

ALLIED BIRDMEN CAUSE HAVOC IN RANKS OF BOCHES

Aviators Empty Their Guns and Drop Bombs as Fast as Possible, Inflicting Terrible Losses on Foe.

BY MORNING JOURNAL SPECIAL LEADER WRITER. With the British Army in France, Aug. 24 (by the Associated Press).—Braz is reported to have been captured by the British.

The village of Behagnies, two miles and a half north of Bapaume on the Bapaume-Arras highway, has been reached by the British. British forces are operating east of Bihucourt, within two miles and a half of Bapaume on the west.

British forces are reported to have reached points east of Henin, on the Coquel river, five miles southeast of Arras. They are in the outskirts of St. Leeger, further south, and have captured Etrivillers, two miles east of Courcelles. They are still advancing.

Several thousand German prisoners have passed through the cages behind General Byng's third army today. No effort to count the men captured has been made up to this time.

The British are reported to have captured Becordel and to have reached the high ground southwest of Fricourt. The British have passed well beyond Happy valley.

The town of Miraumont appears to have been surrounded by the British. The British are reported to have reached Biefvillers, one and a quarter miles from Bapaume. Fighting is going on there and in the vicinity of Mory, some distance to the east of the Arras-Bapaume road.

A battle is raging furiously in the vicinity of Bihucourt and Sapignies. The Germans are trying desperately to save Bapaume.

At Bihucourt the boche is desperately trying to hold up the advance of the British by fighting from the ruins of a large sugar factory.

The British are fighting near Mory and are pushing forward east of the Arras-Bapaume road as well as at St. Leeger, just to the rearward.

The area behind the German line is jammed with men and transports while south of Bapaume the Germans seem to be throwing in more troops.

Never before have the entente airplanes had such ground targets. A number of planes are swooping over the roads, emptying their machine guns and cargoes of bombs into the enemy masses, damming the roads with dead and wreckage and causing the greatest confusion.

The allied aviators emptied their guns and dropped their bombs as fast as they could and returned time and again for more ammunition.

The British armies continued smashing through the Germans this morning all along the battle line. Bray-Sur-Somme was reported in British hands after heavy fighting. The British pressed on eastward and are well beyond Happy valley.

No Time to Count Prisoners. Becordel de Court is reported captured and the British are said to have reached the high ground southwest of Fricourt, where the Germans have launched a heavy counter-attack.

The distance between the enemy and Albert is continually widening. The position at Thiepval is uncertain, but La Boisselle and Oevillers have been taken from the Germans. This morning the battle waged furiously in the vicinity of Bihucourt and Sapignies, where the Germans were trying to save Bapaume.

To say nothing of the great number of wounded Germans in the British hospitals, several thousand have passed through the prisoner camps of General Byng's third army alone. There has been no effort and no time to count the number of guns captured.

British airplanes have just dropped a large number of bombs on Thillois, southwest Bapaume, where the enemy had massed troops and much material.

Mrs. Klein Recommends Chamberlain's Linctant. "I keep a bottle of Chamberlain's Linctant in the house at all times, and have used it for years. It will relieve rheumatic pains quicker than anything I ever used. I have also recommended it to my neighbors and friends who have used it successfully," writes Mrs. N. M. Klein, Chillicothe, Mo.

FLIPS FROM THE FILLUMS

JUNE CAPRICE DIRECTION WILLIAM FOX

June Caprice at the Pastime Today and Tomorrow

AT THE THEATERS TODAY. "B" Theater—The Aircraft company presents Elsie Ferguson as the star in "The Danger Mark," also "Weekly Events—See the World."

Lyric Theater—Edith Roberts starring in "The Deciding Kiss," also a Lyons & Moran comedy, "Don't Shoot."

Pastime Theater—Popular June Caprice appears as the leading character in "Miss Innocence," also a Sunshine comedy of two reels.

AT THE "B." Appearing in what is asserted to be the best photoplay in which she has been seen for many months, Elsie Ferguson will be presented in a pictorialization of Robert W. Chambers' famous novel, "The Danger Mark," at the "B" theater today and tomorrow.

The story is one of unusual attraction, the theme dealing with a young woman's struggle to master a craving for drink which she had inherited from a bibulous ancestor.

