

BABY HAS A RECORD

SIX-YEAR-OLD GIRL TRAVELS 200,000 MILES.

Meets Pope and the President—Roosevelt Gave Her Flowers, but Leo's Reception Was Not So Effusive.

Boston.—With a traveling record of about 200,000 miles to her credit, the "Baby Globetrotter," as Miss Kathryn Leonore Adelia Glenwood Moran is called, has made the announcement she wants to "go to housekeeping," adding she has traveled as much as she cares to and she now prefers to establish and remain in a home of her own.

Miss Leonore is only six years old but she has visited more different countries and more inaccessible personages than the average diplomat can boast of in a lifetime.

Crowned heads of Europe have recognized the little girl, she was admitted to the presence of the late Pope Leo XIII., being the only child under 12 years who was ever permitted an audience with his Holiness.

"I guess the pope didn't think much about me, though," little Miss Leonore admitted. "He was so old and I was so young, but I remember President Roosevelt very well. He seemed 'deighted' to see me, and gave me a bouquet of flowers from his library table and I carried them with me to have a photograph taken. We were at Glenwood Springs, Col., when he was out there on his big hunt, and our hotel was the executive headquarters. That is where I was born, and I think that of all the places I have ever seen I prefer Glenwood Springs to all others. You see, part of my name is 'Glenwood.'"

"Yes, my name is rather long," little Miss Leonore said as she sat on a chair out of all proportions to her size and chatted about herself with a newspaper representative. The name under discussion did seem burdensomely long for the delicate, dainty miss with blue eyes, who could talk with such familiarity of personages and places.

"I am sometimes called 'Miss Kathryn,' but I much prefer 'Miss Leonore,'" she said with childish sweetness.

While she has received unusual attention on account of her intelligence, the little "globetrotter" has not for felled a winning childish manner and talks of her travels as naturally as most children talk of their toys. She has been interviewed for numerous papers and was the subject of an article in a Tokio paper, when the only thing she was able to read was her own name. She afterward received about 50 post cards from Japanese children.

Miss Leonore is the daughter of Mr. and Mrs. George E. Moran, of Chicago. Mr. Moran is one of the best known newspaper men in the west and was one time managing editor of the Chicago Times. Like her father the little girl inclines toward a literary career.

"I expect to begin to write as soon as we go to housekeeping," she announced, "that's one reason why I think that we should settle down. I can't do very much this way, you know. We are going to the Klondike this summer, again. Our trip up there last summer was interesting. Beautiful flowers grow beside the snow banks, but I feel that I have traveled enough. I want to go to Glenwood and live quietly for a change."

Man Takes Bride's Name.

Baltimore, Md.—Dr. Annie E. Copelan was married to Abraham Erott Copelan, formerly Abraham Erott, Dr. Copelan, who received her M. D. from the University of Maryland four years ago, has built up a fine practice. She loves Erott, but she did not wish to have her shingle relettered "Dr. Annie R. Erott, formerly Copelan."

So Mr. Erott, a student in the university dental department, decided that the best thing to do was to change his name to Copelan, and the courts obliged him.

Friends of the Copelans foresee confusion when Copelan, born Erott, becomes D. D. S. Suppose a man dislocates his thigh and hobbles to the Copelan office, "Is Dr. Copelan in?" "Yes. Which one do you want, your leg or your tooth?"

Museum Gets 1800 B. C. Statue.

New York.—Theodore H. Davis, the archaeologist, has arrived from Europe, bringing with him one of the oldest relics in the world. This is an alabaster statue of Queen Teie, a famous Egyptian, whose tomb Mr. Davis recently discovered. The statue dates from 1800 B. C. It will be presented to the Metropolitan Museum of Art. Mr. Davis said that they worked three years excavating the tombs of the kings in Thebes, and it will be two years more before the work is completed.

HAPPENED AT BAD TIME.

Minister's Fall Significant in View of Previous Words.

In a small church in one of the mining towns of Pennsylvania was a pulpit both antique and unique. It was about the size and shape of a flour barrel, was elevated from the floor about four feet and was fastened to the wall. The ascent was by narrow winding steps.

A minister from a neighboring town, a man of great vigor and vehemence, preached there one Sunday. While preaching he bent forward and shouted out with great force the words of his text:

"The righteous shall stand, but the wicked shall fall."

Just as these words escaped from his lips, the pulpit broke from its fastening, and he fell out and rolled over on the floor before his congregation. In an instant he was on his feet again and said:

"Brethren, I am not hurt, and I don't mind the fall much, but I do hate the connection."

ELEVEN YEARS OF ECZEMA.

Hands Cracked and Bleeding—Nail Came Off of Finger—Cuticura Remedies Brought Prompt Relief.

"I had eczema on my hands for about eleven years. The hands cracked open in many places and bled. One of my fingers was so bad that the nail came off. I had tried so many remedies, and they all had failed to cure me. I had seen three doctors, but got no relief. Finally I got a cake of Cuticura Soap, a box of Cuticura Ointment and two bottles of Cuticura Resolvent Pills. Of course I keep Cuticura Soap all the time for my hands, but the one cake of Soap and half a box of Cuticura Ointment cured them. I recommend the Cuticura Remedies to all suffering with eczema. Mrs. Eliza A. Wiley, R. F. D. No. 2, Liscomb, Ia., Oct. 18, 1906."

