Respite of One Week.

Albany, N. Y., April 23.—Gov. Morton has granted Dr. Buchanan, the wife murderer, a respite of one week.

Joined the Militant Majority.

Fairfield, Iowa, April 23.—Ex-United States Senator James F. Wilson died late last night.

RESERVOIR BUILDING.

The A. T. & S. P. Company's Near Thatcher—Gen. Howard's Big Scheme in California.

La Junta, Colo., April 23.—Contracts have been let by the Atchison, Topeka & Santa Fe Railroad company to build an immense reservoir, across Timpas canon at Thatcher station, 45 miles south of La Junta.

The Chase Cotton Stone company of Cottonwood Falls, Kas., were the successful bidders. The reservoir is to be constructed after the design of the immense dam now going in at Boston, Mass., built of solid rock, blown out from the spillways, with a concrete wall through the center.

San Bernardino, Cal.—The Victor Reservoir company has sold its property to the Columbia Colonization company of Chicago.

J. H. Howard, of Farm, Field and Fireside, and his brother, General O. Howard, came here recently with a civil engineer and carefully examined the Victor Reservoir site and made a favorable report, which resulted in the sale. It is proposed that the reservoir will contain, when full, 127,721,404,000 standard gallons of water, sufficient to irrigate 220,000 acres of land, supplying one inch of water under a four inch pressure to five acres of land.

This reservoir site lies near Victor, Cal., on the north side of the mountains. The new company proposes to begin construction of a dam that will impound a lake of water nine miles long and five miles wide, and will be fed by the Mojave river.

THE MARKETS.

New York, April 23.—Money on call dull, easy at 1 1/2 @ 2 per cent; prime mercantile paper, 4 @ 5 1/2.

Chicago.—Cattle, steady to strong. Sheep strong.

Kansas City.—Cattle, market steady. Texas steers, \$3.30 @ \$4.55; Texas cows, \$2.50 @ \$3.50; beef steers, \$3.75 @ \$5.90; native cows, \$1.50 @ \$4.40; stockers and feeders, \$3.15 @ \$4.65; bulls, \$1.55 @ \$4.00. Sheep, steady.

Chicago.—Wheat opened with a decided slump to-day. There were no buyers at the opening, the short interest seeming to be covered. May opened at 60 1/2, touched 59 1/2 and reacted to 60 1/2.

Chicago.—Wheat, April, 59 1/2; May, 59 1/2. Corn, April, 46 1/2; May, 47 1/2. Oats, May, 28 1/2 @ 3 1/2; April, 28.

Stabbed at a Disreputable Resort.

San Jose, Cal., April 23.—About 12:30 this morning, at the Henley house, a place frequented by disreputable characters, Alice T. Blair, wife of George H. Blair, of Woodland, Cal., was stabbed in the heart by Albert Anderson, a young man who had been consorting with her. Anderson then stabbed himself in the heart.

TO-DAY'S CONDENSATION

The A. R. U. is back of Huntington's arrest.

The health of Kate Field has caused the suspension of her Washington paper.

Ex-Congressman W. N. Sweney, leading lawyer at Owensboro, Ky., is dead, aged 63.

Gov. McKinley was at Canton, Ohio, yesterday to take dinner with his aged mother on the occasion of her 86th birthday.

John C. Marshall, aged 85 years, a cousin of the noted Tom Marshall, of Kentucky, and who lived a hermit's life at Independence, Mo., is dead.

In London, fears as to possible European complications arising from the Japanese demands and the prospect of Japan proving a successful competitor with Europe for the trade of China, causes a feeling of uncertainty in business circles.

Between Philadelphia and Atlantic City yesterday the Pennsylvania road's special newspaper train traveled 68 3-10 miles, and the average speed was 76 1/2 miles per hour. The fastest mile was made in 41 seconds, which is an average of 87 9-10 miles per hour.

Relatives of Frank Lens, the Pittsburgh cyclist who was making a trip around the world on his wheel or Outing, are now convinced that he was murdered by the Kurds in Armenia at the beginning of the massacre there. Mr. T. P. Langhans, cousin of the wheelman, has just received a letter confirming the belief.

Go East via Denver.

