

Specialists Recommend Yawning.
In the opinion of learned specialists no one can be healthy unless he or she does a certain amount of yawning. When you yawn you expel from the lungs a lot of superfluous air; the breathing muscles of both the chest and the throat are strengthened by yawning.

His Fear.
"Weren't you afraid to go down stairs in the dark last night?" asked a woman of her little son recently. "Yes, I was a little afraid," answered the boy. "But what were you afraid of?" asked the mother. "H'm," said the boy, "I was afraid there wouldn't be any doughnuts."

To Preserve Home of George Fox.
Swarthmoor hall, near Ulverston, Lancashire (Eng.) formerly the home of George Fox, founder of the Society of Friends, was bought at Ulverston, a short time ago, on behalf of the English members of the society for \$5,360. His writing desk was bought for 20 guineas.

The Merry Advertiser.
Who says there is no more any genuine English humor? A provision dealer in Earl's court neighborhood, London, displays this on a window sign: "When visiting Shakespeare's England, eat England's Bacon."

And So It Goes in Life.
"A girl," remarks Mack Cretcher, "must have dolls and ribbons and lots of fancy things to play with. A boy can have a pretty good time with nothing but a toad, a grasshopper and a few angle worms."

Perhaps a Tragic Comedy.
A writer once said that the world is a comedy to those who think, a tragedy to those who feel. He doesn't say what it is to the fellow who tries to take a wide garbage can through a narrow alley-way.—Satire.

For Tired Feet.
When your feet ache, caused by long standing, exercise them by rising first to the toes, then on the heels, in a rocking motion for a few times. This was advised by a specialist.—Woman's Home Companion.

Man's Eating.
One man likes to be made a fuss over, another likes to be let alone, and a third likes his mind diverted. But in all cases have something good for him to eat, whatever kind he is.

Easy.
Young Widow—"Did you have any trouble getting Jack to propose?" Girl Friend—"No, dear; I told him you were after him."—Boston Transcript.

Daily Thought.
One principal point of good breeding is to suit our behavior to the three several degrees of men—our superiors, our equals and those below us.—Swift.

Difference.
The only difference between a caprice and a life-long passion is that the caprice lasts a little longer.—The Tatler.

Producing Optimism.
A very good remedy for anybody's pessimism is being able to pay his bills.—New York Press.

No Comparison.
Vicar—"The most wonderful organ I ever saw was the property of a private gentleman. It had nearly a hundred stops." Sexton—"Um! The most remarkable organ I ever heard in my old woman's tongue. It ain't got no stops at all."—London Times.

Agriculture Forest Service THE SIX RULES For Care With Fire in the Mountains.
If every member of the public strictly observe these simple rules, the great annual loss by Forest Fires would be reduced to a minimum.

1.—Be sure your match is out before you throw it away.

2.—Knock out your pipe ashes or throw your cigar or cigarette stump where there is nothing to catch fire.

3.—Don't build a camp fire any larger than is absolutely necessary. Never leave it even for a short time without putting it OUT with water or earth.

4.—Don't build a camp fire against a tree or log. Build a small one where you can rake away the needles, leaves or grass from all sides of it.

5. Don't build bon fires

The wind may come at any time and start a fire you cannot control.

6.—If you discover a fire out it out if possible; if you can't, get word of it to the nearest U. S. Forest Ranger or State fire Warden just as quickly as you possibly can.

SIERRA COUNTY
NEW MEXICO

Is Situated in a
Semi-Tropical Climate

and is noted for its
Health, Wealth and Beauty

Its Cattle Ranges

are unequalled. They are the natural home of all range stock. Cattle, Horses, Sheep and Goats thrive vigorously throughout the year.

Also its Rich Mines

GOLD, SILVER, COPPER LEAD, IRON AND ZINC

Its Mineral Resources

are inexhaustive and practically unexplored and presents an excellent field for the prospector and capitalist. Such portions of the mineral zones that have been unexplored in the past are now being opened up with gratifying results and rich mines are being developed. Large reduction works are now in course of construction and capitalists are being anxious to invest in Sierra County Mining.
