## RED BANK TO GO TO WAR WITH MOROCCO

RED BANK, Aug. 5.—Everything is in readiness for the jubilee, which is to commence here Wednesday night.

The business men's committee has perfected all the arrangements for the three-day event, which promises to eclipse any similar affair ever held in Monmouth county. The celebration will begin in earnest on Wednesday night at 9 o'clock. This will be a parade of decorated carriages, carts and floats by the business men of the town.

A children's anniversary parade will be held Thursday afternoon. The trolley companies have made a concession by agreeing to carry out-of-town children to Red Bank at half fare.

On Friday morning, commencing at 10 o'clock, three motor boat races will take place on the North Shrewsbury river. There will consist of a pleasure boat race, a speed launch race and an auto boat race. A special race for power boats may also be arranged. Charles P. Irwin has general supervision of the boat races and has received a large number of entries, most of the summer cottagers having placed their boats in the races. On Friday night a river parade will be the attraction. A hundred or more decorated and illuminated boats will be in line, arranged in divisions. The parade will form in Minton's Cove, East Red Bank, and will perform various evolutions as they skirt the north and south shores of the river. Two bands of music are expected to be in the parade and numerous hands will be in the parade on Thursday.

### U. S. ARMY OFFICER LAUDS NATIONAL GUARD

SEA GIRL, Aug. 5.—With the guns of Battery B booming forth a national salute of twenty-one guns, and the band of the Second Regiment playing the national hymn, Camp Stokes came to a close here yesterday afternoon for the third and last year. Edward C. Stokes will have retired from the governor's chair when another encampment opens and the camp will be known by the name of the new executive. Governor Stokes did not leave until today.

Sea Girl is not without soldiers, however. Early Saturday morning a special train pulled into the station from Pittsburgh with 200 boys from the Smoky City, members of the Third Regiment, Pennsylvania, Boys' Brigade of America, who have made an annual pilgrimage to Sea Girl for three years. They have established Camp Colonel Homer J. Lindsay, directly across the road from the state camp. General H. P. Bope, who is an official of the Carnegie Steel Company, is in command.

Captain Raymond Sheldon, the regular army officer, who has been here for the entire encampment, told Governor Stokes before his departure that he visited many National Guard encampments, but had as yet never seen one so efficient and well equipped as that of New Jersey. Governor Stokes also expressed himself as well pleased with the very evident improvement that is being made each year by the various commands of the National Guard.

### Will Test The Game Law.

PLAINFIELD, Aug. 5.—Fined \$22 on the charge of letting his hound dog run at liberty during the closed season for rabbits, in violation of the game laws, Edward Bimble, sixteen years old, has found friends who will furnish the money to appeal the case and test the law.

The boy is poor, but he thinks a great deal of his dog, which has always been tied. He is a clerk in a local store and did not know the dog had broken his tether and gone across the fields. The game warden, Freeman Straight, saw the dog, and, knowing who the owner was, halted the boy before Justice of the Peace Thomas Snape.

### PARIS, Aug. 5.—The government has received through the French charge d'affaires at Tangier the expenses of the Moroccan governing board for the troubles at Casablanca and its usual assurances that orders have been given to the governors of the various ports that they will be held responsible for the security of foreigners. But these platonic assurances will not affect the programme the government is elaborating with Spain and for which active preparations are proceeding.

The second naval division, consisting of the cruisers Gueydon, Gloire and Jeanne d'Arc, has sailed from Toulon for Morocco. The entire coast of that country will be patrolled by French and Spanish fleets until the international police are installed.

General A. M. B. Drude, commanding the First regiment of the Fourth Algerian Tirailleurs, an energetic officer, has been given command of the French expeditionary force that is embarking at Oran for Casablanca.

The impression is general here that in order to put an end to anarchy in Morocco a punitive expedition must march on Fez.

The Europeans at Casablanca are still greatly excited, as 2000 Arab horsemen invest the city. The commander of the French warship Gallie offered to bombard the town, but the foreign consuls prevented this action. All foreign business houses and the banks are closed, and business is at a standstill. The Italian cruiser Etna, with the Italian minister aboard, has arrived.

The latest steamer which has arrived at Tangier from Casablanca brought 400 refugees. They report that, although the French cruiser Gallie was in the harbor there, the Europeans among them were attacked as they were embarking by a large body of Moors. But the natives seemed to fear they would be punished and soon desisted.

Then the Moors went to the Christian cemetery, dragged a number of corpses from vaults and were burning them when a large body of French troops appeared and opened fire, killing several of the tribesmen, whereupon the rest fled.

Official advices say that the sultan's troops have attacked and burned the village of Hauta, near Raisul's retreat. It now appears that when the tribesmen demanded that Raisul surrender, he attacked because they feared an attack by the sultan's troops. Raisul suddenly vanished, taking MacLean with him into the hills.

The French marines are awaiting reinforcements from France and Oran before landing in force. Another steamer has reached Tangier with 250 Jewish and a number of French refugees. They report that the town is in the power of the Arabs, but that they saw no further slaughter.

## REFORMS NOW AT THE ASYLUM

TRENTON, Aug. 5.—Encouraged by the fact that there has not been a new case of typhoid fever at the institution since last Thursday, the authorities at the state hospital for the insane are inclined to believe that the disease has passed the epidemic stage and that from now on only present cases will have to be coped with.