In "The Danger Mark" Mr. Chambers discusses the subject of heredity from a different angle, and his characters move in high social circles. The man with the unquenchable thirst does not lose the fortune he has amassed, but through the taint of heredity his beautiful daughter has a craving for alcoholic drinks, which, through secret indulgence becomes a confirmed habit.

As adapted to motion pictures, the story provides a vehicle wherein Miss Ferguson appears in luxurious surroundings, attired in beautiful gowns, and the role demands the full display of her emotional talent. The climax is attained when she realizes she has reached "the danger mark," and strives desperately to break her shackles in order to be worthy of the man she loves. Her support is excellent.

There will also be shown a reel of "Weekly Events."

AT THE LYRIC. An eerie little girl of that age when little girls are mostly arms and legs, romped about the heights at Cape Cod and danced with her shadow on the stretches of sand.

When an offer came from a rich New York woman to adopt the child, she lunched her up in her best bib and tucker and sent her alone to the metropolis.

"The Deciding Kiss" depicts vividly how the little orphan blossomed into a beautiful and cultured woman and took New York by storm. You just must see Edith Roberts this afternoon and evening at the Lyric theater in "The Deciding Kiss."

Resider the above there will be shown a Lyons & Moran comedy.

AT THE PASTIME. Like a breath from cool glens on a hot summer day comes June Caprice to the Pastime theater today and tomorrow to regale capacity audiences with her refreshing personality.

This time Miss Caprice is seen in "Miss Innocence," a new photoplay of high dramatic quality.

The story has to do with the offspring of a woman of varieties who leaves the child in the care of nuns. Curiosity of the outer world causes the child, now grown into charming girlhood to scum the walls of the convent to join a party of which she had been apprised in confidence.

Thenceforth she learns many things of the world that might cause one to enter a nunnery, rather than leave them. Without mother love to protect her, alone and inexperienced, this child of the convent finds herself after a battle against the artificial forces that seek to control her.

"Miss Innocence" is the feature of an interesting and varied bill. There will also be produced a Sunshine comedy of two reels.

LETTERS FROM OUR SOLDIERS AT HOME AND AT THE FRONT

The Morning Journal will be glad to receive letters from American soldiers in France and in the army training camps of this country. These men deserve the honor and affection of the entire country and their letters cannot fail to be of interest, coming as they do, from men who are fighting for the very "home folks" who read them. Letters submitted to The Morning Journal will be printed at the first opportunity.

Mmanuel Ruiz. Manuel Ruiz writes his sister, Rufina Ruiz, from France as follows: "I have just arrived somewhere in France. I am sure and in the best of health. I am doing my duty toward our country and believe me, I am the one that is going to get the Kaiser. Don't worry."

Thomas W. McNeill. That the Kaiser is getting his first dose of New Mexico warfare is evidenced by a letter received by Mrs. Mary McNeill, Mosquera, N. M., from her son, Private Thomas W. McNeill, of Battery A. The letter follows in part: "I haven't written to you in quite a while as we have been at the front for some time. We sure have a hard time and a German airplane came over and burned up our balloon, then he beat it back. They keep us jumping over in a while when they come over in their bombing machines."

"We have been in a hard gas attack yet, as the Germans have not used very much of it on our front. We captured a town the other day and the bodies of the dead Germans were lying everywhere, but we have been very lucky so far and have not lost a man."

P. D. Pino. L. G. Pino of Albuquerque, has received a letter from his nephew, P. D. Pino, which reads as follows: "I thought I would write you a few lines just to let you know that I am well and getting along fine."

"I have not much to write about. Everything that would be of interest to you folks at home is censored and we are not allowed to write about anything of a military nature. We are located quite a distance from the front and I have not seen any of the fighting. It takes so long to get news from home that I always am wishing to get the late news, but of course, I will have to get used to that."

"We are in one of the prettiest places in France, and are in pretty good shape in regard to camp and surroundings."

Dave Rittenhouse. E. F. Landolfi has received an interesting letter from Dave Rittenhouse. The letter follows: "I have just a little time to write as we are busy making American history. The history that Washington made won't be in it with what we are making, and my whole heart and soul is in it. In this little war that we Americans are making, I know that you are reading the newspapers and watching the line every day."

