MERE MATTER OF AMUSEMENT

Arkansas Could Easily Afford to Treat Such Amateur Shooting With the Contempt Deserved.

"What's that?" cried a tourist to whom a resident of Straddle Ridge, Ark., was showing the scenery of the region.

"Aw, just Tug Bald or his brother-in-law taking a shot at me from over across the hollow," was the nonchalant reply.

"Great grief! What do you do about it?"

"Nuth'g in partickler. They're the poorest shots on the Ridge and never come nigher to me than ten feet or so. It sorter amuses me to see grown men doing such childish tricks and never 'complishin' anything at it."

Southwest News From All Over New Mexico and Arizona

The Magdalena, N. M., high school is organizing a basketball team for the season of 1922-23, which it is thought will be one of the fastest in the state.

Mrs. Richard Scherer, who for several years has resided a few miles north of Artec, N. M., committed suicide by hanging herself to the limb of a tree.

William Shaw of Roswell, N. M., is now making plans for the erection of a new business block on South Second street, which when completed will cost over \$15,000.

The Anita Copper Company of Lordsburg, N. M., under the management of G. W. Foreman, is now shipping and milling some of the best ore that has been taken out of the shafts.

The new \$100,000 school building in Portales, N. M., which has been under construction since the first of May, is nearing completion and will be ready for occupancy about the 18th of September.

William S. Bourne, 48, is dead and James McClure, 86, is reported dying as a result of a pistol duel at their camp near Prescott, Ariz., following McClure's unexpected return from Colorado.

The Ray (Arizona) Consolidated Copper Company is preparing to inaugurate a program of construction and expansion of operations and has sent out a call for laborers and mechanics of experience.

Bert H. Calkins, manager of Estancia, N. M., for the past year, has filed suit in the District Court to recover \$518 which he alleges is due him for engineering services in planning the sewer system of the city.

Present indications are that the copper shipments from the Douglas district for the month of August will total 14,000,000 pounds or more, exceeding all monthly records since the smelters closed down more than a year ago.

A chase that began July 29 and extended through four states, Louisiana, Texas, New Mexico and Arizona, ended at Yuma, Ariz., recently, when Deputy Sheriff H. C. Parsons of Phoenix arrested E. W. Burgalin in connection with brutal killing near Prescott June 10 last of Iver Engle of Phoenix.

Development work at the Last Chance mine near Lordsburg, N. M., is now going ahead rapidly and some of the best silver ore in this part of the state is being produced. Most of the ore which has been taken from the mine will run \$500 to the ton and the big mill is operating with almost ideal extraction.

Construction of a mountain top road from Las Vegas to Santa Fé, is being urged by many of the prominent business men of Las Vegas. They are now working on plans which will be placed before the next Legislature which will provide for the building of the road from the top of the Porvenir highway over the range to the Ancient city.

The first indication of a resumption of industrial activity in the district, following a complete shutdown of more than a year, came recently with the announcement by Capt. J. P. Hodgson, manager of the Morenci branch of the Phelps Dodge, that 150 miners and muckers would be put to work immediately in the mines of Morenci, Ariz.

A reduction of \$250,000 in the valuation of the producing mining claims of the Phelps Dodge Corporation, Copper Queen branch, has been made by the Arizona State Tax Commission, which had previously placed the value at \$47,305,380. The Shattuck-Arizona company was granted a decrease of \$822,308 on a valuation of \$2,808,954.

George Leppes of Albuquerque was fined \$50 and costs for reckless driving of an auto. It is alleged that he drove his car into the kitchen of the home of D. Valles on the Barelas road.

A big meeting of the farmers of the valley was held in Fort Sumner, N. M., recently, to make plans for some kind of a system of selling the crops of the valley to the best advantage of all. The result of the meeting was that a co-operative association was formed through which all the products will be marketed, and it is likely that a truck line from this city to Las Vegas will be started and plans made to handle the crops in that city.

Announcement has been made by G. H. Cook of the Forest Service, who is chairman of the U. S. Department of Agriculture district committee on exhibits, of the fairs in New Mexico and Arizona at which the department will be represented this year. Approval has been received for the departmental exhibit to be shown at the Northern New Mexico Fair at Raton, N. M., Sept. 12 to 15, at the Northern Arizona Fair at Prescott, Ariz., Oct. 12 to 14, and at the Arizona State Fair at Phoenix, Oct. 30 to Nov. 4.

