day threatened to imprison all citizens found on the streets after 9 o'clock at night.

"Machine guns have been mounted at the railway station and the impression prevails that the Germans fear their occupation of Antwerp is not permanent," the correspondent concludes.

GERMANS ABANDON ATTEMPT ON THE YSER

Amsterdam, Nov. 6 (via London).—A dispatch from Brussels to the Telegram says:

It is now obvious that the Germans have abandoned their attempts to cross the Yser. Belgian troops occupy both banks of the river.

"German troops have retreated eastward in large numbers and continued to arrive in Bruges throughout yesterday."

FRENCH OFFICIAL REPORT CLAIMS SUCCESS

Paris, Nov. 6 (10:40 p. m.).—The following communication was issued by the French war office tonight:

"To the north the fighting continues to be severe. According to the latest reports our offensive was proceeding in the region to the south and east of Ypres.

"In the region of Arras and from Arras to the Oise several German attacks have been repulsed.

"In the region of the Aisne we have retaken to the east of Vailly the village of Soupir, which was lost the other day.

"In the Argonne the enemy keeps attacking violently but without result. On the heights of the Meuse and to the east of Verdun we have captured some trenches."

BRILLIANT STRATEGY OF FRENCH SOLDIERS

Paris, Nov. 6 (8:50 p. m.).—The story of an exciting incident that took place near an important bridge over the Oise, not far from Compiègne, has been received here.

The French were ordered to hold the bridge at any cost. They placed quick firing, which played havoc for twenty minutes in the German ranks and prevented the German advance. Suddenly the bugle sounded for a French retreat and the Germans quickly pursued them over the bridge. A moment later a French aviator who had been hovering overhead, dropped a bomb which completely destroyed the bridge.

The French then delivered a bayonet charge, forcing the enemy into the river. A ponton bridge, now quickly constructed and the French crossed. They succeeded not only in regaining the lost position, but in establishing themselves in an advanced position at Tracy.

STATE BANKS WANT TO JOIN NEW SYSTEM

Washington, Nov. 6.—More than 100 state banking institutions throughout the United States have applied to the federal reserve board for admission to the new banking system.

The applicants include some large banks which members feel will add materially to the strength of the system. A sub-committee of the board has under consideration regulations for their admission and is expected to be able to report next week. The principal question for decision is how far such banks will be permitted to make loans on real estate.

MINERS Work Hard

Shut off from sunshine and fresh air, the blood becomes thin and watery—this brings rheumatism or other sickness.

Big Grain Operators Accused of Cornering Wheat and Causing Loss of \$10,000 to Plaintiffs in Action.

Chicago, Nov. 6.—James A. Patton, Chicago grain dealer, is named among defendants in a Sherman law suit filed in the United States district court here today, charging Patton and others with having restrained trade by cornering the market in certain grades of oats in July, 1912.

The complaint charges that the defendants, through a "conspiracy" purchased on the Chicago board of trade upward of 10,000,000 bushels of No. 1 and No. 2 white oats for July, 1912, delivery in excess of the available or visible supply, and that "excessive, artificial and monopolistic prices were charged for oats sold in the United States and shipped to foreign countries, which enabled the defendants to gain enormous profits."

The plaintiffs are Charles Waite, of Chicago, and Robert Henry Thorburn, of this city, who, from January, 1912, to July, 1912, were members of the firm of Waite, Thorburn & Co., grain commission merchants in Chicago and members of the Chicago board of trade. They demand \$200,000, representing triple damages for the loss of \$100,000 they claim they suffered.

Named as defendants with Patton are William H. Bartlett, of New Mexico, and Frank P. Franer, of this city, who were members of the Chicago grain marketing firm of Bartlett, Franer & Co., at the time of the alleged corner in oats.

The complaint sets forth that the defendants "co-operating with other unknown, referred to as associates and co-conspirators," agreed to purchase oats in as large quantities as they could without being detected or discovered, that they gained control of the interstate and foreign commerce; that they regulated prices to the consumers, and after July 31, 1912, they "did demand, exact and extort" from and cause to be paid by Chicago board of trade dealers and by manufacturers and consumers, fifty-four cents a bushel for all undelivered oats.

For a time prior to this, it is alleged, the defendants bid up the price of oats on the board and elsewhere until it advanced to seventy cents a bushel.

