MINOR CITY TOPICS

Denver, Colo., July 15.—Weather forecast for New Mexico: Generally fair tonight and Saturday with stationary temperature.

All Are Invited—Every merchant and business man who is interested in the prosperity of Santa Fe should be present at the Board of Trade meeting this evening.

Of Importance to Every Property Owner—Every man who owns a foot of land in Santa Fe and hopes to see it advance in value should be at the annual meeting of the Board of Trade this evening.

Still They Come—The Columbus News is the latest star in the New Mexico journalistic firmament. It is published at Columbus, Luna county, and P. G. Mosely is the publisher and editor.

Noon Arrivals at the Hotels—Palace—F. J. Cashin, Chicago; G. Franklin Flick and family, Santa Fe; E. H. Bleckford, Deming, Claire—L. C. Leonard, Chicago; S. W. Marshall, Las Animas, Colorado.

Delinquent Taxes in Sandoval County—District Attorney George S. Klock will bring suit against property owners in Sandoval county, to recover something like \$70,000 in delinquent taxes, owed mostly on land grants.

Trains Still Late—Santa Fe trains last night were still several hours late. Six delayed trains from the east passed Lamy last night. The washouts in Kansas have been bridged over, but the soft roadbed makes slow running a necessity.

Lodge Meeting—Tonight at eight at the Masonic Hall there will be a special and F. C. meeting of Montezuma Lodge No. 1, A. F. and A. M.

Go to Mountalnair Chautauqua—Today the Santa Fe began the sale of special tickets to the Mountalnair Chautauqua in Torrance county, thus presenting an opportunity to visit the beautiful town in the Manzanos mountains at small cost.

Takes Job as Assistant Librarian at Los Angeles—Miss Nellie Wetter, librarian of the Reynolds public library at Albuquerque, has resigned her position to take that of assistant to Charles F. Lummis, city librarian of Los Angeles, California.

Twelve Year Old Boy Shoots Himself—Because he thought the gun was not loaded, twelve year old Irwin Champion, son of City Marshal James C. Champion of Roswell, pointed the weapon at himself at the home of Tyler Atkins, a boy friend, and killed himself.

Do Not Miss Church Supper—The chicken supper to be given next Tuesday evening at the Methodist church will be one of the gastronomic treats of the season which no one can afford to miss. A bountiful and appetizing meal will be served from 5 to 7 o'clock and everybody is invited to attend.

Garden Party Tonight—Remember the garden party at Mrs. J. A. Rolls given by the Woman's Aid Society of the Presbyterian church this evening. You will meet your friends there and have a good social time and enjoy cool refreshments and sweet music. Come and bring your friends.

City Authorities Trimming Trees—Mayor Jose D. Sena has put men to work to trim trees that overhang the streets so that the branches will not strike carriages and other vehicles. Property owners should not interfere with men trimming the trees as they will only cut away such branches as hang too low over the street.

Good Citizens Should Be There—Every good citizen of the Capital who cares for its improvement and advancement, should take an active part in the annual meeting of the Board of Trade tonight.

Moving Pictures Tonight—Tonight at the Elks' opera house there will be a change in the moving pictures. The following subjects will be on the program: The Mexican's Gratitude; Le Las Ricochet; Buster's Revenge; Woman Chauffeur; A War Time Tale; Jack's Successful Bluff. The song will be "My Dream of the U. S. A."

On the Up Grade—Santa Fe is moving on the up grade in every respect. All tendencies and prospects are in that direction. This is the time to help push things along and the best way to do this is by organized effort in the Santa Fe Board of Trade. Do not forget the meeting tonight at eight o'clock at the Water Company's office.

Fair Tomorrow—Skies are to be fair tomorrow, the same as today, and as they have been almost every day the past two months. Yesterday the maximum temperature was 83 degrees. Last night it was down to 58 degrees. There was .01 of an inch of rain again, the same as the day before, but in the surrounding mountains, showers were more abundant.

Buy Yourself a Home—District Clerk Francis C. Wilson has bought one-half of the Cross orchard and place on Buena Vista Heights on Capitol Hill. The property adjoins the beautiful home of H. H. Dorman and will be greatly improved by Mr. Wilson who contemplates the building of a modern cottage thereon. The deal was made with the Wiley estate which had bought the two acre orchard and the Cross home from Mrs. George Cross.

Change Back to Old Time—The New Mexico Central Railway will go back to its old schedule on Sunday, for reasons best known to the management, although from the Santa Fe standpoint the present schedule is far better than the old. The train will leave Santa Fe at 1:45 p. m. arriving at Torrance at 8 p. m. It will

leave Torrance at 11:05 a. m. and arrive here at 5:25 p. m. Only a mixed, in place of a straight passenger and freight train will be run.

Clovis Has Another Disastrous Fire—Fire on Tuesday night caused \$32,000 of damage at Clovis, Curry county. It destroyed the offices and stock of the Kemp Lumber Company. A fierce gale was blowing and the \$3,200 steam fire engine received just that afternoon, paid itself many times over by preventing the blaze from wiping out the entire city. The fire is supposed to have been of incendiary nature. Insurance covers the loss.

LARGE AUDIENCE ENJOYS CONTEST

Last of Series of Medal Contests Takes Place at the Elks' Opera House.

The last of the series of medal contests, under the auspices of the W. C. T. U. took place last night at the Elks' opera house. A large audience greeted the participants in the contest, all of whom acquitted themselves exceptionally well.