A recent strike on the east end of the Tom Reed, near Oatman, Ariz., at the 500 level, is said to have developed into one of the most important in recent years. The vein is reported to have been cut for a width of forty feet, ten feet of which is high grade mill ore.

Federal narcotic agents, acting in co-operation with Phoenix police, seized twenty-three ten-ounce tins of crude opium valued at \$5,000 in the baggage room of the Santa Fé depot at Glendale, and placed Ong Fao, a Chinese, under arrest.

BRIDGES BURNED AND DYNAMITED

TEN ARE UNDER ARREST ON CONSPIRACY CHARGE THROUGHOUT NATION.

TERROR REIGN BEGINS

ALBUQUERQUE POLICE REPORT FINDING OF COMPLETE BOMB PLANT.

Chicago.—The disclosure of a new train wrecking plot, an attempt to blow up a train, the burning and dynamiting of bridges and other railway property, greasing of tracks, slugging of workers and other acts of lawless violence has marked the strike of the railroad shophmen throughout the country.

A pile of debris heaped in the path of an expected Chicago train near Spring Lake, Iowa, was reported to have resulted in the death of one man and the injury of three others when a motor handcar on which they were riding in advance of the train struck the obstruction. An attempt to blow up a Chicago & Alton train near Alton, Ill., the bombing of a bridge in Wilmington, Del., and the burning of seven bridges on the "Cotton Belt" line also were reported simultaneously with the arrest of three men in Chicago charged with a plot to dynamite and wreck the New York-Chicago "Western Express" of the New York Central lines.

The latest arrests followed the holding of four other men accused of wrecking the "Million Dollar" express of the Michigan Central near Gary, Ind., recently, by removing thirty-seven spikes from the rails, causing the death of two engineers, and efforts were being made by federal and state officials to determine whether there was any connection between the two groups.

Railroad detectives, posing as strikers, obtained the first information concerning the alleged plot.

The men were questioned in an attempt to learn if they were connected with the conspiracy, and also to find the location of the dynamite which was to have been used. Wholesale arrests of terrorists were promised by the Chicago police, and federal agents continued their activity in all parts of the Central West.

Albuquerque, N. M.—W. P. Seyfred, president of the State Federation of Labor, and Andrew Bruno, both of Albuquerque, were arrested on Santa Fé train No. 2 at Hahn, four miles north of Albuquerque, by Sheriff Tony Ortiz, A. R. Gere, special agent of the department of justice and Santa Fé special officers. The officers reported that they found in the men's grips three complete bombs, fuses and a quantity of caps. The men were taken to Albuquerque and a search was made of Seyfred's room where, according to the officers, they found a number of bombs practically completed, powder and fuses. Seyfred is a plumber and Bruno a taxi driver.

Officials are of the opinion that the men had planned to blow up Raton tunnel, which would have blocked traffic on the main line of the Santa Fé railroad. They had tickets to Trinidad, Colo., when arrested, the officers said.

Slater, Mo.—Five arrests, the first in the western Missouri district, for alleged interference with the mails were made at Slater a few days ago by O. A. (Buck) Lindsay, deputy United States marshal.

The five men arrested, who later were taken to Kansas City, were Leo F. Winkle, chairman of the federated shopcrafts in Slater; Barney Mayfield, chairman of the machinists' organization; J. W. Nichols, striking machinist and picket; Emmett Todd, a stationary fireman, and E. L. Johnson, brakeman.

American Consulate Closed.

London.—The American consulate in New Castle has been closed and the consular authority suspended by the British government. It is asserted that the Washington government has been furnished with proof that consular officials in New Castle abused their positions to the disadvantage of British interests, among other things having refused to give British passports to the United States on trivial pretexts unless the holders of the passports agreed to travel on American vessels.

Canal Zone Judge Named.

Washington.—The President nominated John D. Wallingford of Iowa to be United States judge for the Canal zone.

France Surrenders Position.

Paris.—The reparations commission has relieved Germany of the necessity of making any further cash payments in reparations for the remainder of 1922, but defers its decision on the question of a moratorium until radical reforms in Germany's finances are carried out. These include the balancing of her budget, reduction in Germany's foreign obligations, currency reform and the issue of foreign and internal loans.

ALL FEEL CHARM OF PARIS

Various Spots May Have Particular Application, but There is Variety for Every Visitor.