At the time of the alleged corner, it is further alleged, the actual supply of No. 1 and No. 2 white oats in Chicago warehouses, visible and available for delivery on contract for July delivery, was less than 1,250,000 bushels, and that the defendants, aware of this, set out to control the "entire and more than the entire supply."

CHICAGO GOES AFTER RICH TAX DODGERS

Chicago, Nov. 6.—Charging that \$50,000,000 has been stolen from Cook county by tax dodgers, Maclay Hayne, state's attorney, today instituted in the county court proceedings which, he said, eventually will include 15,000 persons.

The brief hearing today revealed about fifty alleged instances of tax dodging.

"For fifteen years there has been the grossest discrimination in favor of the minority of property owners at the expense of the majority," said Mr. Hayne. "It has been continuous and systematic. I expect to expose the system and show that it could not be carried out without the consent, participation or guilty knowledge on the part of the officials or employees."

GERMANY HOLDS VAST NUMBER OF PRISONERS

London, Nov. 6 (8:30 p. m.).—A dispatch to Reuters from Amsterdam says that advice received there from Berlin say that up to last Sunday the Germans concentration camps and hospitals held the following prisoners:

French, 2,312 officers, and 188,615 men; Russians, 4,121 officers, and 184,119 men; Belgians, 527 officers, and 24,987 men; British, 417 officers, and 15,720 men.

The correspondent adds that the Berlin dispatch says these figures do not include prisoners not camped.

TEACHER AND THREE CHILDREN PERISH

Helfield, N. D., Nov. 6.—Miss Gladys Hollister, a school teacher, and three of her pupils were burned to death today when they ran from the schoolhouse, twelve miles from here, in an effort to escape an on-rushing prairie fire. Three other children were perhaps fatally burned. The fire started by a threshing outfit and was observed first when five miles away. With her twenty-two children, the teacher dashed toward a plowed field some distance from the school. The crowd soon divided, those remaining with their teacher being caught a few feet from the plowed ground. The schoolhouse stands unharmed.

JEFF M'CARN REINSTATED AS U. S. ATTORNEY

Hopkinton, Nov. 6.—Announcement of the reinstatement of Jeff M'Carn, United States district attorney here, followed his acquittal Wednesday in his second trial on a charge of assaulting Claudius McBride an attorney, with a deadly weapon. The jury in the previous trial stood 6 to 6 and was deadlocked.

The trial grew from a fight between M'Carn and McBride some months ago after the men emerged from a court session in which they were opposing attorneys. McBride charged that M'Carn tried to shoot him. M'Carn asserted that McBride struck him and tripped him and that after falling he tried to draw a weapon in self-defense.

BEER BREWING CENTER OF PACIFIC STATES

San Francisco, Nov. 6.—California will become the beer brewing center of the Pacific coast as the result of the enactment of prohibition laws in Oregon and Washington by Tuesday's vote. The largest three breweries in the north coast states have announced plans to move their plants to California and smaller concerns are expected to follow.

Arizona's Woman Senator.

Prescott, Ariz., Nov. 6.—Mrs. Frances Munda, democrat, of Yavapai county, will be Arizona's first woman senator. In Tuesday's election she led the entire democratic ticket, defeating her republican opponent by at least 600 votes. Mrs. Munda was one of the suffrage leaders who procured votes for women in 1912.

COPPER REACHES GERMANY BY WAY OF ITALIAN PORTS

Great Britain Becomes Alarmed Over Shipments for Use of Krupp Gun Works and Military Forces in Field.

(BY MORNING JOURNAL SPECIAL LEASER WIRE.) London, Nov. 6 (10 p. m.).—Information is in possession of the British government, it is said, which proves conclusively that large shipments of copper, rubber and other commodities are passing through Italian ports on their way to Germany.

The admiralty statement says it is believed that the British cruiser Monmouth, which the Germans reported had been sunk, was not ashore. The cruiser Canopus, it adds, was not present at the time of the fight.

The statement says:

"The admiralty now has received trustworthy information about the action on the Chilean coast.

"During Sunday, November 1, the Good Hope, Monmouth and Glasgow came up with the Scharnhorst, Gneisenau, Leipzig and Bremen. Both squadrons were steaming south in a strong wind and a considerable sea.

"The German squadron declined action until sunset, when the light gave it an important advantage. The action lasted an hour.

"Early in the action both the Good Hope and Monmouth took fire, but fought until nearly dark, when a serious explosion occurred on the Good Hope and she foundered.

