We find it necessary to call the attention of our subscribers to the outrageous price we now have to pay for print paper and other materials necessary in getting out a little paper. We have just this morning received a bill of a shipment of paper and the figures show that we now pay three times the price that we paid fifteen months ago, and other expenses are advancing along in the same proportion.

In order to meet these exorbitant prices, many papers have raised the subscription price, some have cut down the size of their paper and charge the same price. The Record, however will not be reduced in size and the price of subscription will remain \$1.00 per year IN ADVANCE.

In looking over our list we find a good number there who are behind with their dues. Some only a few months, some a year and some longer. We do not like to cut off, especially the old subscribers, but we are confronted with a problem that we dislike to face, viz. Shaving our subscription list right down to a list of paid up or arranged for subscriptions. We appreciate you as a customer, and we want you to stay with us. But it had just as well be stated plainly one time as another. We cannot continue to buy this high priced paper and material which goes to make up the Record and send it out without the pay. Now the fact is if these arrearages are not paid promptly, we will be forced to cut out a good list who are enjoying the paper yet are not showing the manhood and courage to come up and pay their account. I pay my paper bills every month, how often do you pay yours? This means YOU. I am speaking to YOU. Now come across.

LIVE STOCK

Kansas City, Monday, Sept. 18.—The attendance of the largest body of feeder buyers here last week seen this year together with strong demand on cattle after Monday. The yards were well cleared, and the buying side was up to maximum capacity today when receipts amount to 36000 head besides 2000 calves. The range country is well represented today, and sales were satisfactory to sellers, steady to 15 lower than Friday, but a shade stronger than on Monday last week. A train of Wheeler and Lavender steers from Placerville, Colo., bred in Texas, sold to killers at 6.10, around 1025 lbs. average. Other Mountain beef steers sold at 6.80 and 6.90. Panhandle yearlings sold up to 7.90, twos at 7.25 to 7.50, some commonish ones at lower prices, cows 5.25 to 6.25, canners 4.65. Best fed steers to-day brought 10.90, grass steers from 6.50 to 9.25.

Sheep receipts were 17000 head here, and excessive at other points, 110,000 head at six markets. Prices ruled 15 to 25 lower, with exceptions steady on ewes, fat ones selling at 7.25 and 7.35. Colorado alfalfa grazed lambs sold at 10.50, and lambs from Western Colorado and Utah brought 10.25 to 10.40, Arizona lambs to killers 9.75 to 9.85, and to feeder buyers at the same price. Utah feeding lambs sold up to 10.15. Country demand is very heavy, as feeders are being advised that this promises to be a good year to feed, in spite of the high prices feeding lambs are costing. Breeding ewes sell readily at stronger prices, 7 to 9.40, with good young ewes around 8.50, and feeding ewes sell at 5.25 to 6.75, about 50 cents higher than a week ago.

Hog receipts were 11500 head, market steady to strong. Top hogs sold at 11.15 Saturday, highest price ever paid here, and the same top was reached today, bulk of sales 10.75 to 11.10. Receipts are running ahead of last year, but the Government estimate of the stock hogs in the country, showing a decrease from last year at this time, is a bullish instrument. A big order buying trade continues, and packers show as much competition as they think safe, and at the same time prevent a skyrocket market, for they need hogs. The situation looks very strong.

J. T. Burk spent Sunday at Grant Newlin.

This is the Life.

I shot an arrow into the air, it fell in the distance, I knew not where, till a neighbor said it killed his cat, and I had to pay him sixteen and a half (\$16.50). I bought some poison to slay some rats, and a neighbor swore it killed his cats, and rather than argue across the fence I paid him four dollars and fifty cents (\$4.50). One night I set sailing a toy balloon and I hoped it would soar till it reached the moon, but the candle fell out on a farmer's straw and he said I must settle or go to law. And that is the way with a random shot, it never hits the proper spot; and a joke you spring that you think so smart may leave a wound in some fellow's heart.—Ex.

The Town Cow

No doubt everyone who comes to town has had trouble with the loose stock eating up your feed, or tearing your flour or corn sacks. I have arranged a free feed lot, with stock water at the back of my store.

Drive your wagons in, feed and water, and avoid having your wagon plundered with loose stock that are always on our streets.

Our stock of groceries, dry goods, notions, drugs, granite and queensware are all fresh and up-to-date.

We have a large stock of cotton and wool blankets for the coming winter.

We pay the highest prices for your produce.

THE STATE BANK EXAMINER

Has just called on us and after going through our records of business for the past six months, gave us a clean bill-of-health and paid us the compliment of having our bank in a highly satisfactory condition. We appreciate the compliment but are not PUFFED UP over it, neither are we inclined to egotism, for we know without being told that we have a safe and sound institution. We are doing a bigger, better and safer business than ever before.

We only know but one way to treat you—That is the right way. Give us a trial.
