BROOKLYN WINNERS IN EVENING WORLD BABY CONTEST

Five Babies Awarded \$5 in Gold Each for Greatest Improvement.

Five five-dollar gold-pieces were awarded to five fine babies by The Evening World yesterday in the babies improvement contest conducted by The Evening World and Little Italy Neighborhood House, at No. 144 Union street, Brooklyn. The names of the winners are: Ralph Tessitori, twelve months, No. 155 Conover street, Brooklyn; Joseph Barberis, twelve months, No. 528 Smith street, Brooklyn; Joseph Giacobbe, fourteen months, No. 229 Degraw street, Brooklyn; Harry Cahery, ten months, No. 67 Woodhull street, Brooklyn; May Clara, twelve months, No. 148 Bettle street, Brooklyn. Three hundred mothers registered their little ones in the first better babies contest at Little Italy House held six months ago. All of them were invited to attend the prize-giving yesterday afternoon, which took place in the big assembly room at Carroll Park Library, on Union street, near Clinton street. Every youngster present was in the best, and the mothers appeared keenly interested, and generously pleased with the success of the contest. They were the little ones who, presented for re-examination last week, showed the greatest improvement since the test last September. Little Italy was particularly proud of the fact that exactly half the winners were Italians, since both the parents of Ralph Tessitori and of

Joseph Barberis were born in Italy, and also the father of Joseph Giacobbe. Ralph Tessitori scored 94 per cent. in the final test and was voted the best baby of all. He is the son of a longshoreman. Six months ago his tonials were out of order and he couldn't breathe with his mouth shut. Now his tonials are in perfect condition and he breathes easily through his nostrils. Little Joseph Barberis is the seventh child of a chauffeur, and his final rating is also 94 per cent. His improvement has been general, and he is now an absolutely normal child. Joseph Giacobbe is the son of a Norwegian mother and an Italian father. He is a beautiful child, and his final score is 93 per cent. Six months ago his teeth were coming too slowly and his fontanelle was not closed enough. Now both defects have been remedied. When Harry Cahery, whose parents are Norwegian, was examined six months ago the doctors found him too pale and too fat. Also his muscles were flabby and there was no color in his mucous membranes. In the period intervening, Harry's mother has encouraged him to exercise, and his bad physical condition is a thing of the past. The only girl prize winner, May Clara, is the daughter of Americans. Six months ago she, too, seemed flabby and she had insufficient color. At a year her cheeks are rosy and her flesh is firm. Dr. John Crawford, who was in charge of the final examinations, awarded the prizes. He spoke of light and air for growing children, and Louis Cavallaro, of the Committee on the Prevention of Tuberculosis, addressed the mothers in Italian. "Care you satisfied with the results of the Better Babies' contest?" The Evening World reporter asked Dr. Jane E. Robbins, head worker of Little Italy House. "Yes, indeed," she smiled. "Anything must be a success which appeals, as does a baby contest, to mother love—and to father's sporting instinct!"

RIVERS ARE SWELLING AND UP-STATE TOWNS PREPARE FOR FLOOD

Warm Weather Melts Snow and Rains Threaten Record High Water.

Spring floods have set in through the valleys up-State and already much property damage is reported. The warm weather of the past few days has melted much of the heavy snow which fell earlier in the month and this, with a steady fall of rain throughout the night, has swollen all the streams, many of which are out of the banks, flooding the lowlands. At Troy the Hudson River has assumed flood proportions and with the water rising rapidly merchants along the river front are removing goods to safer places. Amsterdam reports part of the bridge which spans the Mohawk River there carried away by high water and ice, cutting off the southern section of the city from the main part of the town. The lowlands are flooded for miles and more serious damage is feared. The Chenango and Susquehanna Rivers are overflowing into the lowlands about Binghamton and a record flood is feared. The city itself is on high ground, but surrounding country will suffer. At Syracuse, Onondaga Creek is leaving its banks and flooding miles of territory. Homes in the southern part of the city are threatened and the people are preparing to move to higher ground. Ithaca and Schenectady also report flood conditions beyond usual spring freshet marks. At Schenectady the Mohawk River is over the Scotia dike and the lower streets of the city are flooded. Ice is jammed against the bridge connecting Schenectady and Scotia and it may go out before night. There is also a heavy ice pack against the Erie Canal aqueduct, four miles east of the city. The Rexford bridge has already been carried away. The river is rising rapidly. Athletes Give a Dance To-Night. The Peerless Athletic Club will hold its annual dance and reception to-night at Fritz's Glenmore Hall, Glenmore avenue and Ashford street, Brooklyn. The music will be by Prof. Mueller's Band. The officers are: Richard Freyer, President; Walter Barth, Vice-President; J. Athlete Bell, Recording Secretary; J. Athlete, Financial Secretary; E. Thompson, Treasurer; H. Lewis, Sergeant-at-Arms; Charles Hayes, assistant.

