PANDORA--And Her Mysterious Chest.

All are familiar with the ancient Greek legend of how Pandora, urged by uncontrollable curiosity, opened the forbidden mysterious chest, and fainted when she realized that she had released the deadly vapors of disease.

"To vex mankind with evils manifold,
So that disease and pain,
O'er the whole earth should reign,
And only HOPE remain behind."

This allegory is poetically typical of a truth all feel and realize--that through the gloom and despair of disease there always shines the glorious star of HOPE--hope of finding at last the remedy which will certainly and unfailingly restore to the weakened and exhausted system the HEALTH which has been lost. This hope is realized by those who use