The Burlington route, long and favorably known to the traveling public, is still running two popular trains daily east; leaving Denver 9:50 p. m. and 11:30 a. m. for Lincoln, Omaha, St. Paul, Peoria, Chicago, Kansas City, St. Joseph and St. Louis and all points east. These two daily trains are solidly vestibuled, made up of Pullman Sleepers, Reclining Chair cars, elegant Day Coaches, and the famous C. B. & Q. Dining Cars. Meals served on the 4 cars plan. Train No. 2, leaving Denver at 9:50 p. m., arrives at Chicago 7:55, St. Louis 7:10 second morning, being the first train to these points, and going the entire distance over its own tracks, avoiding transfers or missing of connections at Missouri river points. Ask your agents for tickets via the well-known and popular Burlington Route.

Home-Seekers Excursion.

On April 23, the Santa Fe Route will run a home-seekers excursion from Chicago and Missouri river points to all stations reached via the Santa Fe Route in Arkansas, Texas, Oklahoma, Indian Territory, Kansas, Colorado, New Mexico, Arizona and Utah at the rate of one lowest first-class fare plus \$3. Limited return twenty days.

Dr. Price's Cream Baking Powder Forty Years the Standard.

COMMITTED SUICIDE.

Young Girl Disappears—Returns Home—Censured by Her Parents—Jumps from a Fourth Story Window.

New York, April 23.—Julia Cross, 16 years old, who disappeared from her home on Sunday and returned yesterday, committed suicide early to-day by throwing herself from a fourth story window. When she returned she told a story of abduction. Her parents censured her and threatened to send her to a reformatory.

Thinks Harrison Will Be Nominated.

Indianapolis, April 23.—Gov. Matthews said to-day that in his opinion, as an outsider, the signs pointed to the nomination of Harrison next year as the Republican candidate for president.

Kentucky Republicans Declare for Gold.

Lexington, Ky., April 23.—The Republicans of Woodford county, Senator Blackburn's home, in a convention to select delegates to the state convention, declared in unequivocal terms for a single gold standard with only one dissenting vote.

Striking Coal Miners.

Pittsburg, April 23.—The miners employed at the mania mines of Henry Floersheim, a leading division of the Baltimore & Ohio, have struck against a reduction of the mining rate from 63 to 60 cents. Floersheim says he will have no trouble getting all the miners he needs at a 60-cent rate.

Proclamation of Reward.

EXECUTIVE OFFICE, Santa Fe, N. M., April 23, 1895.

Whereas, on the night of the 24th of March, 1895, some unknown persons waylaid and attempted to murder Eugene A. Orr, near the town of Taquico, Valencia county, New Mexico; and

Whereas, such person or persons are fugitives from justice, Now, therefore, I, W. T. Thornton, governor of the territory of New Mexico, by virtue of the authority in me vested, and for the purpose of securing the arrest of the said parties, do hereby offer a reward of one hundred and fifty dollars (\$150) each for the arrest and delivery to the sheriff of Valencia county, said guilty parties; reward to be payable out of any money in the territorial treasury appropriated for rewards.

Witness my hand and the great seal of the territory of New Mexico, this, the 23d day of April, A. D. 1895.

W. T. THORNTON, Governor of New Mexico.

By the Governor: LORION MILLER, Secretary of the Territory.

PROPOSALS FOR BUILDINGS, BUILDING MATERIALS, ETC., ETC.—U. S. Indian Industrial School, Phoenix, Arizona, April 23, 1895.—SEALED PROPOSALS endorsed: "Proposals for Buildings, etc." as the case may be, and addressed to the undersigned at Phoenix, Arizona, will be received at this school until one o'clock p. m., of Saturday, April 27th, 1895, for

(1) furnishing the necessary materials and labor to erect and complete one frame dormitory building, one frame hospital building and one frame employes' quarters, (2) materials and labor to complete waterworks and sewerage systems, and (3) assorted lumber, doors, windows, hardware, etc., for general repairs, etc., at this school, all in strict accordance with the plans and specifications which may be examined in the Office of this newspaper and of the Phoenix school.

Proposals for the erection of the buildings must state the length of time proposed to be consumed in construction. A form of proposal is attached to the specifications for the buildings. The right is reserved to reject any or all bids or any part of any bid if deemed for the best interest of the service. The attention of bidders is invited to the Act of Congress, approved August 1, 1892, entitled: "An Act relating to the limitation of the hours of daily service of laborers and mechanics employed upon the public works of the United States and of the District of Columbia," also to the Act of Congress approved August 13, 1894, entitled: "An Act for the protection of persons furnishing materials and labor for the construction of public works."

CERTIFIED CHECKS.—Each bid must be accompanied by a certified check or draft upon some United States depository or solvent National Bank in the vicinity of the residence of the bidder, made payable to the order of the Commissioner of Indian Affairs, for at least FIVE PER CENT of the amount of the proposal, which check or draft will be forfeited to the United States in case any bidder or bidders receiving an award shall fail to promptly execute a contract with good and sufficient sureties, otherwise to be returned to the bidder.

