

GERMAN KAISER MAKES PREPARATIONS TO MOBILIZE HIS ARMY TO-DAY

capital of Bosnia, and 100,000 from Milanovatz, on the Danube, in the eastern part of Servia.

Austria's First Victory Cost Lives of 1,000 Men

VIENNA, July 30.—Belgrade has been occupied by the Austrian forces and her armies have to-day invaded Servia from three points.

The first battle in the war was fought at Fotscha in Bosnia, where two divisions of the Servian army were defeated by Austrian troops. The Servians lost 800 men, the Austrians 200.

Bosnia is Austrian territory. It is supposed that the battle attended the driving of the Servians from a position they had planned to hold. The report states that hundreds of prisoners were taken by the Austrian forces.

REPORT OF BATTLE WITH MONTENEGRIANS.
An unconfirmed report states that a battle was fought between Austrian troops and Montenegrins on Mount Lovchen. Other reports of engagements indicate that Austria is actively engaged in invasion and has adopted aggressive tactics.

Fotscha, where the first decisive engagement of the war was fought, is on the Drina River, thirty miles southeast of Sarajevo. For some time past Servian troops have been concentrating along the Drina in anticipation of hostilities. The moment war was declared Austrian forces were hurried to the Drina and no time was lost in making the attack.

From Belgrade the Austro-Hungarian invaders have pressed forward and followed the valley of the river Morava. They first encountered a body of Servian troops at Semendria on the Servian side of the Danube. The Servians held their ground until night-fall last night and then retired. Both Austrians and Servians sustained heavy losses at that point, several hundred soldiers being killed in the engagement.

This Austrian force advanced to-day twenty miles to the southward of Belgrade and an artillery duel was in progress this morning near Kienzney and Semendria.

On the western side of Servia another Austrian army came into contact with a Servian force at Losanitz which put up a stubborn defense and held the fort there until dark last night, inflicting heavy losses on the Austrians.

The southern Austrian column in Bosnia remained stationary to-day awaiting the movement of the Montenegrin troops.

The ancient fortress of Belgrade was reduced by the Austrian artillery, which caused only slight damage to other parts of the Servian capital. The British Legation was struck by an Austrian shell, and during the bombardment Servians harried the Austrian artillerymen.

The crossing of the Danube was accomplished on pontoons, the Servians having blown up the bridge between Semlin and Belgrade.

Emperor Francis Joseph, who is eighty-four years old, came to Vienna to-day. A great crowd gathered at the station when he started at Ischl and cheered the aged monarch again and again. Archduke Charles, the heir to the throne, accompanied His Majesty.

GREAT WELCOME TO THE EMPEROR.

Scenes of extraordinary enthusiasm accompanied Emperor Francis Joseph's return to the Austrian capital. Enormous throngs carrying banners and led by semi-military bands formed into procession behind the emperor monarch and escorted him to Schoenbrunn Castle amid a continuous roar of cheering from the people who packed the streets.

The burgomaster advanced to the Emperor in the courtyard of the castle and expressed to His Majesty the unwavering patriotism and devotion of the people to which the Emperor replied that he was grateful for to-day's demonstration of their loyalty.

A movement is on foot among American citizens and British subjects living in Hungary to form a special corps to accompany the Hungarian army into the field, according to a telegram from Budapest. It is said that British officers who served in the Boer war and who have a lively recollection of Emperor Francis Joseph's sympathy at that time are at the head of the movement.

While passing through Linz on his way to Vienna the Emperor addressed the officers of the garrison assembled on the platform of the railroad station.

"I only have time to give you a few words of greeting in this grave hour. These are that I trust in the good spirit, the endurance and the valor of my army. It was my wish to maintain peace."

SERVIAN TROOPS HARASS AUSTRIANS.

LONDON, July 30.—A newspaper despatch from Rome says sharp resistance is being offered to the Austrian advance from the northwest by small detachments of Servian troops left to impede their progress. The news comes from Nish, Servia, by way of Saloniki.

