

A FILTER INSIDE YOU

HOW YOUR BLOOD IS KEPT PURE.

Health Comes From Pure Blood. Pure Blood Depends on Your Filter Inside You.

Your Kidneys Keep Your Blood Pure If They Are Well. A Few Facts About Them and How to Make Them Well When They Are Sick.

Your blood is what nourishes your body.

New blood is made every minute. It goes to the lungs, gets fresh air, and then passes through the body. In passing, it deposits new flesh, fat, bones, etc., and takes up worn out matter.

This worn out matter goes to the kidneys. The kidneys filter it out of the blood and throw it out of the body.

That is, when they are well, they do. When your kidneys are well, they act, as perfect filters, to keep your blood pure. When they are sick, they act imperfectly. They leave the bad matter in. Sometimes they take out the good.

There is nothing more poisonous than bad blood.

A proof of this is rheumatism. It is simply a blood-poisoning caused by the bad matter left in the blood by sick kidneys.

Bright's disease is the kidneys working the other way—taking the good food out of the blood.

Both kinds of kidney sickness are dangerous.

Both can be cured by Dr. Hobb's Sparagus Kidney Pills.

One of the most wonderful facts of our body is this natural filter inside us. Our kidneys are very important organs. We don't take enough care of them. We are sick oftener than there is any need for. It is simply because we take no heed to our kidneys.

Sick kidneys show their effects in many different diseases.

Rheumatism and Bright's disease are very common. Anaemia, Neuralgia, Pain in the Back, Dizziness, Bladder Troubles, Gravel, Diabetes, Sleeplessness, Nervousness.

These are only a few symptoms, or so-called "diseases." Back of them all are the sick kidneys.

Once the filters can be made to work, all these symptoms will disappear.

Dr. Hobb's Sparagus Kidney Pills are made principally from the roots of the asparagus plant, which has a special curative action on the kidneys. It gives them new life and strength. It helps them to do their work as it ought to be done. It cures their sickness. It cleans and renews the filter.

When the kidneys are well you will feel a great difference at once. Your complexion will clear, and your whole body will be renewed life and freshness.

This is the effect of Dr. Hobb's Sparagus Kidney Pills on the sick kidneys, of the re-vitalized kidneys on the impure blood.

With a course of Dr. Hobb's Sparagus Kidney Pills you will get new life. They will cure you when other medicines, which do not reach the real seat of disease, cannot help you.

Dr. Hobb's Sparagus Kidney Pills are for sale by all druggists, price 50c. per box, or will be sent prepaid to any address on receipt of price.

An interesting booklet, explaining about the kidneys and their power for good and evil, sent free on request. Address Hobb's Medicine Co., Chicago, or San Francisco.

A Nut to Crack.

The Bank of France contains \$410,000,000 in gold and \$250,000,000 in silver. When the French paper notes are presented there for redemption, or exchange for coin, the bank pays in either gold or silver, whichever it sees fit, and often in both. Still, this policy does not drive gold out of that country, or send it to a premium. In this country the greenbacks and Sherman notes are redeemable in gold or silver, or both, at the pleasure of the government. Just as French notes are by the Bank of France. Here our "financiers" say that to redeem our paper in silver in accordance with the right of the government and the contract, would send gold to a premium and drive it out of circulation. If it would do it here, why does it not do it in France, where the conditions are what they would be here if we followed our legal rights? Will some gold bug crack this nut?

Long-Buried Beauties.

Excavations at Pompeii have, for many years past, been progressing slowly under the superintendence of the Italian government. Some eighty men are now at work clearing away the debris from the ruins on the side of the town nearest Mount Vesuvius. Quite recently the workmen unearthed a house, not perhaps remarkable for size, but containing objects of great interest and beauty. Eighteen fluted columns supported the roof of the great central hall and all are little the worse for their long repose in dust and ashes. Seven of them are now quite perfect, though it is evident they have been restored to some extent.

The walls are decorated with frescoes similar to those with which all visitors to Pompeii are familiar. Their great charm is their freshness and wonderful richness of color. One little painting of a cock-fight is especially interesting, as giving a hint at the sporting proclivities of the owner. Other pictures, representing fruit, fish and game, are surrounded with festoons of flowers. Fresh as these paintings are, a few months' exposure to the air will probably do them more damage than their centuries of burial.—Exchange.

The average wife may say "I told you so," occasionally, but she is meretricious enough not

JUST LIKE MRS. LOGAN.

SHE TAKES A SHOT AT THE NEW WOMAN.

The Widow of the Famous American General Is Not an Admirer of the End of the Century Girl—Christian Work Needed.

WHAT do I think of the new woman?" said Mrs. John A. Logan to the writer recently. "In the first place, I think the appellation is offensive. We might change Burn's expression to 'a woman is a woman for all that,' which would be literally true. No amount of indulgence—yea, license—should change the inherent nature of woman.

