

GOV. CLEVELAND'S SPEECH.

MADE TO A DISTINGUISHED ASSEMBLY AT THE MANHATTAN CLUB.

The Interpretation of the Result in November—A Warning to the People—A Sign that when Parties Betray the People the People will Destroy Them.

Twelve hundred gentlemen, among whom were many of the Democratic leaders of this and other States, gathered in the Manhattan Club house last night to meet Governor Cleveland. Some of those present when Mr. Cleveland was escorted in by Mr. John T. Agnew and Dr. Woolsey Johnson at 9 o'clock were: Gen. Hancock and members of his staff, Congressmen and Congresswomen—S. C. Cox, Abram S. Hewitt, John Hardy, William Dorr Estlin, G. B. Foster, Waldo Hutchings, and W. E. Robinson; John Kelly, Governor-elect of Waller of Connecticut, ex-Gov. Hoffman, ex-Gov. Bonds of New Jersey, Daniel Dougherty and W. U. Hessel of Tennessee, Senator Pinkney Whyte of Maryland, Amos A. Parker, C. D. Clarke, Hon. Homer A. Nelson, Henry L. Hoquet, John E. Devolin, Judge-elect Wm. C. Roper, Congressman at-Large-elect Henry W. Clugcum, Wilson G. Hunt, Erastus Brooks, Augustus Schoonmaker, David Dudley Field, Willard Bartlett, J. E. Burleigh, Royal P. Taylor, and others.

"I am delighted to have the honor of asking you to join in the health to our Governor-elect, Grover Cleveland. It is a pleasure to me to welcome him here to-night, for I wish him to feel in the new duties on which he is about to enter that he has the good will, the confidence, and the earnest support of hosts of friends in this metropolis. The work he is about to undertake in his new office is a great one, and he would be proud to receive the support of five millions of people with their varied interests. The office has weighty responsibilities, but we know that our Democratic Governor will nobly face the duties of his office, and will judge of a man's future by his past. We are justified in our strong faith that Gov. Cleveland will discharge his duties with integrity, and will do the utmost in his power to relieve the people of the State fearlessly and with integrity, that he will do the utmost in his power to relieve the people of the State fearlessly and with integrity, and will do the utmost in his power to relieve the people of the State fearlessly and with integrity."

DAGGETT AND DADY HARMONIZE.

Mr. Cleveland responded as follows: "It is not without considerable embarrassment that I attend to a few words in response to those so well spoken, and to express my thanks for the kind and generous words which have been spoken in my honor. This scene and the surroundings are new and strange to me, but I feel that I am in the presence of a people who are anxious to see me in the discharge of my duties, and I feel that I am in the presence of a people who are anxious to see me in the discharge of my duties, and I feel that I am in the presence of a people who are anxious to see me in the discharge of my duties."

DISASTERS ON THE WATER.

The Steamship Peruvian Sunk in the Mersey—Other Wrecks at Home and Abroad.

LIVERPOOL, Dec. 5.—The Allan line steamer Peruvian, Capt. Hiltch, from Montreal, was wrecked on the rocks of the Mersey this morning, came into collision with an unknown steamer. The Peruvian was cut down to water at the time of the collision. Tug landed the crew and passengers here. Hopes are entertained that the vessel may be raised, and the cargo floated in a few days. The vessel with the Peruvian came in contact with a schooner on fire in the Mersey. Her fore compartment is full of water.

THE USUAL COURSE REVERSED.

Stockholders in Danger of Being Ruined to Pay the Debts of the Concern.

BOSTON, Dec. 5.—Another bombshell will be dropped among the stockholders of the plundered Pacific Bank to-morrow, in the shape of a notice from the receiver of the levying of a second assessment of 100 per cent. on their holdings. This action on the part of the receiver will be a severe blow to the stockholders, many already suffering victims. The notice calls for \$1,000,000, which will doubtless be consumed in liquidating the bank's liabilities to depositors and others. The examination of the assets of the bank is continuing, and the officers have no trace of the defaulting cashier, John H. Underhill, who fled to London and has fled.

ROOM FOR ONE WAGON.

The break in the American Company's steam pipes at Liberty street had scarcely been repaired when another leak occurred yesterday afternoon at 100 and 101 Broadway near Maiden lane. The pavement had to be torn up, and the water under the street had to be put down in place of the imperfect one. The water was black, and a strong odor of gas was felt. The water was very bad, and the odor was very bad. The water was very bad, and the odor was very bad.