The fairy tale of Paris belongs to all of us, in whatever terms it may be told. For some it is Marie Antoinette and the Petit Trianon; and, curiously, by comparison with a rather worthless queen, the great war pales. For some it is Napoleon in his cocked hat and white breeches, and his great tomb, one of the fingertips of Paris. For still more it is the Bois and the elegance and luxury and beautiful women; and for the rest there is always the particular application—the house where Balzac had his printing press, or perhaps only a great stone wall, symbol of the centuries over which a fruit tree blooms, symbol of centuries continually renewed, writes Muriel Harris in the North American Review.

Was a Bridge Tender.

"There's no fool like an old fool," of course. A week or two ago one of our members of the Leg-in-the-Grave club got caught in a bridge fight that lasted until the small hours. He was not much concerned about it since his good wife, once parked for the night, sleeps on through, or, at least, has the grace not to ask when he got in. However, merely as a matter of habit he turned the key softly and was slipping quietly to his room, when the childish voice of his small granddaughter piped up through the open door of her bedroom:

"Granddaddy! Where did you get a job as night watchman?"—Indianapolis Star.

But Not Martha.

Katharine and Martha, six and four, respectively, visited a neighbor woman who had no children. After playing with the girls for a time she said: "My, I wish I had two or three girls like you!" Martha soberly replied: "Mamma might let Katharine come and stay with you, but she wouldn't let me come."

Disipated Creature.

Passenger—I say, driver, what is the average life of a locomotive?

Driver—Oh, about thirty years, sir.

Passenger—I should think such a tough-looking thing would last longer than that.

Driver—Well, perhaps it would, sir, if it didn't smoke so much.—Congregationalist.

Maybe that hill is not there, after all—

VERY often the hill we seem to be climbing is made out of the common mistakes of diet which starve tissues and nerves and slow down energies.

How smooth and level the path seemed to be when we were younger.

Simple, natural food may level that hill to a smooth path again.

Why not try it?

NO DOUBT ABOUT GRATITUDE

Any Youngster Will Understand That Poor Boy Was Deeply Appreciative of Tommy's Gift.

For some time Mrs. Caraway had been endeavoring to instill into the heart of her youngster, Tommy, aged ten, the sentiment of generosity, which it seemed to her, was not naturally present. In this relation she had been especially careful to commend to Tommy's consideration the son of a poor family in the neighborhood.

One day Tommy came home radiant. "Well," he said to his mother, "I gave that poor boy half of the box of candy you bought for me." The mother also beamed. "You are a dear little boy," she said. "Was the poor boy grateful?" "Yes, ma'am," said Tommy; "he was grateful, all right. He came round to the school yard and let me lick him where everybody was looking on."—Harper's Magazine.

How Sherlock Could Tell.

Sherlock and the faithful Watson were strolling down Piccadilly.

"There's a woman in very short skirts just behind us, my dear doctor," murmured the great detective.

"Marvelous!" enthused Watson, after he had corroborated the statement by a glance behind. "How in the world did you ever know without turning your head?"

"Purely elementary, dear old fellow. I merely observed the faces of the people who are walking toward us."—American Legion Weekly.

Effective Economy.

Western Canada Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at \$15 to \$30 an Acre —land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising hogs, cattle, sheep and pigs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land.

With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches and schools, good markets, railroad facilities, rural telephone, etc.

Unfair Advantage.

"You don't care to sleep in a handsome mausoleum?"

"Not if I have to pay for it myself," replied Senator Northworthy. "A simple tombstone, just to keep the record straight, will satisfy me. The man who builds his own monument often robs posterity of the privilege it would like to exercise of forgetting him."—Birmingham Age-Herald.

Another Defeat.

"Mrs. Wopping and I have just concluded a lengthy argument about the way we are going to vote," said Mr. Wopping.

"How did you decide?" asked Mrs. Gadspar.

"The result reminded me of the time I argued with Mrs. Wopping against buying a motor car."

"Yes?"

"We bought the car."—Exchange.

Past and Present.

The late Mrs. George Gould hated divorce.

At a Lakewood dinner party a young divorcee was admiring Mrs. Gould's splendid jewels.

"Oh, that's your wedding ring, isn't it?" she said. "How old-fashioned it looks, doesn't it? In the past they made them so much wider and heavier than they do now."

"In the past, you see," said Mrs. Gould, "they expected them to last a lifetime."

Be Careful How You Speak.

If you speak to a girl you meet who is wearing knickerbockers, be careful how you address her. She may be angry if you call her "Sonny," and angrier still if you call her "sissy."—Somerville Journal.
