PUT YOUTH ON HIS GUARD

Evidently Recital of Romances Long Passed Made No Appeal to His Feelings.

"Charles," said a sharp-voiced woman to her husband in a railway carriage "do you know that you and I once had a romance in a railway carriage?"

"Never heard of it," replied Charles in a subdued tone.

"I thought you hadn't; but don't you remember, it was that pair of slippers I presented to you the Christmas before we were married that led to our union? You remember how nicely they fitted, don't you? Well, Charles, one day when we were going to a picnic you had your feet upon a seat, and when you were not looking I took your measure. But for that pair of slippers I don't believe we'd have ever been married."

A young unmarried man sitting by immediately took down his feet from the seat.—Ideas Magazine.

Truly Wonderful Cat.

A wonderful cat is that owned by Mr. A. J. Gorrings, a tradesman of Ditching, England. Mr. Gorrings has a bantam which lays her eggs in different parts of the yard, but his cat never fails to find them. She takes the egg between her teeth, places it on the step, and rattles the door handle with her paws until her mistress arrives to take in the egg. Not one of the eggs has yet been broken.

TO LAUNDRY BLACK CLOTHES

Wash in Hot, Clean Soapsuds and Rinse in the Ordinary Way.

This is a problem which confronted me a few months ago, on going into mourning for a loved one. It is absolutely necessary to wear clothes that can be laundered if one keeps nice and fresh. This plan can be used for black lawn shirtwaists and corset covers, and sateen or any black under-skirt except silk.

First, black clothes must never be washed in water that has been used for either washing or rinsing white things, as there is always fine lint in this water that sticks to the black, and no amount of rinsing will get it off. Wash in hot, clean soapsuds, and rinse in the ordinary way. To starch take a cupful of white cornmeal, place in a frying pan and set next the fire on the range. Burn this until it is black, pour in boiling water, stirring all the while. Then strain, and you have a splendid starch. Iron on the wrong side and your shirtwaists will be beautifully sweet and fresh.—Harper's Bazar.

NEW BROILER IS INVENTED

Can Be Used on Any Stove and Saves Savory Juices That Exude From Meat.

A new kind of broiler that can be used on any stove, but is intended primarily for use on a gas stove, has been invented by a Virginia man. Another feature, or rather, the feature of the utensil, is that all the savory juice that exudes from the meat and would otherwise drop into the fire is

saved. The broiler proper—the wire frame that holds the meat—is suspended from the apex of a casing that runs to a point at the top and has a front side that lets down on hinges. The broiler frame hangs perpendicularly and as the meat is cooked the essence drips into a trough below and runs out of a little spout on the side and into a cup that is fixed to the side of the casing. This can be utilized as a blood gravy, as it is very rich in flavor, or it can be converted to brown gravy by adding a little flour.

Jam Roly Poly.

Chop three tablespoonfuls of beef suet fine, add half a pound of sifted flour and a pinch of salt; mix with cold water to make a stiff dough. Cut it in with a knife; do not touch with the hands. Roll out an inch thick on a well floured bread board; spread with currant jam to within an inch of the edge; wet the edges, roll up the strip, press the edges together and roll up in a well floured cloth and steam two hours and a half.

Cabbage With Rice.

Boil a head of cabbage until tender, drain and cut out the heart and center, fill in the opening with a cup of hot boiled rice that has been highly seasoned with pepper, salt and butter, and pour over all a cream sauce. This makes an excellent cold weather dish when the meat course is light.

Spring Debility

Felt by so many upon the return of warm weather is due to the impure, impoverished, devitalized condition of the blood which causes that tired feeling and loss of appetite as well as the pimples, boils and other eruptions so common at this season.

It is cured by the great constitutional remedy

Hood's Sarsaparilla

which effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than twenty different ingredients. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

His Hope.

"I suppose," the beautiful girl said, "you write for the mere love of writing?"

"Yes," the sad looking poet replied, "but I still hope to some day be able to write for at least fifteen cents a line."—Judge.