IN FAVOR OF THE CIVIL CODE.

A meeting of members of the law generally the younger men, had yesterday afternoon in the office of Mr. Roger Foster, in the Evening Post building, for the purpose of organizing an association to support the Civil Code. The meeting was presided over by Mr. Foster, and the following resolutions were adopted: That the Civil Code be supported, and that the members of the association be organized to support the Civil Code.

THE ELECTION IN NEW HAVEN.

NEW HAVEN, Dec. 5.—Frank S. Andrews, the candidate for Mayor, has received 107 votes in the first election. The remainder of the ticket was elected by a majority of 107 votes. The election was held on Monday evening, and the result was a surprise to many of the voters.

PHILADELPHIA, Dec. 5.—Frank McNamee, "Dutch" Pilet, and Levi Chew, the latter a colored man, were arrested late last night while driving a wagon containing six dead bodies to the Medical College. The bodies were shown to the Lebonan Cemetery, a burial ground for colored persons in the lower part of the city. The prisoners are professional resurrectionists, and their operations have been carried on for a long time. Two more arrests were made to-day, when a detective visited the cemetery ground and arrested Levi Chew, Pilet, and Chew the wagon with this mail, and was about to start on his journey this morning when he was arrested on account of the bodies in the wagon.

PHILADELPHIA, Dec. 5.—The German astronomer to-day finished his preparatory observations of the transit of Venus. The observations were made at the observatory of the University of Pennsylvania, and the results are being compared with those made at other observatories.

TO-DAY'S CELESTIAL SPECTACLE.

The Weather to be Unfavorable, According to the Signal Service Men.

According to the signal, service the weather is going to behave very unhandsoemly toward Venus to-day on the occasion of her long-expected transit. The gathering clouds and patting rain drops last night were ominous to those who intend to catch at first sight the spectacle. The remarks of Operator Franklin of the signal service station in this city were still more so.

"The indications are," he said, "that the weather will be unfavorable. There will be either light rain or snow in New York and in other Middle States. The cloudiness will intensify on the Atlantic coast. There will be light rain in the South Atlantic States, followed by clearer weather. Cold and clearing weather is indicated for the Northwest, upper lake region, and upper Mississippi valley."

Photographic Arrangements for the taking of photographs of the transit of Venus. Photographs will be taken at the observatory of the University of Pennsylvania, and the results are being compared with those made at other observatories.

THEIR NOBLE ART FORGOT.

TWO PUGILISTS EXCHANGE PISTOLS IN THEIR CUPS.

Lightweight Stack Misses Middleweight Bookie at the Police Station. Arms-Danger of the Fugitive's Vociferous. Several pistol shots were fired in a hurry in Edward Matthews's saloon at the corner of Second avenue and Twenty-seventh street at 7 o'clock yesterday morning. Immediately afterward a party of men ran into the street. One walked eastward a few doors, followed by the New York Police Corps. He was shot in the left arm and the right wrist. He was taken to the police station in a carriage and sent to the police station in Twenty-second street. One of their number, John Stack, light-weight pugilist, of 108 East Thirtieth street, had been shot in the left arm and the right wrist. He was taken to the police station in a carriage and sent to the police station in Twenty-second street. SUBTERRANEAN FIRMS.

Clouds of Smoke Again Arising from Vest Under Beds at Trenton.

TRENTON, Dec. 5.—The subterranean fires in the acres of cinder beds deposited during several years by the New Jersey Steel and Iron Company in this city are again threatening the destruction of the works. Water poured on the cinder beds has done but a little effect, but at last the fire seemed to be dying out. The beds were never left unguarded, however, lest there might be a renewal of the volcanic trouble. The first warning of the renewal of the fire was the rising of clouds of smoke on Sunday night. The wind was blowing strongly up the Delaware River, and it is supposed to have penetrated the interstices of the cinder beds, which form the shores. On the opposite shore the smoke blinded the eyes and even obscured the sky. Several lines of hose belonging to the establishment were attached to the cinder beds, and streams of water were poured into the trenches which were dug three weeks ago. During all the rest of the night the water was kept in the trenches. The workers were digging
