

ABLE TO DO HER WORK

After Long Suffering Mrs. Siefert Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Pottsville, Pa.—"I suffered with female trouble for four or five years and was very irregular. I was not fit to do my work at times and took medicine from a doctor and got no benefit. I saw Lydia E. Pinkham's Vegetable Compound advertised in the newspapers and took it and got all right. I gained twenty pounds or more and am now able to do my work. I recommend the Vegetable Compound to my friends and you may use these facts as a testimonial."—Mrs. SALLIE SIEFERT, 313 W. Fourth Street, Pottsville, Pa.

The everyday life of many housewives is a continual struggle with weakness and pain. There is nothing more wearing than the ceaseless round of household duties and they become doubly hard when some female trouble makes every bone and muscle ache, and nerves all on edge.

If you are one of these women do not suffer for four or five years as Mrs. Siefert did, but profit by her experience and be restored to health by Lydia E. Pinkham's Vegetable Compound.

TIMES HADN'T CHANGED MUCH

At Least Young Lady Could See a Similarity Between Biblical Times and Our Own.

The unsophisticated young clergyman essayed to break the embarrassing silence that had fallen between his fair partner and himself. "Er—have you ever noticed," he began, "how opposed to modern ideas of politeness is the wording of the Tenth Commandment? I mean the part which says 'And thy manservant and thy maidservant, and the stranger within thy gates.' The guest, you notice, comes after the maidservant."

He waited hopefully for the reply which should open up further conversation between them.

The fair one was slightly bored. Her answer came in a perfectly modulated voice, "No, I had not noticed it until you spoke, but it is as true today as it was then. He usually is after the maidservant."

An even longer and more embarrassing silence followed.—Houston Post.

Soap Suds.

He said—"Let me hold your palm-olive?"
She said—"Not on your lifebuoy."

Do you know why it's toasted?
To seal in the delicious Burley flavor
It's toasted.

THREATEN CROPS IN MANY STATES

Vigorous Measures Against Attack of Chinch Bugs Are Urged by Federal Bureau.

MISSOURI REPORTS OUTBREAK

Severe Infestations in Central Mississippi Valley Region From Texas Northeast to Illinois and Michigan.

(Prepared by the United States Department of Agriculture.)

Energetic measures against the chinch bugs which threaten injury not only to the wheat and rye crops of Missouri but to corn as well are urged by the bureau of entomology, United States Department of Agriculture, in view of reports of an impending outbreak of the pest in that state. Widespread and severe infestations of the pest are reported in the whole central Mississippi valley region, starting in northern Texas and extending in a northeasterly direction over Oklahoma, Kansas and Missouri, touching Nebraska, and extending across Illinois and Indiana into Michigan.

Generally Distributed Through State.

The chinch bugs, latest advices say, have had a mild winter and are generally distributed throughout the Missouri wheat and rye fields, breeding in considerable numbers in the St. Louis neighborhood early in May. The farmers, it is said, have been watching the pest more closely than usual this spring, but all of them do not know yet that there is danger that their corn may be damaged worse than normal last year. Wheat is likely to ripen one or two weeks earlier this year, and the rains have delayed the planting of corn.

The bugs are certain to migrate when the wheat ripens and the corn will be so backward that damage by the bugs is likely to be very severe. It is well to expect the bugs to begin migrating to corn as soon as the wheat butts begin to harden into maturity ten days before the heads are ripe. Any barrier work or creosote repellent line work should begin as the bugs will migrate in increasing numbers as the wheat stalk ripens upward. The binder will shake loose those not already out and stragglers will continue to migrate in serious numbers for five

Healthy Field of Wheat.

to fifteen days after harvest. Barriers, therefore, must be maintained from the time of migration until possibly two or three weeks have elapsed. Sow a Trap Crop.

It will be found of much value to sow two drill widths of millet between corn and the nearby fields of wheat

TOWNSHIP HAS PUREBREDS ONLY

Ohio Township Is 100 Per Cent on Right Side—No Grade or Scrub Sires to Be Found.

The township of Jackson, in Hardin county, Ohio, is entirely free from grade and scrub sires. In notifying the United States Department of Agriculture of this fact, Prof. John W. Wulchet of the Ohio agricultural extension service, adds: "This is the first township which has come to our attention that we feel satisfied is 100 per cent on the right side. No sire was considered purebred unless it could be proved that its sire and dam were registered."

