Diamonds

An examination of our books for the first half of this year shows an appreciable excess of diamond sales over many previous years.

In December we purchased a large quantity of excellent snappy goods in bulk, (that is in unbroken packages) - mounted these goods in the best style and offered them to our customers at a mere fraction's margin.

This policy combined with a four-year up of the right in the market of the past few years has resulted in unprecedented sales.

We again offer you an excellent assortment on this same margin and every Diamond guaranteed exactly as represented.

Let us show you: A Diamond bought right is as good as a bond, and is also an investment.
