The mother who allows her 19 year old daughter to float around the town in a buggy until 2 a. m. with a countenance sport with weak jaw and weaker morals, merely opens the front door to grief and disgrace, says an exchange. If you don't know what company she keeps or what time of night she turns in, your roar when gossip gets busy will sound as pathetic as the wheeze from a Jew sharp. The girl who insists on spooning with everybody in the corporate limits ought to be backed into the wood shed and relieved of her overflow of affection with a No. 11 slipper laid carelessly across the hiplets. We had sooner see a girl kiss a blind shoat through a barbed wire fence than have her change partners six nights a week in the front parlor with the light turned low. It is harder to marry off a girl who has been pawed over by every yap in the community than it is to fatten a sheep on pineapple ice. You don't gold brick a sharp eyed suitor with second hand goods any more than you can fit a bath robe on a goat. There are lots of weak minded parents who are going up against the judgment day with about as much show as a cross-eyed girl in a beauty show, and their children will raise up and call them blessed with the enthusiasm of a one-legged man at a dance.

ALL FOOLS ARE NOT DEAD YET.

Belvidere, N. J., Aug. 4.—The honor of shaking hands with Theodore Roosevelt almost cost T. J. Shea his life. Roosevelt traveling southward to the coal districts by automobile on Monday night, stopped Shea to ask for guidance on the roads through the outskirts of Belvidere.

After Shea had given the de-

sired information, Roosevelt shook his hand. Shea was overwhelmed at the honor and was so eager to tell his friends that he ran two miles into the city and dropped unconscious just as he was about to gasp out the news.

It took two doctors four hours to bring him about and he will not be out of danger for several days. He has long suffered from heart disease and had been warned against hard exercise.

Editors as a rule are kind hearted and liberal. An exchange tells of a subscriber who died and left fourteen years' subscription unpaid. The editor appeared as the lid of the coffin was being screwed down and put in a lion duster a thermometer, a palm leaf fan, a recipe for making ice and a receipt in full for the subscription bill.

QUAINT TABLE MANNERS.

Jerome S. McWade, the Duluth millionaire, talked at a dinner about the delights of a

backwoods vacation.

"I go to a quaint backwoods village every summer," he said, "and numberless are the quaint people I meet there.

"Old Boucher, for instance, the janitor of the village church, is most amusing with his quaint ways. I had old Boucher to lunch one day, and the cold lobster was served with a mayonnaise sauce. When my servant offered this sauce to Boucher, the old man stuck his knife in it, took up a little on the blade, tasted it, then shook his head and said:

"Don't choose none"

THE LEMON CURE.

"Eat twelve lemons a day for twelve days." This is the simple cure for tuberculosis recommended by Mrs. Charles S. Banse, of Sioux City, who after being given up by the physicians, made herself a healthy woman by taking the lemon home remedy. Mrs. Banse had suffered two years with the disease, a portion of which time was spent in the state sanitarium at Iowa City. "Boil the lemons until soft," is Mrs. Banse's directions. "Then sweeten the juice until it

is palatable. I took twelve lemons a day in this manner until the twelfth days had elapsed. I am a well woman today. Mrs. Banse is now the picture of health. Her lungs are in no way affected and she swears by the lemon cure.—Ex.

BETTER COME TO NEW MEXICO, WHERE THE 'SKEETERS' DON'T 'SKEET'.

The mosquitoes are decimating cattle and are running the people out of a portion of the Calsien Parish, La., according to a statement made by Ben Ingouf, United States marshal, who returned from a trip to that section of the country. He says that many of the lumber mills have been forced to close and many homes have been abandoned. Drugs and smoke are being used on the passenger trains passing through that section but to very little avail. The mosquitoes are declared to be the worst for twenty-five years.—Lubbock Avalanche.

WORKING BOTH WAYS.

Active Construction Has Begun on the Altus, Roswell & El Paso out of Silverton and Lockney.

TO BE PUSHED TO COMPLETION.

As our readers were informed in last week's Herald, active construction on the Altus, Roswell and El Paso railroad has begun at Silverton and Lockney and the work will be vigorously pushed to completion.

The Hurly camp was established in the west part of Silverton Monday and work begun that afternoon. The work has been interrupted somewhat this week on account of heavy rains, but there is no doubt in the minds of the people that Contractor

At Kenna you can buy anything you need in the way of Groceries, Dry Goods, Farm Machinery, Posts, Wire, Nails, Lumber and all kinds of Hardware.

If you buy your Building Material, Farm Machinery Etc. of the

you will greatly reduce the high cost of living, grow rich, get fat, and be a good fellow and enjoy life. Your girls will grow up to be music teachers, and most of your boys will be twins.

Thousands have tried our business methods and are satisfied customers.

COME AND SEE US.

John Woods, who arrived from Springfield, Mo., on Tuesday, will push the work. He is that sort of man. Pres. Parks, Edward and Will Kennedy and Mr. Woods went to Lockney Wednesday afternoon and now there are twenty teams working out of that town toward Silverton. The railroad people assure the people that the steel will be laid into Silverton by the first day of January and that work on toward the east will be done as rapidly as it can be.—Brisco Co. Herald.

THE PRINTERS.

Everybody works but the printers; They sit around all day, Always making promises, Expect to "ship next day." Customers keep on calling, New stories they must tell; Everybody works but the printer, Yes, they do like h—!

—an un-expurgated contribution.

Everybody works the printers, Because they can't say "Nay" They work and plan for every man Then take what their customers say. Everybody works the printers, And printers work for love; Yet they think they'er making money— Yes—like the fellow says above.
