The Meeting at Otis.

The farmers of the Pecos Valley met with the Farmer's Protective Association at the Otis school house last Saturday evening to consider the contract for raising sugar beets, recently offered by the beet sugar company. The meeting was called to order by the president of the Association, Mr. H. St. John Murene, Mr. Seward filling his accustomed place as secretary. The minutes of previous meeting were dispensed with and the farmers at once got down to business. On motion the question of raising beets was taken up and discussed pro and con for about an hour by delegates from Malaga, Florence, Francis, Hagerman and the members of the association at Otis. Malaga was represented by C. H. Dishman and Mr. Moon. Francis by R Robertson, Florence by Capt. Smith and Hagerman by Mr. Bowen. The Otis people were out in force while Eddy was represented by E. O. Faulkner, A. S. Goetz, A. A. Driggs, W. G Hamilton, and others. The agricultural superintendent H. C. Nisbet was also in attendance. After considerable discussion on the subject of raising beets and the contract for 1897 the meeting decided not to allyise the planting of beets under the contracts as presented and then called on Mr. Goetz. Mr. Goetz read the contracts of the other six beet sugar factories of the United States and offered in lieu of the contract proposed a copies from any of the others. This the meeting refused to accept and on motion of Russel Robertson "that we do not accept the new contract but instead the one of last year" voted yes. Mr. Faulkner made an appeal that the farmers and the Beet Sugar Co. get together. He was followed by Mr. Nisbet and Mr. Bowen of Hagerman both of whom advised that some kind of a proposition between the new contract and the contract of last year be made. On motion a committee from each district was appointed to confer with Mr. Goetz of the Beet Sugar Co. The committee consisted of Mr. W. R Wilson Otis, W. E. Bowen, of Hagerman, C. H. Dishman of Malaga, Mr. Moon of Florence. The committee obtained concessions from Mr. Goetz, he agreeing to give the farmers $1.00 per ton on box cars at the different stations for beets and to pay freight on beets and also on tare to the amount of fifteen per cent, the grower to pay freight on tare over fifteen per cent, all tare to be calculated at depot where beets are loaded so any number of farmers can load beets on same car. Then if a beet crop should require replanting after the farmer had planted according to directions Mr. Goetz agreed to furnish seed free. On motion that the farmers accept Mr. Goetz' offer and do plant beets the meeting voted almost a unanimous, yes. The meeting was of immense benefit because the farmers learned the difficulties of the company and the company officials became better informed regarding the farmer thus bringing all closer together. Before adjourning the meeting decided to organize a farmers union for the Pecos valley. This move was seconded by Mr Goetz who stated he would be pleased to deal with the representatives of the farmers, but while willing to please all it was impossible to see each individual to adjust grievances between the company and the beet growers.

In range of elocution Mr. Gray does exceptionally well as shown when he was reading the parts of the ladies, Portia and Nerissa. The reading occupied over an hour and was highly applauded at the close. Mr. Gray was invited to entertain the club at some future day.

THE FUNDING BILL.

Santa Fe N. M. March 8th. 1897. —Representative Bateman's house bill No. 67 for the purpose of funding the existing indebtedness of counties boards of education municipal incorporations and school districts will pass the house this afternoon.

Section one provides that after the passage of the act it shall be the duty of the board of county commissioners of the several counties of the Territory, and of the board of education in all municipalities in the Territory, the proper officers and representatives of municipal corporations of all kinds whatsoever and of the school directors of the several school districts in the different counties in the Territory, to ascertain and determine the amount of indebtedness other than bonded indebtedness of the several counties, boards of education, municipal corporations and school districts that may be existing, outstanding and unpaid however evidenced.

Under the present status of the Borrego case at Santa Fe nothing remains but to carry out the sentence of the courts by hanging the four men who stand regularly convicted of having participated in the assassination of ex-Sheriff Frank Chavez May 29th 1892. This tragic event will take place in the capital city March 22rd at the expiration of the thirty days respite granted by President Cleveland and Governor Thornton unless in the meantime President McKinley shall remove Governor Thornton and appoint a governor who shall commute the sentence or pardon the assassins.

The bill providing for the consolidation of the territorial laws passed the house Tuesday by a vote of 15 to 9. By the provisions of the act $16,000.00 is appropriated for his purpose which the taxpayers of the territory must pay. There is no doubt but that the laws ought to be compiled and papished but it does not follow that the tax-payers should pay a small fortune to a few politicians for that purpose. The bill provides that the governor Thornton Tom Fridel and Albert B. Fall shall receive a compensation of $900, each for their services as members of the commission the publisher is to get a nice layout as provided by law a few lesser lights are to receive a handsome per diem for their services and there is a whole lot of unwritten work to be read between the lines. The bill is a grand steal. Deming Headlight

NO JINGOISM.

The Rev. Father Thomas Ewing Sherman and Father H. M Finegan left last week for Chicago after a visit of one week in Denver. The reverend gentlemen have been on a missionary tour of the West having visited various cities of this state and New Mexico. Hon. John Sherman, who will be the new secretary of state, is fond of his ecclesiastical relatives and sometimes confers with him regularly, but still does not divulge any of his plans for the future policy of his department.

"I really do not know what my uncle intends to do in regard to any of the international affairs that will confront him on entering upon his new duties, said Father Sherman yesterday, as we never discuss politics in our letters, although I consider myself a good Republican. I do know however, that the policy of the new administration will be of a very conciliatory nature in regard to the Cuban question and I do not anticipate any Jingoism from Gov. McKinley at all. On the question of politics, however, I do not profess to know anything and have not for the last eighteen years.