1,240,000 Men in Field, Czar Says Defiantly

CHICAGO WHEAT MARKET CLOSES NEAR TO COLLAPSE.

CHICAGO, July 30.—After a sensational advance to-day—at one time as much as nine cents a bushel—because of the war news the wheat market closed almost in a state of collapse, with values down three cents a bushel from earlier high figures. The rise in war risks on the ocean, making shipments unprofitable, apparently put a stop to buying on foreign account.

COTTON DECLINES \$2.50 PER BALE AT NEW ORLEANS.

NEW ORLEANS, July 30.—As the result of pessimistic cablegrams today from large market centers of Europe and vague rumors that big English concerns were calling this side not to risk further shipments of various commodities, cotton declined \$2.50 a bale late in the forenoon.

SEIZE BERLIN PAPER FOR DECLARING THAT MOBILIZATION IS BEGUN.

BERLIN, July 30.—The tenseness of the situation was shown this afternoon when the Lokai Anzeiger, a semi-official paper, issued extras declaring the mobilization of the army had been ordered. This was promptly denied by the Foreign Office and the extras were recalled.

CLAFLIN CREDITORS FORM WARRING COMMITTEES

Federal Court Permits Audit, and Adjustment Association to Form New Organization.
Judge Hand, in the United States District Court, this afternoon signed an order permitting the representatives of the Creditors' Audit and Adjustment Association to withdraw from the general Claflin Creditors' Committee, and form a separate committee to represent the creditors who have filed their claims with the association of which they are members.

BRITISH PREPARE TO CHECK GERMANS IN THE FAR EAST.

HANKOW, July 30.—The British gunboats Snipe, Woodcock and Kinsha, of the British China squadron, were despatched by an Admiralty order to-day. The crews removed the breach blocks from the guns, took away all the arms and ammunition possible and threw the remainder into the river.

many and Austria of the mobilization of fourteen army corps numbering 1,240,000 men. This is practically a notification to Germany that peace negotiations are at an end. The Czar is said to have expressed the intention of taking the field as commander-in-chief in event of hostilities.

This is Russia's answer to the virtual ultimatum which came from the German Foreign Office in the unofficial statement that the Kaiser would order the mobilization of his forces unless Russia ceased her military activities within twenty-four hours.

Martial law was proclaimed to-day over Bolderaa and the mouth of the Riga River and its vicinity. Steamers have to obtain special permission to pass in and out. The field of submarine mines outside the entrance to the harbor is to be completed to-night.

Hundreds of thousands of Russian citizen soldiers are bidding their families goodbye to-day in response to the call to arms contained in the imperial ukase ordering out Russia's vast reserve force.

Already 1,240,000 regular troops are reported to be massed on the frontier. Now the reserves—the farmer, the artisan, the clerk, the merchant—must leave their private occupations and go to join the forces already assembled to protect little Servia from further Teutonic molestation.

PRICES TAKE BIG SLUMP AS EUROPEAN INVESTORS SELL

Only individual transactions at some private rate were made. Practically the only method of making foreign remittances was in cable transfers, which were charged at exceptionally high rates. The leading banks, brokers and even express agencies declined to sell bills of exchange at any figure because of the uncertainty of conditions in European countries.

French banks, so the cables said, declined to-day to pay out any gold and very little silver. Paper money is the only medium available, and this caused considerable uneasiness among tourists in Paris, Berlin and other capitals. They were demanding gold for safety of travel, but could not obtain it.

The last hour was the most disastrous for prices. Standard stocks and speculative issues melted away before the storm of liquidation caused by announcement of Germany's ultimatum to Russia. Speculators rushed to unload their holdings, but were met with an equal readiness on the part of strong interests to take them at the bargain prices prevailing. The floor of the exchange was a pandemonium of struggling brokers and vast amounts of both stocks and bonds changed hands.