"The Monmouth hauled off at dark, making water badly, and appeared unable to steam away. She was accompanied by the Glasgow which had meanwhile, during the whole action, fought the Leipzig and Bremen.

"On the enemy again approaching the wounded Monmouth, the Glasgow which also was under fire from one of the armored cruisers, drew off.

"The enemy then attacked the Monmouth again, but with what result is not known. The Glasgow is not extensively damaged and has very few casualties.

"Neither the Oranien or the Canopus was engaged.

"Reports received by the foreign office from Valparaiso state that a bolivieng warship is ashore on the Chilean coast and it is possible that this may prove to be the Monmouth. Energetic measures are being taken on this assumption to rescue the survivors.

"The action appears to the admiralty to have been most gallantly contested, but in the absence of the Canopus, the enemy's preponderance in force was considerable."

Rear Admiral Sir Christopher Craddock, who commanded the British squadron from the battleship Good Hope and who probably went down with her, was in charge of the British fleet in Mexican waters at the time the American marines occupied Vera Cruz. He was 52 years old.

Sir Christopher had a distinguished record and received many honors and decorations. During the Sudan campaign in 1891 he served in the British army and also saw service in China in 1890. His gallantry at Taku earned him promotion to a captaincy.

During 1894-98 Sir Christopher was commander of the king's yacht. He served as aide de camp to the king in 1895 and became a rear admiral in 1899. He was made a knight commander of the Victorian order in 1912. Among his decorations are the royal Spanish order of the second class for naval merit and the Royal Humane Society's testimonial for saving life. He received a silver medal from the British board of trade for gallantry in saving life at sea in connection with the wreck of the Peninsular and Oriental line steamer Delhi.

GLASGOW PREVIOUSLY ENGAGED IN BATTLE

Santiago, Chile, Nov. 6.—The British cruiser Glasgow was in an engagement with a German warship or warships prior to the fight last Sunday evening off Coronel, in which the British cruisers Monmouth and Good Hope were lost, and the Glasgow and the Oranien are reported to have been badly damaged, according to messages received here from Coronel.

These advices are that the Glasgow entered Coronel last Saturday and took on coal and made repairs of injuries caused by shells. One of her four smokestacks was destroyed, there was a big hole in her side and her bulwarks were smashed, according to the report. The cruiser left Coronel the day following her arrival, Sunday.

KEEPS COPPER FROM GERMANY.

The British government is determined that it will use every legitimate means to prevent copper reaching Germany, where it is being made into ammunition. Great Britain, therefore, is diverting various steamers which are carrying copper to Italy, to Gibraltar, where the copper is discharged. The steamers are promptly released. Some of this copper has been found packed in cases marked for Danzig. Other lots are shipments made upon orders through German houses in Amsterdam and Rotterdam. Some of these houses are said to be connected with the Krupp, manufacturers of big guns.

RUSES TO GET METAL.

It is understood that representatives of some big copper refining firms recently sailed from New York for Europe with the object of consulting agents of German firms as to the best means of forwarding copper to Germany. American firms also have been approached by German purchasers of copper with a view of arranging for the use of the names of the former for the purpose of concealing the fact that American copper shipped to the purchasers is destined for Germany.

CARRIED TO ITALY.

Since October 25 vessels bound from New York to Italy, having on board a total of 7,760 tons of copper, have been diverted to Gibraltar, and the British government is informed that some thousands of tons additional are now en route to Italy. The larger part of these shipments were for Genoa. Official returns just published show that for two and a half months prior to October 15 imports of copper into Genoa amounted to only 1,316 tons. A comparison of these figures with the most recent shipments shows, it is said, that the import trade in copper with Italy is entirely an artificial one and that the Italian imports are not for the consumption of that country.

In view of all this evidence, the British government maintains that there is no alternative left but to stop this alleged contraband trade in copper with Germany through Italy. With a few possible exceptions, American exporters do not suffer, as they have been protected already, but the British government, not wishing to be unfair in any way, is prepared so far as concerns shipments made before October 25, when copper was transferred from the conditional to actual contraband, to arrange for the purchase of copper which it has detained.

OFFICIAL NOTE BY ENGLAND ON NAVAL DISASTER

Good Hope and Monmouth Destroyed by German Warships; Glasgow Not Extensively Damaged, Is Report.