"If by the new woman is meant those either young or old who have laid aside all restraint in indulging in the sports, and I might say dissipation, supposed to be the prerogative of men, not the least of which is cigarette smoking and kindred vices, I am sorry that her day has come. If, on the other hand, is meant the intelligent, cultured, womanly woman who has kept abreast with the progress of the times and has taken advantage of the exceptionally fine op-

portunities afforded American woman to broaden the field of her usefulness and develop her intellectual powers without doing violence to her heart or lessening her love of home and family—I say all hail the new woman.

"At the same time I feel that a word of caution might be given by us who have crossed the half-century line in experience and discipline by the ever-changing condition of life. They should stop and inquire why the eligible young man of to-day does not seek the young woman and contract early marriages as in the days of yore. Our girls are just as beautiful and should be more accomplished because of the superior advantages of education and chances of acquiring accomplishments. Are not the mothers to blame because of the impractical and wrong methods of rearing their daughters, and sons, too, for that matter, especially among the wealthier classes?

"Shrewd, enterprising men work hard amass large fortunes and acquire fame. They look about for a companion with whom to spend their days and share the fruits of their labors. They cannot in a twinkling lay aside the habits of industry and moderation in attendance upon the frivolities of society, not even for the sake of the woman of their choice. Consequently they hesitate about marrying any of the bewitchingly beautiful and purposeless young women they meet because they know their insatiable desire to shine in what we are pleased to call our 'best society.' Hence they not infrequently shock this same society by marrying some worthy young woman who is engaged in the laudible business of earning her living often by pressing the keys of the ignoble typewriter.

"The sons of the wealthy class are for the most part quite as impractical and far more extravagant than their pretty sisters. They are brought up in idleness and farcical attempts at learning a business or profession, but with no idea of following either; expecting with the money they will inherit from their fathers and some rich man's daughter they propose to marry to spend their time yachting, gambling, traveling and living at clubs in this and other countries, eventually dying leaving neither fortune nor fame to the unhappy families they leave behind them.

"Americans do everything with such intensity that any diversion, game or feat is doomed to brief popularity. I passed through the park on the south side of Chicago recently while a bicycle

meet was at its height. I have never seen such a sight before in all my life, or had greater occasion to blush for the modesty of American girls. Some were dressed properly and becomingly, while others appeared in garments they were pleased to call bicycle suits that were simply disgusting to any man or woman with any sense of delicacy or refinement. I think the suggestion of the new woman grates upon the sensibilities of the more refined of her sex because of the abandon that characterizes the manners, dress and conversation of the most pronounced representatives of the so-called new woman. If you will study them closely you will find that the majority of them have spent much time abroad and have acquired many of their most objectionable propensities in European cities, whose society people entertain ideas incompatible with the old-time American propriety.

"I am such an old fogy that I am pained to see exhibitions of abandon either in our own blessed country or across the seas, and shall be glad when the advent of the new woman means the beginning of a new era of highly cultivated Christian wives and mothers who will never lay aside their principles or sense of modesty, no matter in what countries they may travel, but be as tenacious in their observance of what seems proper decorum as their foreign friends are in their observance of their ideas of propriety."

REV. GEO. B. SMYTH. The youth of Foochow were practically ignorant of all the Western sciences. Now Mr. Smyth has under his charge some hundred or more students, well trained, who will be able on reaching

Little Traveler in America. Carl Seemen, 6 years old, passed through Chicago last Monday on his

manhood to take their places among the educated men of the world. Mr. Smyth is a man of rare attainments. His massive face and broad brow express the dignity of his nature, while his smooth-shaven chin indicates an unswerving inflexibility of purpose. Yet, withal he has a most gentle, kindly nature, which endears him to his pupils and makes him the friend of every European resident at the port, whatever his race or creed. He is ably assisted in his work by his estimable wife, Mrs. Alice Harris Smyth.

A Cat Story. May I add to your animal stories a striking instance of that spirit of jealousy which insists on all or none? writes a reader of the London Spectator. I had a cat which had long been an inmate of the house and received all the attentions which it is well known old maids lavish on such animals. Finding the mice were more than one

cat could attend to, I secured a kitten and wished to keep the two. My cat was indignant and in very plain language requested the kitten to go. I endeavored to make peace, lifted both on to the table and expostulated with puss. She listened with a sullen expression and then suddenly gave a claw at the kitten's eye. I scolded and beat her, upon which she left the house and I never saw her again.

way to Monterey, Cal., from Mecklenburg-Sterlitz, Germany. He was alone and could speak no English. He was dressed in blue flannel, carried a neat little cane and wore an up-to-date straw hat. The child was ticketed very much as a case of dry goods would be. On the right arm is sewed a piece of canvas, on which is written his name and destination. He had through tickets to Monterey and \$25 in his purse.
