Fishermen, Rejoice!

Lake Lenape, onetime the abode of the wily trout, where, on clear cold mornings of early spring, the local anglers were wont to steal along the margin on light foot, tempting the glistening beauties with fly and grub, has just been re-stocked by the State Board of Fisheries with brown trout.

The lake is known to be heavily inhabited with pike, and fishermen will await with interest the outcome of this experiment as to whether or not the brown trout will survive the attacks of the predatory pike. According to late report, the pike are eager to be caught and anglers visiting this land locked lake may be sure of real sport this spring.

How your table and bed linens are ironed

This is the Flat Work Ironer on which your table and bed linens are so beautifully smoothed.

It consists of a series of revolving, softly padded rolls which gently press your sheets, table cloths, napkins, and handkerchiefs against a smooth, steam heated ironing surface.

First three girls shake out the wrinkles. Then they carefully place one end of the sheet between the first of the rolls, and as it passes through the ironer it is given that dainty, snowy sheen which every woman prizes.

At the other end of the machine three girls receive the sheet or table cloth, fold it evenly, and place it in a neat pile. When all of your flat pieces have been ironed they are then turned over to another young woman who carefully wraps them in a package with the rest of your washing, ready for delivery to you.

Try this more modern way of having your washing and ironing done. You will find it both satisfactory and economical.

a, b, c

Do you know the ice-cream A, B, C's? Here they are:

A is pure cream. B is granulated sugar. C is a true fruit.

Mix the three and you have rich, delicious ice-cream.

Many others who make ice-cream go on to D (gelatine), E (fillers), F (extracts), G (powders), and so on. But I stop at C.

I have always made Breyers Ice-Cream as simply as A, B, C. And people of seven states have acclaimed it simply perfect.

Henry H. Bryson

562 tons of strawberries a year go into Breyers Old-Fashioned Strawberry Ice-Cream.

Large, luscious, sun-ripened berries they are, and red through and through. No other kind is allowed to enter Breyers Ice-Cream.

Today's Flavors

"Breyers is real. Breyers is true. Breyers is honest. That's why it goes well in my store," affirms P. J. Sheeran, Breyer Dealer, at 2 South Massachusetts Ave. "I would be doing an injustice to my customers if I served any less dependable ice-cream."