"I hope and pray that I will be one of the millions that come out of it and be able to tell you all about it, how we played the game, what we saw, and how we did it. This is a regular business only sometimes it gets a little hot."

"Just one year ago I enlisted in the army and little did I think when I did it that I ever would be on the front, driving the Heine before me. But it is true—I can see some of them now if I dared lift my head above the shell hole I live in. I have been in it only about twenty-four hours. I don't so badly enjoy it, but I don't like to bring up the chow wagon as often as we like. At that we are not starving. The worst thing about it is we don't receive any mail, but I hope it won't be long as I have not had a let-

The Baker Steam Motor and Manufacturing Co.

Automobile Authorities Admit That the Future Automobile Will Be Propelled By Steam

The Baker Steam Car is the product of the untiring efforts of Dr. H. O. Baker for the past twenty years. Today Dr. Baker has exclusive patents on THREE BOILERS, THREE BURNERS, TWO ENGINES, and the following features show the perfection of this wonderful car:

- Will get under way in thirty seconds.
- Electrically fired.
- Has a world of power.
- Has no limit as to speed.
- Has "fool-proof" boiler.
- Will not scale or corrode.
- No damage from explosions.
- Is about the last word in simplicity of operation and construction.
- Eliminates vibration.
- The cheaper the fuel, the greater the mileage.
- Flexible, durable, economical.
- Burns distillate, kerosene or gasoline.
- Eliminates dangers from defective breaks.
- No chance of freezing in zero weather.
- Does away with carburation, ignition, transmission, clutch, fly wheel, universal joints, self-starter, etc.

We would be glad to prove these statements to you.

THE BAKER STEAM CAR

is the product of a western industry and a large force of men are now at work in the factory at Pueblo, Colo. The citizens of Albuquerque and New Mexico are given the opportunity to get in on the ground floor with their Colorado neighbors. THIS STOCK WILL BE OFFERED FOR A SHORT TIME AT 5 CENTS PER SHARE. All common stock, fully paid, and non-assessable. Many fortunes have been made through small investments in the automobile industry.

Buy Your Stock Now, as It Will Soon Be Too Late

A. G. BRACY, State Manager

State and Local Offices, 111 South Fourth Street, Albuquerque, New Mexico

ter from anyone since you wrote me from New York. I know the tobacco never will come now as it evidently was on one of the boats that were sunk, but we get a sack of "Bull" every week so I won't be in need of a smoke. The "Y" gets a car of eats around close to me once in a while so we can buy smoked and eat occasionally."

Frank O. Wagner. In a letter to the Morning Journal Frank O. Wagner, who is stationed at Camp Travis, Tex., says: "I arrived here in camp with about sixty-nine boys from Bernalillo county on July 27 and after being properly checked in we were assigned to the various companies. A greater part of the boys from Albuquerque were put in the same company in which I am located. We have certainly been royally treated since our arrival and all of us are feeling better than ever before. If three weeks will work such wonders in us what will a longer period do?"

"One lives and eats here as well, if not better than at a good many boarding houses and the invigorating outdoor exercises, drills and marches put me in tip top condition as well as keeping one's brain constantly on the alert. One certainly has no chance to grow stale while with Uncle Sam. I can truthfully say that any young man who can avail himself of the other company to serve his country and benefit himself and do so, is passing up a very big issue."

"We have the cronic baseball organization of the camp as far as we have gone, for we have set back all of the other companies with the short end of the score, which we will continue to do when we reach the Kaiser."

Arthur P. Ramshorn. Arthur P. Ramshorn, Battery "B," fifty-eighth artillery, C. A. C. A. E. F., has written relatives here as follows: "I received your letter and am glad to hear from you."

When the Pacific Coast League disbanded the Chicago Americans, with the permission of the commission, negotiated with Quinn direct, while the New York Americans negotiated with the club for Quinn's services. Quinn accepted Chicago's terms while the Los Angeles club accepted New York's terms. The commission held that both the American league teams were within their rights and declared the occurrence "peculiar and unfortunate" and awarded the player to New York.

