FAMILIES... One of them claims to Reach Back Beyond the Flood.

Higher Chinese Education... Many of our people think of China as a land of ignorant coolies who rise scarcely to the plane of human beings.

A Way Some Women Have... I have heard that women are dishonest in the way of sending to milliners for boxes of hats on approval, keeping them for a week, and when they return them with a note to say that none suits, the owners find that each has been worn once, if not several times, and this fact is betrayed by innumerable pin holes.

PECULIAR FIRES... The Manner in Which Many Disastrous Blazes Originate... Dust is a wonderful producer of fires. There have been instances in post-offices where the dust of the mail bags suspended in the rear of a close room exploded with terrific force.

Just the Way... "This article says that person rescued from drowning should be turned face downward and vigorously treated with hot applications."

The Nearest Man... A hotel keeper has been found in northern Missouri who is so near that when a baby was born in one of his rooms he immediately wrote its name on the register and began charging it for room and board.

It was a reporter with some humor who stated that at the end of a local party "the guests went home and the neighbors went to sleep."

EGGS AS FOOD... Though Nearly Half Water They Are Extremely Nutritious... The white of an egg is nearly seven-eighths water, the balance being pure albumen. The yolk is slightly less than one-half water.

MAKING CAMPFIRE... A Simple Process With a Still More Simple Apparatus... "To make campfire," said a chemist, "you put in chips at one hole, and out of another hole you draw the crude product in course with grains like salt."

STINGING MOSQUITOES... Bids Suffer More From These Pests Than Does Man... "Bids suffer more than man from the mosquito," a naturalist said.

DRIVING BEHIND OXEN... Bullcock Traveling in India is Both Common and Comfortable... "Nowhere else in the world," says Dr. Francis E. Clark in Everybody's Magazine, "is bullcock traveling so comfortable and so common, probably, as in some parts of India."

Wasn't Wholly Convinced... "Waal!" said the old lady, "if the airth is round and goes round, what holds it up?"

His Misfortune... "I can argue with any one here," said the constabulary man fiercely. "I can argue."

Misjudged Him... Lady A.—Here comes that dreadful man who sat next to me at dinner. He hasn't the manners of a pig! Mrs. B.—How funny! I thought he had—Punch.

Lambertville Heat, Light and Power Co. The Cost of Comfort... When the cost of comfort is balanced against the desire for comfort, the following figures may help the desire.

One FAN MOTOR, running at 2200 revolutions per minute consumes 20 Watts. At 15 cents per 1000 Watts per hour, 20 Watts per 10 hours costs 3c. If 10 hours comfort isn't worth 3c, the desire for comfort is not very great and further figures are useless.