Bids accompanied by cash in lieu of certified checks will not be considered.

For any further information, apply to: HARWOOD HALL, Superintendent.

NOTICE.—The bidder should attach list to his or their bid or bids specifying the price per foot, pound, etc., of materials under head of pipe materials, etc., and assorted lumber, doors, windows, etc., referring to same in their bid as "per list hereto attached."

NEW MEXICO MINES.

What the Miners in Prominent Territorial Gold and Silver Camps Are Doing.

SIERRA COUNTY.

El Dorado mine is putting out rich ore again.

Another good strike is reported from the Catherines.

Slipjack mill is still grinding steadily on ore from the Eighty-five.

The Standard mill at Hillsboro is running on Snake, Bobtail and Opportunity ores.

Hall & Macy have found some very rich gold quartz float at the Bucyrus placer.

Another large shipment of lessees' ore from the Richmond mine will shortly be made to El Paso.

Linder & Townsend have struck a nine inch streak of ore, that assays from \$60 to \$80 in gold, in the Morton mine.

The output of the Hillsboro gold mines for the week ended April 18 was 3,058 tons; total output since January 1, 3,058 tons.

The Happy Jack dump will contribute to keep the new Charter Oak mill busy and the mine will hereafter be worked to its full extent.

Falkner is just now the busiest placer in Sierra county. It is the center of the placer district and also commands the business of Dutch Gulch and the Animas Peak mines.

The Charter Oak mill began work yesterday on a choice lot of screened placer gravel. An improved No. 5 Huntington mill is used which has a capacity in that sort of material of from thirty and forty tons a day.

Feast's ore hauling teams are making regular trips from the El Paso Ore mine to the Bonanza mill. The placers are alive with gold diggers and a great increase in the yield of gold dust is reported by the merchants.

The Hillsboro Advocate reports: The partial sale and bonding of the Happy Jack to Iowa capitalists for \$20,000, is reported this week and as the first important deal of the year is a notable event. Mr. Thomas Lannon will be the manager of this mine, which has long been conspicuous for the richness of its ore and the regularity of its output.

WATER CANON—SOCORRO COUNTY.

It is estimated that the Oro Fino could alone take out fifty tons of milling ore per day.

The Wall Street, owned by John J. A. Dobbin shows a fine body of free milling gold ore.

The G. G. Vest, the Water Valley, the Colleen Bawn, the two Comstocks, the Mamouth and the Golden Wedge are all promising prospects.

The Terry brothers have a big thing, and it is getting better with every foot of depth gained. There arestra is not a modern mill, but the ore is rich.

The Casler mill is pounding away successfully on Columbus ore and recently shipped twenty-seven sacks of high grade concentrates to Denver. It is putting about ten tons into ore.

The Industrial Advertiser: The owners of Sunrise No. 1 have about closed a deal with Western parties whereby 500 feet of development work will be put on the property at once, and a mill will be erected as soon as possible. This is a high grade property and is certain to be a heavy producer, which will give the camp a great send off.

The Oro Fino is situated at the junction Water canon and Copper canon, and the principal development work has been done in an incline and a shaft. The incline is 100 feet deep, with a 100-foot drift to the west, all in ore, while the east shaft is seventy feet deep and shows a splendid free milling ore. The ore body is nowhere less than four feet, and from that it ranges up to a number of feet that is startling to a man with an understanding of the value of large veins of free milling ore that will run from \$12 a ton up.

GRANT COUNTY.

An important strike has been made in the Maud S. Mogollon district.

The smelter at Ivanhoe, which was recently closed down, will be started up again in a few days under more favorable circumstances.

Brackman, Crawford & Co.'s mill at White Signal is crushing from twenty-five to thirty-five tons of ore per day.

Many of the miners of Pinos Altos are making contracts with the Van Smelting company to handle their heavy pyrites ores and concentrates.

The Confidence mine and mill, Mogollon district, are running successfully. At the last general clean up, last week, thirteen bars of bullion were produced.

The Golden Giant mine at Pinos Altos has been closed down for a few weeks in order that new hoisting machinery may be put in. The shaft is now down 300 feet.

As the old Custom mill is about ready to start up after being thoroughly repaired, the miners of Gold Hill are getting ready to polish the drill again for the summer.

The Cooney mine and mill, of Mogollon, are turning out rich ores and concentrates and the lessees, Cooney, Coates and Shible, are in a fair way to become bonanza kings.

