ATTENDS CONVENTION

Rev. Davis to Represent Church at Camden Meet.

Mr. Zion Baptist Church in its attempt to become a real organized and stabilized church is reaching out to district and state bodies. The officers have realized that if the church must carry on its true missionary purpose it must become a link in the great Baptist chain of the world.

Rev. Davis, pastor of the church, has been delegated to attend and represent the church in the Bethany Baptist Association, which convenes in Camden this week. This is the first step in the representation of the Baptist alliance. Rev. Mr. Davis will remain throughout the entire session.

LAYMAN TO APPEAR

Ocean City Man Will Give Program Tomorrow Night.

Mr. O'Farrell, of Ocean City will appear at Mt. Zion Baptist Church tomorrow night at 8:30 o'clock. Mr. O'Farrell is a prominent layman of the M. E. This is Mr. O'Farrell's second visit to Mt. Zion during the season and judging from his last program it is a certainty that the program will be enjoyable. There will be no admission fee.

Dairymen commonly feed skim milk to their calves until about six months of age. The time of weaning usually depends upon the condition of the calf and the availability and cost of milk. When milk is fed in abundance it furnishes the greater part of the protein necessary for the growth of the calf. It the feeding of milk is discontinued the necessary protein must be supplied by some other feed. Probably this can be done most economically by some legume, such as alfalfa, clover, soy bean, or sorghum hay. When hay of this sort is not available it is necessary that the grain mixture fed should be high in protein. During summer, when good pasture is available, the heifer needs no supplementary feed, providing she is growing normally. A little hay and grain are sometimes advisable late in the season when the pastures are dry or short to insure steady growth.

Kasha and Velvet

A short velvet jacket scalloped in front and lined with kasha is worn here in ensemble with a one-piece frock of natural kasha.

Politicians are so busy relieving the farmers that they have thus far had no time to select a good candidate for the Presidency.

OIL WELL TO FINANCE CHURCH

The congregation of this church, in Oxford, Kan., has high hopes that its mortgages will be a thing of the past when the oil well now being drilled on church property at the rear of the edifice comes in. The location is in the heart of the new Kansas oil fields. A proviso in the lease insists that drilling cease while services are in progress.

A genius is all right except to live with. Good statesmen are never born, and seldom made.