Dr. Peter P. Rafferty, the member of the board of managers who is now in charge of the hospital, stated yesterday that of the forty-eight typhoid patients now in the institution, forty-three have passed beyond the danger period.

Dr. Rafferty has inaugurated many reforms. Among them is a change in the dietary of the patients and attendants. Heretofore the meals served to persons in ill-health have been those of laboring men. If it is the province of the physician to change this, Dr. Rafferty did not stop to consult him about it, but went ahead and made the change. The result is that although it will involve an extra expenditure of about \$20,000 a year to the state, the patients are receiving more delicate and seasonable food, and instead of being the table in disgust they are eating with relish.

In conversation with a reporter yesterday several attendants declared that they were perfectly satisfied with the food that is now being furnished them.

It has been difficult for the hospital to keep efficient and competent nurses and attendants because of the meager salaries that have been paid. Saturday there was put in force a general raise which will increase the salaries of all attendants. This will involve an extra expenditure of about \$4,500 a year.

Another improvement recently inaugurated is the placing of screens throughout those parts of the hospital where the typhoid patients are being treated. This is to prevent flies from carrying infection. Today all the faucets from the hydrants will be removed and sterilized.

Owing to the fact that this spring, which was one of the principal sources of water supply for the institution, is to be permanently abandoned, it is likely that a new artesian well will have to be dug.

## FISHING WAS AN ATTRACTION.

There were so many parties out fishing yesterday that the bay and sound were dotted. Nearly all good catches and records are going by the board and the boat men are happy.

Henry Odium took M. A. Edgar and D. McClinton down to the Hook and they caught so many that they lost count. Captain Burbank and party got 40. A party aboard the "Skimmer," Walter Dey, George Montgomery and Harry Bowen, ailed in 74. Muddy's boat with a Metchenby bought in 91.

Joseph Tuttle and a party from Newark were out with Captain Trave Bloodgood, of Morgan's Station, yesterday. They fished off Keyport from the launch Dorothy and caught fifty-seven fish, most of them bluefish. Among the lot were three very large fluke. Some of the weakfish caught weighed three pounds.

Robert Basch, of Newark, and Charley Williams went out with Captain Harry Bloodgood and E. R. Brown, of South Amboy, Saturday night and anchored off the mouth of Chesapeake Creek. They fished three hours and caught twenty-six bluefish and fourteen weakfish.

Frank Colwell, of Newark, was one of the early arrivals at the Sewaren red buoy yesterday, and was rewarded for getting out before the rush by catching six bluefish and nine weakfish. He also caught a turtle that weighed twenty-four pounds.

Condition Improving. William Lucas, son of Thomas Lucas, of Fayette street, who fell from a second-story window Saturday morning, is improving as rapidly as can be expected. He was unconscious for several hours Saturday, but afterwards revived.

### PUBLIC OPINION.

Editor EVENING NEWS:—  
The greatest good for the greatest number is the corner stone of our constitution.  
The greatest good for shoe-buyers would be that the sales-people who wait on them should not be over-worked to such an extent that they are unable to take the necessary pains to please them.  
Of those, who handle shoes, then shoe-buyers are certainly the greatest number.  
Outside of the shoe-buyers, we have the sales-people and the storekeepers. Manifestly the storekeepers are but a small minority.  
Now, when of these storekeepers only one short-sighted, selfish, individual impedes the early closing movement, it is simply outrageous.  
Well, what are you going to do about it?  
The shoe-buyers have it all in their own hands. They hold the key to the situation. Let not one of them enter that man's store after 6 p. m., or better still, let no shoe-buyer enter his store at all, and he will soon fall into line.  
I am in favor of closing every evening except Saturday at 6 p. m.  
Yours respectfully,  
E. C. RICHMOND.

The man who should rent that property of yours might not happen to be within a mile of it during the whole time that your placard struggles to attract him—unless a classified ad. BRINGS HIM THERE!

### Beautiful Furniture

Is there any other subject in the bright lexicon of the young and artistic housekeeper that arouses such delightful anticipations as the looking forward to the coming into her home of BEAUTIFUL FURNITURE?  
How she delights in going through a great furniture store and in painting the mental pictures of how that parlor suite, that sideboard, that cheval glass, would look if placed in her room at home.  
No danger about the American Home while such ambitions rule.  
How these anticipations are aroused, and the delight of them doubled, when the Wanamaker August Furniture movement enables the housekeeper to get A THIRD TO A HALF MORE in fine furniture than the money would ordinarily buy.  
The keen gratification over well-directed THRIFT is another intense pleasure to both housekeeper and bread-winner.  
This tremendous August Furniture Business done here at Wanamaker's is the result of providing a VAST PUBLIC BENEFIT. The event is one that is looked forward to by thousands of careful housekeepers. The expectant bride can come and invest the capital of the new home-makers—and get a third to a half more than could be gotten if she waited until after the ceremony some weeks later. And we'll keep the furniture until she is ready for it.  
Come and see how fine the furniture is.  
Depend on it that every piece is splendidly constructed.

For instance, \$45 Golden Oak Sideboards at \$35, or a handsome \$140 mahogany sideboard at \$100.  
There are complete Dining Room Suites at similar reduction, also China Cabinets, Extension Tables and Buffets. Perhaps the most remarkable collection of all is the Parlor Furniture and the handsome Library Furniture which makes such a wonderful exhibition at this time.