The Silver City Eagle: Shipments of gold and silver bullion from this point have been heavy for the past few weeks. The shipments from Mogollon come in regularly and they are steadily increasing.

Chas. Davenport is reported to have made a rich strike last week on his leased mine, the Nugget, at Carlisle. The vein is eighteen inches wide and the ore runs \$200 per ton in gold. He will make a large shipment of ore in a few days.

Nat Bell, of the firm of Bell & Stevens, brought into Silver City from Pinos Altos a \$7,000 gold brick last week which

was shipped east. The brick was the product of ores from the Pacific and Ohio mines owned by the firm.

The copper smelter at Hanover has blown in, as also the Van Smelting company's plant below town. These two new reduction plants will purchase all ores of gold, silver and copper and will furnish a home market where the miner can get his cash when the ore is sampled without waiting for returns from distant towns.

The Silver City Enterprise: The Sheridan mill and Little Fanny mine are making a magnificent record under the able management of L. W. Tatum, the present superintendent. The mill has run steadily every day since February 1st. Since the new cable was put on the tramway and the five new stations for support of the cable were built, the tramway had been doing excellent service. It now costs about 30 cents per ton to tram the ore from the top of the mountain to the mill.

LA BELLE DISTRICT.

The owners of the Midnight are preparing to ship a car load of ore.

It is estimated that about 100 strangers arrive in La Belle every twenty-four hours.

Mr. W. E. Howlett has an ore body in sight nearly five feet in width assaying over \$20 per ton across the entire vein.

A correspondent says: "The richest deposits are found on the western slope of the mountains and a new town has been started there named Anchor. It is three miles from La Belle and extremely difficult of access."

Work has already commenced on the placer mines at Et'own, twelve miles south of La Belle. The season promises to be the liveliest, and the output of gold greater than that of any summer for the past thirty years.

E. I. Jones, of Cripple Creek, has trapped over the Costilla mining district and does not hesitate to pronounce the La Belle camp one of the wonders of New Mexico. He owns stamp mills and valuable property at Cripple Creek but proposes to take a hand in the La Belle boom.

Gold was first discovered on the present site of La Belle during the summer of 1868. As it was found to be on the Costilla grant no development work was then done. In June, 1894, Hon. H. J. Young, of Taos county, had a quantity of the ore assayed and found that it was rich in gold. In the following August a number of miners claimed on the grant a mine and named it the old Hamilton mine and decided to lay out a town-site and begin work. Since then many claims have been located and worked. Eighty odd houses have been built at La Belle and the town has a population of about 600. The ore runs from \$10 to \$120 in gold, but not from milling. The cost of locating claims on the grant is \$15 each. La Belle is seventy-seven miles west of Raton in Taos county and has an elevation of 9,600 feet.

GENERAL MINING NOTES.

The Mining Review mentions LaBelle as the coming great camp.

Every mine in the Cochiti district improves with depth and development.

The saw mill at Bland, in the Cochiti mining district, has started up again.

The Raton Range predicts that Colfax county will have a procession as a gold producer this year.

Nelson J. Hyde, the successful gold hunter, is establishing the basis of a little fortune in Hell Canyon.

The Oro Fino actually stands at the head of the list of mines in Water Canon, New Mexico, owing to its greater development and splendid showing.

Gold, bright, shining gold; that is what even the naked eye will disclose, and through the glass a rich composite with gold predominant and free. This comes from old Mount Mary, an easy ride of three hours southwest of Folsom.

Activity and firmness characterize the copper market. There are no sellers at 9.50, which has been offered, and for small quantities 9% has been paid. Electrolytic has advanced to 9%. Casting is strong at 9. Exports are heavy and will continue so for some time.

Copper is the principal metal used these days in manufacturing, mining and scientific interests, and consequently the product of this metal has increased to wonderful proportions. There was mined and sent to market during 1884 over 360,000,000 pounds. Of this there was exported about 180,000,000 pounds, leaving for home use about the same amount. As the production of foreign copper did not exceed 197,000,000 pounds, it will be seen that the United States actually mined and marketed two-thirds of the world's production.

Speaking of the gold mines of New Mexico a writer in the Denver Mining Record says: "They have all been found in the archaic or porphyritic formations; and they show to-day a much permanency, taking them all in all, as is found in mines of the better class throughout the world. There is nothing wrong with them; better management and more earnestness in the methods of the miners are the two things needed to greatly increase the output of the gold mines of New Mexico."