CONVICTS BREAK AWAY FROM GUARDS

Yesterday, two convicts who were working with a gang at the rock quarry about five miles from town, managed to effect their escape. The men are Estanislao Montano, who was serving three years for burglary, and Evaristo Montoya, serving two and one half years for larceny. Montano is aged twenty-four, is five foot seven, weighs 135 pounds, eyes dark, and hair black. He has long knife slashes on both sides of his back, seven inches in length and a bad knife cut under the chin. Montoya is aged 36 years, is five foot two, weighs 100 1-2 pounds, of dark complexion, black hair and dark eyes. His face is entirely covered with pock marks. Both men were without coats and wore blue denim pants, hickory shirts and citizen hats. Their trail lay in the direction of the Pecos valley, but blood hounds failed to follow. Twenty-five dollars reward is offered for each.

ANOTHER IMPROVEMENT FOR SANTA FE

Last night the board of trustees of the local fire department held a meeting and decided to give orders for the working plans for a new fire house. The new structure will be located on the north side of San Francisco street above the plaza. It will be two stories in height and will be of brick. Modern in every respect, the building is expected to cost about \$10,000. The lot on which the improvement is to be made extends back from San Francisco street as far as Palace avenue, but the trustees have sold the rear portion facing on Palace avenue to Levi A. Hughes.

TWENTY SEVEN YEARS OF ACTIVITY

At the annual meeting of the Board of Trade this evening, Hon. L. B. Prince, on retiring from the presidency, will give a brief review of the activities of the board during the 27 years of its existence. Today is almost the exact anniversary, as it was organized July 13, 1882. From that time to this its history is practically synonymous with the history of the city and it has taken part in every effort for the advancement of Santa Fe.

SON BORN YESTERDAY TO PRINCES DE SAGAN.

Paris, July 16.—A son was born yesterday to the Princess de Sagan, who was Miss Anna Gould of New York. Prince Helle de Sagan and Mme. Anna Gould were married July 7, 1908, after her divorce from Count Boni de Castellane.

abortion, etc. It will be seen that the statute is very strict and the penalty very heavy, a fact which is not as generally known as it should be.

BASE BALL AT POPULAR PRICES

The Baseball Park Association has taken up the question of making Santa Fe a winner in the baseball line with the management of the Grey's and, in order to enable everyone to see the game with Albuquerque next Sunday, has reduced the price of general admission to 25 cents and the grand stand to 25 cents, thus enabling anyone to see the game from the bleachers for half the price formerly paid. This cut in the price, is expected to bring out the entire fandom of the town and rooting for the home team will inaugurate its banner season beginning with Sunday's game.

The threatening rain of yesterday scared off the crowd from the grounds, but the team will go out in full swing this evening for a red-hot work out in preparation for the Duke City outfit, who have put in a strenuous week at practice, according to reports from their stamping ground, in the expectation of slipping one over on the locals. Manager Kerr has had men working on the grounds and has them in fine shape for the battle and, in view of the fact, that the reduced prices will surely be attractive to all, a crowd that will make Santa Fe ring with echoes of joyous lungs, is sure to fill up the seating capacity long before the game starts.

Remember the reduced prices and boost, boost all the way for Santa Fe.

WESTERN FEDERATION OF MINERS

Denver, Colo., July 16.—Today's session of the Western Federation of Miners, was given over to the reading of the minutes of the executive board for the year. Secretary Scollin of the United Hatters asked financial and moral assistance for the striking hatters. Tomorrow the question of jurisdiction over the Butte engineers and firemen, between the Brewery Workers and the miners, will be taken up by the committee on the president's report, which will shortly recommend that the Butte local be instructed to hold down Flynn and other belligerents or force them out of the union.

NOT STARTING A PERFUME PLANT

For a number of nights past residents of Hillside avenue have been greatly annoyed by the presence of a strong noxious odor that has been permeating the surrounding atmosphere. The smell is anything but pleasing and those in the vicinity are now preparing to exterminate the cause. Investigation has shown that the source is none other than a pole cat from the foot hills. Unless something unforseen happens, tonight some leaden missiles will be used to good advantage and some one will be the gainer by the possession of a beautiful pelt.

SEWS BUTTON ON BABY TONGUE

Fresno, Cal., July 16.—E. A. Lieb-scher of Sonoma, Cal., was arrested at Madera, on a charge of cruelty to his 13 months' old baby. To stop the infant from sucking its lips it is said, Lieb-scher pierced the child's tongue with a needle and sewed a button on either side. When arrested the man was carrying the baby in a barley sack, but there were no buttons on the tongue.

NEW TEACHERS ANNOUNCED.

The Santa Fe school board at its last meeting appointed Miss Anna E. Dyser of Warrensburg, Missouri, to take the place of Miss Kennedy of the High School, resigned. Miss Elliott of Park View, New Mexico, was appointed to fill the place of Miss Ogile of the fourth grade. Miss Maude Hancock of Estancia, was elected to fill the vacancy caused by the resignation of Miss V. Bean.

The board contracted for eighty-five tons of Cerrillos mine run coal at \$4.10 a ton.

FOURTEEN METHODS OF IRRIGATING.

(Continued From Page One)

is less and the results not as satisfactory.

The side dike system is used to best advantage on ground with a uniform slope. The method is to build dikes 100 feet apart, from eight to twelve inches high, depending upon the character of the soil. Water is taken from the head ditch and spread in a sheet over the areas between the dikes. The surplus passes into a ditch and is carried to the next area.

The sprinkler plan calls for spray-sprinklers arranged between the trees or vegetable rows and so placed that they water all of the ground. This system can be used only where water is supplied under pressure.

Another system is to distribute water to each tree in an open flume. The water is supplied from a head ditch. This is similar to the piping method to individual trees, but is a waste of water, though the cost of installation is less.

C. M. Speck, chairman of the practical demonstration committee of the irrigation congress, will be assisted in the demonstrations by H. Delepine, an experienced engineer, who has charge of the work, and practical irrigators and growers from various methods of watering land to obtain the best result at the least cost.
