

THE DEMING GRAPHIC

ISSUED EVERY WEDNESDAY - - - TWO DOLLARS PER ANNUM

N. S. ROSE, EDITOR AND PROPRIETOR

WE SEE BY THE exchanges that the New Mexican got out a very fine special issue on the day the president was in Santa Fe. As the New Mexican does not exchange with us we have not seen this number, but we have no doubt of its quality as they have the facilities for doing as good work as can be done in the territory.

FRIDAY AND SATURDAY of this week two large delegations of business men from the state of Missouri, one from St. Louis and one from Kansas City, will be in our town to look after business interests. It should be a matter of interest to all our people to do everything in their power to show these people the advantages and progressiveness of our town.

MANY COMMENTS HAVE been made on our serial story which began last week and several old timers said it reminded them of days gone by. While this part of the story is interesting to all, the part which is yet to come will also prove valuable as it will tell the people away from here what our place is like and what they can expect if they come here to locate. It will pay to send copies of these papers to your friends in the east.

STOCK SHIPPING HAS commenced in earnest and the railroads are rushed to their full capacity taking the cattle of this region to market. Never have the ranges been in better condition in the spring than this year, or the cattle in better condition for the market, and this is a guarantee of good times for the cattlemen, which in turn brings prosperity to other lines. This, in connection with the many business interests which are coming to our town, assures us the best season Deming ever experienced.

THE PRESIDENT'S visit to New Mexico is past. He was royally entertained at the capital and at the metropolis of the territory. The daily and weekly papers have been filled with accounts of his visits and his remarks at those places. Comments and comparisons have been made, some favorable and some not so favorable, but taken altogether they show it is as a man and not as a politician that he excels. The one feature of Theodore Roosevelt is that he does not ask any one else what he thinks, and, after all, what we want in a president is a man and not a politician. Surely this western trip should strengthen his chance in the next election, regardless of the fact that he did not help in the statehood fight.

ONE OF THE MOST hopeful signs in New Mexico is the interest our people are taking in advertising her advantages. The people seem to have awakened from their sleep and shaken off the manana spirit and now are telling the world that this glorious sunshiny territory exists. It was this that built up the state of Colorado, and the great northwest owes its marvelous growth to the enterprise of its citizens and the advertising that has been done. For years the United States has been filled with advertising matter from Idaho, Oregon, Washington and Montana, and as a result these states have been filled with enterprising people with money to develop their resources. The result would be the same if our citizens should do likewise. No letter ought to go east from this territory without an ad of some kind for the place it goes from.

OUR OLD CITIZEN John F. Allard brought an interesting specimen from El Paso last week, which, while not rare in the Pass City, is worth considering by people looking for a location. The old water works system of that place is being taken up and enlarged and the specimen mentioned is a section of the scale formed on the inside of the 6-inch pipe. So thick had this deposit become in 12 years that the passage for water was reduced to less than two inches. What must the effect of water that will do that to an iron pipe be on the people who drink? If the people realized the effect of impure water as they should it would be one of the greatest factors in deciding their choice of a home, as the health of the family is above all other considerations. The water of Deming is noted for its purity and is as soft and pleasant to use as rain water, which is one of the greatest attractions our town offers to health seekers.

A MEETING OF DOCTORS from all parts of the United States is to be held at St. Louis in July for the purpose of discussing methods of treating the dread disease of consumption. So alarming has the spread of this disease become in the great east that the people are having to make every effort to discover a means of fighting it successfully, and to this the medical men of the country are bending every energy. At this meeting every part of the west will be represented and the advantages of our clear, pure air fully discussed; doubtless, plans for sanitariums and such arrangements will be talked of and the merits and demerits of various localities considered, and perhaps plans and arrangements made for important works of this kind. Deming should be represented at that meeting by at least one good, live able man who can explain our advantages and work for our interests if anything of this kind comes up. Our people should consider this matter and arrange for sending one of our doctors to St. Louis for that purpose. It is not too soon to begin now.

CONTEST NOTICE.
Department of the Interior, United States land office, Las Cruces, N. M., March 24, 1903.
A sufficient contest affidavit having been filed in this office by Susan F. Faulkner, contestant, against homestead entry No. 2052, made October 13, 1901, for n/2 sec. 17, w/2 sec. 21, tp. 25 s. r. 11 w. by Wilson E. Davis, contestee, in which it is alleged that said Davis has wholly abandoned said land, that he changed his residence therefrom for more than six months since making said entry that said tract is not settled upon and cultivated by said Davis as required by law, said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m., on May 1, 1903, before probate clerk of Luna county, N. M., at Deming, N. M., and that final hearing will be held at 10 o'clock a. m., on May 15, 1903, before register and receiver at the United States land office in Las Cruces, N. M.
The said contestant having, in a proper affidavit filed March 24, 1903, set forth facts which show that after due diligence, personal service of this notice cannot be made, it is hereby ordered and directed that such notice be given by due and proper publication.