New Automatic Rifle.

The self-loading or automatic musket is now being seriously considered as the infantry arm of the future. The equipment of the great armies of the world with an improved rifle is hardly completed when the mechanics begin work on a new weapon. At the recent examinations of the German War Academy the automatic rifle was one of the themes for discussion. The piece now on trial has a magazine holding ten cartridges; the recoil is utilized to load and cock. Consequently the soldier can remain quietly in position, never removing his eye from the target, and fire his ten shots.—New York Sun.

England's Debt to France.

One of the chief debts to France is that she nourishes our ideas, transforms them, makes them her own, just as she transplanted and transmitted the flower of the Renaissance in an earlier day. With all our national vanity we never dispute the parentage. It is only territory and diplomatic prestige and commerce about which we quarrel with our "sweet enemy."—London Academy.

Riddle.

"What is the difference between a chauffeur and a surgeon?" asked the every ready joker.

"Give it up," answered the man who was bored.

"The chauffeur runs people down and the surgeon cuts them up."

Hastily boarding a passing street car, he made a safe getaway.—Detroit Free Press.

COFFEE COMPLEXION.

Many Ladies Have Poor Complexions from Coffee.

"Coffee caused dark colored blotches on my face and body. I had been drinking it for a long while and these blotches gradually appeared, until finally they became permanent and were about as dark as coffee itself."

"I formerly had as fine a complexion as one could ask for."

"When I became convinced that coffee was the cause of my trouble, I changed and took to using Postum Food Coffee, and as I made it well, according to directions, I liked it very much, and have since that time used it in place of coffee."

"I am thankful to say I am not nervous any more, as I was when I was drinking coffee, and my complexion is now as fair and good as it was years ago. It is very plain that coffee caused the trouble."

Most bad complexions are caused by some disturbance of the stomach and coffee is the greatest disturber of digestion known. Almost any woman can have a fair complexion if she will leave off coffee and use Postum Food Coffee and nutritious, healthy food in proper quantity. Postum furnishes certain elements from the natural grains from the field that Nature uses to rebuild the nervous system and when that is in good condition, one can depend upon a good complexion as well as a good healthy body. "There's a Reason." Read, "The Road to Wellville," in pkgs.

For Hardening Drill.

Hardening an ordinary drill in sulphuric acid, states the English Mechanic, makes an edge that will cut tempered steel or facilitate cutting hard rock. The acid should be poured into a flat-bottomed vessel to a depth of about one-eighth of an inch. The point of the drill is heated to a dull cherry red, and dipped in the acid to that depth. This makes the point extremely hard, while the remainder remains soft. If the point breaks, re-harden, but with a little less acid in the vessel.

Shake Into Your Shoes

Allen's Foot-Ease. It cures painful, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y.

It doesn't take a man long to find out how different married life is from what he thought it was going to be.

Grass is green, but an encounter with a grass widow is apt to render a man color blind.

Mrs. Winslow's Soothing Syrup. For children's teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

A boost when needed is better than a pull that isn't.

Is the Sailors' Friend.

Sixty thousand sailors look to H. A. Hanbury for advice and for protection. Mr. Hanbury is the United States shipping commissioner for the port of New York. He is the sailors' judge and jury. The men who sign on foreign craft now must appear before him for their papers instead of going to the consuls of the various countries. He decides all disputed questions between the men and their sailing masters. Many of the abuses of these men that formerly were common, such as compelling them to buy their outfits from the ship owners or captains, have been done away with under Mr. Hanbury's rule. His office is on the Battery park, New York, where he easily can reach all the ships leaving that port.

Dramatist's Plans for Future.

Dr. Ludwig Fulda, the well-known poet-dramatist, has purchased the estate of Karerlake, in Tyrol, and expects to erect a castle and live there most of the year. He is now at work on a new drama to be presented in Vienna, at the Burg theater, next season.

It is just as well to look out for the man who is always looking out for himself.

To Tell of Royal Scandal.

A book is soon to appear in Dresden, entitled "A Fight for a Royal Child." The author is Ida Kremer. She tells of her experiences as governess in the house of the Countess Montignoso until she was obliged to depart by order of the court marshal of the king of Saxony.

There are times when the still, small voice of conscience seems to come from the big end of a megaphone.

W. N. U., DENVER, NO. 27, 1907.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher.
The Kind You Have Always Bought

In Use For Over 30 Years.
THE CASTORIA COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Exact Copy of Wrapper.

MICA
Axle Grease
takes miles off the road, and weight from the load. Helps the team and pays the teamster. Practically destroys friction. Saves half the wear that comes from jolting over rough roads, and lengthens the life of a heavy vehicle more than any other one thing. Ask the dealer for Mica Axle Grease. STANDARD OIL COMPANY, Incorporated.

WOODWORTH SHORTHAND COLLEGE AND Wallace's Business College
Principal of Stenographic Department is a Court Reporter. Principal of Bookkeeping Department is a Public Accountant and Auditor. Send for catalogues. 1739 Champa Street, Denver, Colorado.