The survey of sires included the principal classes of live stock, except poultry, and was made for advance credit by a student in the college of agriculture. The survey showed that the township included 165 farms, on which were 21 purebred boars, 26 purebred rams, 6 purebred beef bulls, 3 purebred dairy bulls, and 2 purebred stallions. No grade or scrub sires of any kind were found in the township.

and rye. The more quickly this is done the better, so as to make as good growth as possible of this trap crop before the bugs attack it. When the bugs have migrated into the trap crop it should be plowed seven or more inches deep. Cere must be taken to plow deeply and well, then to pack the ground with a drag or harrow or roller. Little time or work is required to make this strip and the cost is small. It has hitherto been found very profitable.

DEMONSTRATE SOUND FARMING PRACTICES

Excellent Work Done by Pennsylvania Pig-Club Members.

Boys and Girls Prove That Good Hogs Properly Fed and Cared For Do Better Than Common Stock With Ordinary Care.

(Prepared by the United States Department of Agriculture.)

That boys and girls can demonstrate the best farm practices in their respective communities is shown conclusively by reports of the work done by Pennsylvania club members

Pig-Club Members Exhibiting Their Prize Pigs at State Fair.

In 1920. Statistics of pig-club members may be taken as an example. It is estimated by men who know something about the swine industry in this state that the average daily gain of all hogs in the state—good, bad, and indifferent—is about one-half pound per day. How do you think the club records compare with that? Guess before you read on.

Club members in the pig-feeding club (producing pork) made their pigs gain 1.19 pounds, while those raising gilts to breed put 1.12 pounds per day on their pigs. That was a good demonstration that good pigs, properly fed and cared for, will do much better than common stock with ordinary care. It pays, too, for the better results can be obtained on the same amount of feed.

Robert Webster of the Huntersville Pig-Feeding club, Lycoming county, is the state pig-club champion as far as gain per day is concerned. Robert fed a purebred Poland China pig, which gained 2.43 pounds per day. That pig surely did make a hog out of himself, didn't he?

WATER OF MUCH IMPORTANCE

Big Factor in Development of Poultry on Free Range—Adequate Supply Needed.

The watering of the free range poultry is an important factor in their development. Allowing birds to be without water for a few hours on a hot summer day will seriously injure them and retard growth. The water supply must be adequate.

Alfalfa Cut at Bud Stage.

Alfalfa hay cut at the bud stage of growth has superior feeding value to alfalfa hay cut at other stages of growth, according to two years' experiments performed at the Kansas station.

Making Alfalfa Hay.

The best cured alfalfa hay is that which is green, free from weathering, and with all of the leaves retained. To reach this goal, some growers used to recommend cocking and capping.

Keeping the Cream Sweet.

A cooling tank in which the farm output of cream and milk may be kept should be a part of the equipment of every farm.

Increase of Production.

Our greatest increase of food production in the future must come from increasing our acre yields. That's where profit lies also.

Disposing of Sewage.

The septic tank is the best way to dispose of farm sewage.

Might Be Ericsson's Ship.

A traveler in Norway has been looking at the two ancient ships in one of which Lief Ericsson may have reached the western world five centuries before Columbus.

The ancient pagan custom that buried the craft of the sea hero preserved the galleys away in the soil of Norway, thanks to a covering of potter's clay, and a Twentieth-century farmer discovered the second one. The savants looked it over, and dated it from the Ninth century, contemporary with the adventurous Ericsson, possibly his own ship.

About seventy feet long, the vessel is shaped not unlike a double pointed rowboat—flat and low, with forked uprights for 15 pairs of oars, and the conventional dragon carved on bow and stern.

Under the floor are the compartments where the voyagers doubtless stored their provisions.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

Dire Threat.

Two powerful negro stevedores, who had had some sort of falling out, were engaged in unloading a vessel at a St. Louis dock. Uncomplimentary remarks and warnings of intended violence were exchanged whenever the two passed each other with their trucks.

"You jest keep on pestificatin' around wid me," declared one of the men, "an' you is gwine be able to settle a mighty big question for de scientific folks!"

