GERMAN ATTACK ON 20-MILE FRONT

STRONG RESISTANCE BY AMERICANS AND FRENCH CHECK ENEMY ON TWO WINGS.

AMERICAN SHIP SUNK

CAPTAIN AND SIXTEEN OF CREW ARE MISSING—CHIEF MATE AND FIFTEEN LANDED.

Western Newspaper Union News Service.

With the American Army in France, June 10.—Attacks by the Germans in the Marne sector have again been repulsed by the Americans, who inflicted heavy losses on the enemy. The French repulsed two attacks against Hill 204, west of Chateau Thierry, the first at 10 o'clock Saturday night, and the second at 3 o'clock Sunday morning. French troops captured a wood south of Buziars. A new German division, the Fifth Grenadier Guards, was identified by the Americans.

Washington, June 10.—The American steamer Pinar del Rio was sunk by a German submarine seventy miles off the coast of Maryland Saturday morning. One of her boats, with the captain and seventeen members of the crew, is missing; another, with Chief Mate Orkes and fifteen men, landed at the Manteo life station on the North Carolina coast, about fifty-five miles below Norfolk, Va. It is announced from Norfolk. A brief dispatch to the Navy Department announcing the sinking did not say whether the ship was shelled or torpedoed. Hope is held that the missing boat has been picked up by some passing vessel or will turn up at some point along the coast. Until last night the raiders had not been reported as showing themselves since the Norwegian steamer Vinland was sunk off the Virginia capes last Wednesday.

The armies of the crown prince of Bavaria are again hitting the allied line in a new offensive, with Paris apparently their objective.

Between Montdidier and Noyon, over a front of about twenty miles, preceded by a heavy bombardment with shells and noxious gases, the enemy's initial maneuver evidently has in view the bending back of the allied front toward the town of St. Just on the northern wing and toward the railroad junction of Compeigne on the southern flank, getting astride the Oise river and driving southwest toward the French capital.

The French troops are resisting the impact with their usual valor, but the Germans on their right and in the center have been able to penetrate the line for distances ranging from two-thirds of a mile south of Montdidier to relatively two and a half miles at Rezonno-Sur-Matz, in the center. Thence to Noyon, however, the allied line is holding strongly.

If success should rest with the enemy on the new battle front it might badly affect the stability of the line of the defenders from the Oise to the Marne and compel a falling back westward from the Oise to the region of the Marne northwest of Chateau Thierry in order to straighten out the deep salient that would then project eastward, with the Soissons sector as its apex.

The allied commanders, it is asserted, were not taken unawares by the new offensive. Comparative quiet prevails in the region of the Marne and on that portion of the line in Flanders held by the British.

VIEW OF SOLAR ECLIPSE.

Shut from View by Clouds at Denver, But Observed at Baker, Ore.

Denver.—Heavy clouds which spread across the sky in deep fold brought disappointment to thousands in Denver who were anticipating observing the total eclipse of the sun June 8, and particularly to the scientists and savants who had unlimbered their telescopes in Chamberlain observatory at Denver University.

Baker, Ore.—Untimely twilight, fast followed by a deeper darkness, swept over a strip of the Northwest fifty miles wide when the solar eclipse, foretold by men who have reduced the movements of astral bodies to an exact science, came to pass.

The expected results of plunging the world into darkness as of night were observed. Birds sought their nests and chickens went to roost. A gloom as deep as that at 10 o'clock at night enveloped the favored strip of country at the moment of totality. Electric lights were turned on indoors and street cars and automobiles had their headlights burning.

He took no notice of her refusal to give coppers, but continued to worry her until a small dog appeared, barking loudly. The lady seized its collar and held it, calling out: "You had better go; it may bite."

"You ain't got no right to keep a savage dog," replied the tramp, outraged in all his most sacred feelings.

"Perhaps I have not," she answered coolly. "If you think so I won't keep him. I'll let him go."