BUSINESS COLLEGE ITEMS

The following students were given Honor cards for special work in typewriting: Misses Maud and Velma Nelson, Miss Grace Reynolds, Miss Nina Harbison, Miss Mabel Hayes. The girls are to be congratulated on the splendid work which they turned in.

Miss Temple, formerly of the Albuquerque Business College, has been given three promotions since beginning government work in Washington, D. C., about a year ago.

Miss Virginia Dickens has already received two promotions. She began work three months ago.

Miss Margaret Plourney writes that she enjoys her work in Washington very much. Miss Plourney left just recently.

Mr. Tony De Baca, who has been in the treasury department at Washington, is now with the American embassy in Mexico City.

Miss Fay Martin has accepted a position with the government employment bureau in the city.

Miss Edith Hainston, who has been successfully filling a position with Grubbs, Bryant & Grubbs at Cerillos, N. M., writes that she has had to be absent from her position for some time on account of sickness in the family.

Miss Eva Hickey, who left three weeks ago on a vacation to her home in Columbus, Ohio, has returned and will resume her duties in the college in September.

Miss Lois Davis is taking a vacation in her home state of Indiana. After two months visit with her relatives here she will return to take up her work here.

Much preparing is going on for our opening week in September. We have found it necessary to utilize every bit of spare room and carpenters will be busy this week arranging a typewriting room in our large hall space. It has been found necessary to enlarge not only the typewriting department but also the shorthand room.

MEMBER 'FLYING CIRCUS' KILLED IN PLANE CRASH

St. Louis, Mo., Aug. 24.—Major William R. Beam of San Diego, Calif., flight surgeon of the British-American "flying circus," which started early today from Indianapolis to St. Louis, was killed when an airplane piloted by Lieut. Wesley Benner of Metuchen, N. J., fell 150 feet at Effingham, Ill. Lieutenant Benner suffered a compound fracture of a leg and internal injuries. His condition is reported serious.

Other airplanes of the squadron are reported to have landed safely near Effingham, 101 miles east of St. Louis, after the accident. Attempts to reach St. Louis today were abandoned.

According to information received here Lieutenant Benner was approaching a landing in a corn field, one mile out of Effingham, when his engine apparently stalled and his plane did a nose dive. It was reported the fliers ran into a severe rain and wind storm which caused Lieutenant Benner to attempt to land. Two machines previously made a safe landing in the field. Four machines landed safely just outside of Marshall, Ill., about forty miles west of Terre Haute, and one landed at Martinsville, Ill.

Major Beam's death was the second since the mission started on a tour of middle western cities. Capt. James Fitzmorris of the British flying corps, was killed the first day, August 14, just out of Cincinnati.

Major Beam was 42 years old, served on the Mexican border, and until his assignment on this flying tour was at a flying field near San Diego, Calif.

QUINN IS AWARDED TO NEW YORK AMERICANS

BY MORNING JOURNAL SPECIAL LEADER WRITER. Cincinnati, Aug. 24.—Player Quinn, who was with the Los Angeles club of the Pacific Coast league this season, was today awarded to the New York American league club in a decision handed down by the national baseball commission.

When the Pacific Coast League disbanded the Chicago Americans, with the permission of the commission, negotiated with Quinn direct, while the New York Americans negotiated with the club for Quinn's services. Quinn accepted Chicago's terms while the Los Angeles club accepted New York's terms. The commission held that both the American league teams were within their rights and declared the occurrence "peculiar and unfortunate" and awarded the player to New York.

The Five-Pointed Star

The ancient Greeks used the five-pointed star as a symbol of health. It still fulfills this ancient mission, as you will find it imprinted on each package of Chamberlain's Tablets. These tablets have restored hundreds to health who were afflicted with indigestion, biliousness or constipation. Give them a trial when in need of such a medicine, and you are certain to be pleased with the prompt relief which they afford.

To All Coal Consumers in Albuquerque

During the past twenty-one years there has not been at any time a general shortage of coal in Albuquerque and our people do not realize what a coal shortage means in the way of personal privation and suffering.

I predict not only a shortage, but a very severe one and even privation and suffering on account of lack of coal this winter, and I urge you to attend the meeting at the High School Monday night to hear what Chief Justice Hanna, a member of the United States Fuel Administration for the state of New Mexico, has to say on the subject.

G. A. Kaseman