(BY MORNING JOURNAL SPECIAL LEASER WIRE.) London, Nov. 6 (10 p. m.).—It is officially announced by the admiralty that the British cruiser Good Hope took fire during the engagement with the Germans off the coast of Chile last Sunday and foundered.

The admiralty statement says it is believed that the British cruiser Monmouth, which the Germans reported had been sunk, was not ashore. The cruiser Canopus, it adds, was not present at the time of the fight.

The statement says:

"The admiralty now has received trustworthy information about the action on the Chilean coast.

"During Sunday, November 1, the Good Hope, Monmouth and Glasgow came up with the Scharnhorst, Gneisenau, Leipzig and Bremen. Both squadrons were steaming south in a strong wind and a considerable sea.

One of her four smokestacks was destroyed, there was a big hole in her side and her bulwarks were smashed, according to the report. The cruiser left Coronel the day following her arrival, Sunday.

NO KNOWLEDGE OF TWO BRITISH BATTLESHIPS

Valparaiso, Nov. 6.—Nothing is known here concerning the British warships Canopus and Defiance, which are reported to have passed through Magellan straits to join the cruiser New Zealand.

BEER BREWING CENTER OF PACIFIC STATES

San Francisco, Nov. 6.—California will become the beer brewing center of the Pacific coast as the result of the enactment of prohibition laws in Oregon and Washington by Tuesday's vote. The largest three breweries in the north coast states have announced plans to move their plants to California and smaller concerns are expected to follow.

Arizona's Woman Senator.

Prescott, Ariz., Nov. 6.—Mrs. Frances Munda, democrat, of Yavapai county, will be Arizona's first woman senator. In Tuesday's election she led the entire democratic ticket, defeating her republican opponent by at least 600 votes. Mrs. Munda was one of the suffrage leaders who procured votes for women in 1912.

CHARITY SHOULD BEGIN AT HOME, SAYS DR. MILBANK

Los Angeles, Calif., Nov. 6.—While efforts were being made to raise funds here to succor the victims of the war in Belgium, Dr. Milbank Johnson, president of the municipal charities commission, published a statement today declaring that relief sent to Europe meant only prolongation of the strife and suggesting that charity should begin at home.

"Scientific methods and modern civilization," said Dr. Johnson, "have emphasized in the conduct of the warring nations in Europe, have brought to the combatants realization of the potency of suffering women and children in compelling the conquered to sue for peace. If then Europe is determined upon a war of extermination, does it not occur to the discerning mind that relief efforts may only prolong hostilities?"

"War in Europe has thrown thousands of women and men in this country out of work. The consequent suffering and privation entailed is appalling. These unfortunates are asking, not for luxuries, but for food and clothing. Charity, so it is averred, should begin at home. Has it occurred to the many who eagerly hearken to Europe's cry that they have not contributed to the relief of their own unfortunates?"

"War in Europe has thrown thousands of women and men in this country out of work. The consequent suffering and privation entailed is appalling. These unfortunates are asking, not for luxuries, but for food and clothing. Charity, so it is averred, should begin at home. Has it occurred to the many who eagerly hearken to Europe's cry that they have not contributed to the relief of their own unfortunates?"

CANVASSING OF RETURNS BEGUN BY STATE BOARD

Hugh H. Williams' Plurality Shows Tendency to Shrink; Constitutional Amendment Probably Passed.

(BY MORNING JOURNAL SPECIAL LEASER WIRE.) Santa Fe, Nov. 6.—The state canvassing board by tonight had finished the preliminary checking of the poll books up to and including Quay county. Curry and Santa Fe counties, however, are the only ones that have thus far made complete returns. From Bernalillo county only the poll books of the precinct of Chilli are at hand.

All but two of the poll books from Dona Ana county are in. From Rio Arriba county twelve poll books are still missing, including two of the precincts that failed to hold an election two years ago. In case of legislative contests, which are likely to be made, the sending of the returns to the county seat instead of to the state capital, may be made the basis of charges of fraud.

Many of the poll books are not signed and some are very poorly kept. One of the surprises of the canvass thus far is the fact that the three proposed constitutional amendments received a much heavier vote in their favor than had been anticipated, and that this vote is not at all along party lines. If the present ratio of the count as far as made is maintained, they have carried by a fair majority.

Stump in Williams' Vote.