"What question dat?" asked the other.

"Kin de dead speak!"—Harper's Magazine.

Don't Forget Cuticura Talcum

When adding to your toilet requisites. An exquisitely scented face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum). 25c each everywhere.

A Belligerent Race.

"I can sympathize with Lloyd George," remarked Mr. Dubwaite.

"Why, he has the Irish problem on his hands."

"That's why I can sympathize with him. Mrs. Dubwaite and I have an Irish problem on our hands. Her name is Norah and she's supposed to be something around a gas range."—Birmingham Age-Herald.

Got Skin Disease?

Purify Your Blood

A great part of the maddening and mortifying skin troubles that plague humanity are due solely to disorders of the blood. Relief from these can be had only by removing from your blood stream the impurities that cause the itching.

For this you must take an internal blood remedy. Outside applications have no effect on the cause of the torture. Their relief is shortlived. You must

get right after the blood itself. S.S.S., the famous old herb remedy, has helped enrich the blood of thousands, and relieved their itching skin torture, during the last fifty years.

Get S.S.S. from your druggist today, and after starting with it write us a history of your case, addressing Chief Medical Advisor, 837 Swift Laboratory, Atlanta, Georgia.

MALARIA CURED IN 7 DAYS

If This Remedy Fails--You Get Your Money Back

The Greatest Discovery of All Time!

ANTIPLASMA

USED SUCCESSFULLY BY DOCTORS, DRUGGISTS, MILL-OWNERS AND THE GENERAL PUBLIC. Recommended For Both Children & Adults In Capsules Absolutely Tasteless

MONEY BACK IN EVERY CASE WHERE ANTIPLASMA FAILS TO CURE

ANTIPLASMA Discovered During Boer War in Africa

—through the wonderful research work of Dr. J. J. Rudolph and Kruger, the latter Chief Medical Officer of the Boer Army. Its employment resulted in not a single death in the Boer Army from Malarial infection as compared to a mortality rate among the English soldiers that greatly exceeded the number of killed and wounded.

Contains No Alcohol, Narcotics, Quinine, Arsenic, Mercury or Habit-Forming Drugs! Absolutely Tasteless

If Your Druggist Doesn't Sell It, Mail

—\$2.00 to the Viro Medical Co., 200 West Houston St., New York, N. Y., and one bottle containing complete seven day cure will be sent you immediately postpaid. Antiplasma is Malaria Insurance at a Cost of \$2.00 Per Year

KILL RATS TODAY

By Using the Genuine

STEARNS' ELECTRIC PASTE

The guaranteed "killer" for Rats, Mice, Cockroaches, Ants and Waterbugs—the greatest known carriers of disease. They destroy both food and property. Stearns' Electric Paste forces these pests to run from the building for water and fresh air.

READY FOR USE—BETTER THAN TRAPS

Directions in 15 languages in every box. Two sizes, 25c and \$1.00. Enough to kill 50 to 400 rats. U. S. Government buys it.

MAN'S BEST AGE

A man is as old as his organs; he can be as vigorous and healthy at 70 as at 35 if he aids his organs in performing their functions. Keep your vital organs healthy with

GOLD MEDAL HARLEM OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles since 1696; corrects disorders; stimulates vital organs. All druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation

Clear Your Complexion with This Old Reliable Remedy—

HANCOCK SULPHUR COMPOUND

For pimples, black-heads, freckles, blotches, and tan, as well as for more serious face, scalp and body eruptions, hives, eczema, etc., use this scientific compound of sulphur. As a lotion, it soothes and heals; taken internally—a few drops in a glass of water—it gets at the root of the trouble and purifies the blood. Physicians agree that sulphur is one of the most effective blood purifiers known. Remember, a good complexion isn't skin deep—it's health deep.

Be sure to ask for HANCOCK SULPHUR COMPOUND. It has been used with satisfactory results for over 25 years.

60c and \$1.00 the bottle

at your druggist's. If he can't supply you, send his name and the price in stamps and we will send you a bottle direct.

HANCOCK LIQUID SULPHUR COMPANY
Baltimore, Md.

Hancock Sulphur Compound Ointment—25c and 50c—for use with the Liquid Compound.