Table with columns: Yields of Leading Stocks Based on Present Selling Prices, Rate, Yield. Includes items like Amalgamated Copper, American Pfd., American Car & Fdy, etc.

Market closing—Market continued dull in second hour, but showed a general tendency to recover and shorts seemed to be endeavoring to cover without making much progress. New Haven was strong and closed with a gain. The final price showed only fractional changes. Total sales, 108,973 shares. Opening was exceedingly dull, attendance was light. Price changes irregular, but mostly small declines from 1-8 to 1-2. Shortly after opening the bears sold with some vigor, the sort of raid that generally winds up a sagging movement such as street has seen in past four days. There was evidence of good support at the lower level and experienced speculators thought a turn for the better was close at hand. Steel in particular was under pressure and sold down to 62-5, breaking through 63 for the first time. Union Pacific was not very well supported, although selling did not seem to be important. As stocks were not brought out by the bear raid the selling soon relaxed and at the end of the first hour the market was quiet, with prices a little above the low point. Conservative observers said leading issues were in thoroughly liquidated, if not in an oversold, condition.

FREE RIDES FOR ALL AS TOLEDO FIGHTS FOR NEW THREE-CENT FARE

Railroad Opposes City Ordinance and Passengers Profit as Court Test Pends.

TOLEDO, O., March 28.—Street car conductors on trolley lines in this city refused to accept three-cent fares to-day and thousands of persons declining to pay more were allowed to ride free, pending Federal Court action expected effectively to make Toledo's street car fare war a legal tangle. The Toledo Railway and Light Company is fighting the operation of the Schreiber three-cent fare ordinance. This ordinance, as the climax of the twelve years' franchise fight, became effective at 1.01 A. M. to-day. Conductors were ordered to use no violence and if necessary to carry passengers free if they refused to pay the regular fare. Officials of the railway were warned that the city's police force and courts would stand behind citizens demanding free transit transportation and forestalled violence by declining to charge the insolent ones. Mayor Keller was among those who attempted to ride for three cents to-day. Like all others he was given a free ride. The street car company's petition for an injunction against the ordinance was set for hearing in the Federal Court to-day.

LETTERS TO ROYALTY IN ROYAL SEND OFF

H. K. S. Williams's Friends Determined That He Shall Have "Some Party" Abroad.

No person ever left the port of New York with more letters of introduction to royalty than did H. K. S. Williams, who sailed on the Olympic to-day. Mr. Williams is President of the National Water Company, is interested in large lumber concerns and is a member of the Manhattan Club. A score of Mr. Williams's friends, headed by Dock Commissioner R. A. C. Smith, were down to see him off. Last night at the Manhattan Club Mr. Williams was given a farewell dinner by his friends, who assured him that they would prepare letters of introduction to prominent folk abroad. Mr. Williams found 300 letters in his stateroom. Among them were letters addressed to His Highness Boghidato, King of the Troglodytes; His Excellency, the Akhond of Swat; His Highness, the Sheik of Bornu; Her Imperial Highness, the Amereon of Afghanistan, the Khan of Kholat, His Majesty the Liama of Lhasa, and the Ainka of Obocouta, who was recently an incognito guest of Synterata Rolling at the Manhattan Club. FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP—25 CENT DANDERINE

Girls! Girls! Save your hair! Make it grow luxuriant and beautiful. If you care for heavy hair, that glazes with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair; besides it immediately dissolves every particle of dandruff. You cannot have nice, heavy, healthy hair if you have dandruff. This destructive enemy robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots furnish loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.