The returns are also gradually cutting down the plurality for Hugh H. Williams. Returns from Rio Arriba county, for instance, as far as received, while giving the county to Hernandez by 1,299 plurality, give it to Williams by only 250, and may be still further touched, as most of the missing precincts are democratic. The returns from Torrance county also show a much smaller plurality than at first announced, and as Taos and Colfax counties, about which there is still some doubt, treated Williams equally as bad, his plurality may be equalled down to 1,200 or even less than 1,000.

The canvassing board, consisting of Chief Justice C. J. Roberts, Governor McDonald and Secretary of State Anselmo Lucero, expects to be able to announce the official result next Wednesday evening, unless all the returns are not received by that time. Because of the closeness of the vote between Williams and Hill, Secretary of State Lucero today selected E. F. Coard, chief clerk of the corporation commission, to have custody of the returns during the day. He will seal the returns each evening and lock them in the vault at the capitol. This will be guarded during the night by two watchmen, one designated by the republican state chairman and one by the democratic chairman, and addition A. M. Berzere, representing the republican state committee and T. J. Guilford, the democratic committee, in the canvass, each keeping a tally of each precinct, as Governor McDonald reads the total vote endorsed on the poll book and Chief Justice Roberts checks it.

PUBLIC OPINION CAN DRIVE VICE FROM CITIES

Governor-elect Capper of Kansas Says Newspapers Respond Readily to Honest Views of Their Readers.

(BY MORNING JOURNAL SPECIAL LEASER WIRE.) Kansas City, Mo., Nov. 6.—"The newspapers are the forces that can drive vice from American cities and will do so when readers and subscribers insist on it," Arthur Capper, editor of the Topeka (Kan.) Capital, and governor-elect of Kansas, said in an address to the international purity congress tonight.

"The newspaper is peculiarly sensitive and responsive to enlightened public opinion," said Mr. Capper, "and word of commendation or of censure from any man or woman within the sound of my voice spoken in honesty and sincerity will have weight in any newspaper office in America."

"The elevation of the moral standard of our people," he continued, "and the suppression of public vice of every form, rests not with your congress, law-makers, or churches but with the American people. We educate public morals only as we elevate and elevate the individual. This is the work the newspaper must help to do, and will help to do. The newspapers of your city by unrelenting publicity given in the right manner and from the right motives, can drive public vice from your city. They cannot do it if they undertake the work of pure sensationalism to sell newspapers, but they can do it by putting facts before decent men and women in such a way that an outraged public conscience will drive the men who profit from the traffic from your city."

In Kansas, where for thirty years we have had written in the organic law of our state the prohibition of the traffic in intoxicating liquors, we began to succeed in the enforcement of the law only when the press of the state became thoroughly converted to the idea of prohibition and assisted by unrelenting publicity in its enforcement.

"The suppression of public vice and the white slave traffic will be half-way accomplished when national prohibition becomes a reality. The brothel and the saloon are inseparably linked. We cannot suppress vice and leave its chief offender to flourish. The American saloon must go. The people of Kansas are advocating national prohibition through their newspapers and you can advocate the same thing and accomplish the same thing through your newspapers, because the newspapers of your city, though privately owned, in reality belong to the people. They are yours to do what you will. They may not respond to the public's demand as readily nor as willingly as you might like, but eventually the newspaper must respond unflinchingly to the sentiment of the people it serves.

"I believe I know the newspaper publishers of America and as a whole the publishers of newspapers which have weight or influence may be counted upon for those things which exalt a nation."

Among the resolutions adopted were these:

Urging the national congress to amend the Mann act so that a wife may be compelled to testify in a white slave case; asking state legislatures to pass laws punishing procurers for inter-city traffic, asking world powers to make treaties for the extradition of persons charged with white slavery.

Howard Teasdale of Sparta, Wis., chairman of the legislative vice committee, recommended the following laws, which recommendation the congress is expected to endorse:

A law forbidding women entering any place where liquor is sold or given away; a department of recreation that would combat the evil influences upon women of the dance hall and the saloon; heavy punishment of parental neglect; police women in cities of more than 10,000 population; a central body in each state to which vice complaints could be made secretly.

Love of money was characterized as "the worst thing the nation has to contend with," by Arthur Burnside Farwell, president of the Chicago Law and Order league.

A plea for better protection for immigrant girls and women was made by Mrs. Kate Waller Barrett, president of the national council of women, Alexandria, Va.

Despondency Due to Indigestion.

It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried every thing that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.
