AS MAINE GOES.

MAINE goes, so goes the Union. It is a political law of long standing.

A Democrat was elected governor of Maine yesterday by a plurality somewhat greater than that given for President Wilson in 1912.

The result in Maine, however, has another phase of especial interest for the country.

THE SEASON OF FAIRS.

IT IS interesting to note the steady increase in the number of fairs in New Mexico and their increasing popularity.

The increased list of New Mexico fairs is proof of their due. Fairs wouldn't be held, and certainly not in such increased numbers, if they were not wanted.

UP TO HERNANDEZ.

M. HERNANDEZ is expected, naturally, to make some immediate and definite reply to the demand from within his party that he resign from the Republican ticket on the ground of his past official record.

submit the truth of the charges made? Or will he remain on the ticket and undertake to disprove those charges?

While Democrats generally had little desire to go into past history in this campaign, and no especial need to do so as the charges against Hernandez having come from within his own party.

ANTI-TUBERCULOSIS WORK.

FOR the benefit of the numerous organizations who helped to sell nearly 45,000,000 Red Cross seals last year and for the general public, the American Red Cross and the National Association for the Study and Prevention of Tuberculosis have framed a definition of anti-tuberculosis work showing how the proceeds from these holiday stickers are to be used.

The definition was framed at a recent meeting of the National Association for the Study and Prevention of Tuberculosis and states that the term "anti-tuberculosis work" as it relates to the expenditure of Red Cross seal money shall include the following activities:

- 1. The construction of hospitals or sanatoria for the care of the tuberculous.
2. The maintenance of the tuberculous.
3. The provision of day or night camps for the tuberculous, the provision and maintenance of dispensaries, visiting nurses, open air schools, fresh air classes, or preventoria for the care or treatment of tuberculous cases or for the prevention of the spread of tuberculosis.
4. The maintenance of educational or legislative activities which have for their object the prevention of infection with tuberculosis.

The Open Season for the Dope Artist

(Springer Stockman.) Now is the open season when the newspaper is called upon to assist some fellows in getting an office, when nothing is said about how the newspaper man is going to get his beer and bacon.

Lincoln Was a Great Man Therefore Vote for Hughey Williams

We all of us remember the tales of the boyhood of those who have been candidates for office, and those stories have stayed with us in the after years. We have not forgotten the books of long ago which told of the bitter struggle of Lincoln, the tall splitter of Garfield, the canal driver, and the stories of the early efforts of so many of our public men, battling onward in the world, against the awful odds which confront everyone who is trying to make his way.

SOLOS by the Second Fiddle.

THE UNUSUAL feature of the campaign is the unanimity of opinion among Republicans that the party is licked.

THE ENTHUSIASTIC opening of the Russian opera was not due to Petrov's partiality for Wagner.

PORTIONS of the Optician's one, however, were sung as deflected by the censor.

HERMAN RIDDER calls Richard Harding Davis a newspaper sniper; which is certainly the superlative even in the higher criticism.