The lowest point was reached half an hour before the closing, after which there was a slight rally just to show that the strain had been met. The general average of prices was the lowest of the war week and marked figures not touched in many years. Some of the most extraordinary declines as compared with last night's closing were as follows: Amalgamated Copper, 81-2 to 49; American Smelting, 40-3-4 to 31; American Telephone, 117-1-4 to 114-3-4; B. & O., 75-3-8 to 72; Brooklyn Rapid Transit, 86-7-8 to 79; Canadian Pacific, 163-3-4 to 156-1-8; St. Paul, 92 to 85; Consolidated Gas, 124 to 116; General Motors, 78 to 74-1-8; Great Northern, 117-3-4 to 113; Lehigh Valley, 120-1-8 to 118; New York Central, 82-3-4 to 77; Pennsylvania, 108-1-2 to 105-5-8; Reading, 124-1-8 to 121; Southern Pacific, 91 to 87-8; Union Pacific, 120 to 112; U. S. Steel, 68-3-4 to 65-1-2; International Harvester, 101-3-4 to 92, and Wells Fargo, 81-1-2 to 80. The total share of stocks was

1,300,000 shares and of bonds \$5,007,000. This was the biggest day the Stock Exchange has known for several years. The Government shipped to the Sub-Treasury in Wall street from other treasuries millions of dollars in gold to meet the demand. Seven truckloads arrived in the afternoon, estimated to contain 450,000,000.

CITY GIVES REYNOLDS A \$12,000,000 PLUM

The Board of Estimate, with one dissenting vote, to-day formally adopted the amended plan for the South Brooklyn Marginal Railroad, providing for the elevation of the line throughout its entire length from Brooklyn Bridge to Sixty-sixth street, at a cost of \$12,000,000. Much of the property is owned by the First Construction Company of Queens, who Senator William H. Reynolds is heavily interested.

The amendment for its construction through Furman street was protested by a delegation of property owners from the Brooklyn Heights section. In view of this all of the members of the Board except Borough President Connolly of Queens, who voted against the measure, gave assurances that the adoption of the plan as a whole would not prevent the reconsideration.

Senator Connolly explained he had no objection to the plan itself, but he felt that in view of the city's limited finances it could not be called upon to commit itself to such an expenditure at the present time.

BANK OF ENGLAND RAISES DISCOUNT RATE TO 4 PER CENT.

More Failures on London Stock Exchange Announced to Gloomy Brokers.

LONDON, July 30.—As had been anticipated, the Bank of England to-day raised its minimum rate of discount an entire point, making it 4 per cent.

Two more failures occurred to-day, making ten so far this week. Business was practically paralyzed and purely nominal quotations were given. Consols fluctuated between 69 1/2 and 70 1/4, closing at 69 1/2. There were no transactions in the foreign section, and dealers in American stocks refused to do business even when New York opened. The advance in English and French bank rates had been anticipated. The Bank of England statement showed that a huge business had been done in loans, and that the reserve had fallen to 40.03 per cent.

The only other transactions heard of were in Canadian Pacific, which opened at 167 and then fell to 163 1-2.

PARIS, July 30.—The Bank of France to-day raised its discount rate from 2 1-2 to 4 1-2 per cent, and its rate for loans from 4 1-2 to 5 1-2 per cent. The Bourse opened to-day as usual, but there was no business. The nominal quotations of French 3 per cent. rentes was unchanged. It was announced by the Committee of the Bourse that the monthly settlement for July had been postponed until Aug.

BERLIN, July 30.—The committee of the Imperial Bank of Germany has been called to meet to-morrow to act on the advisability of raising the bank rate.

BRUSSELS, July 30.—The rate of discount of the Bank of Belgium was raised from 4 to 5 per cent to-day.

AMSTERDAM, July 30.—The Bourse reopened to-day, a committee of bankers having placed a large sum of money at the disposal of the National Committee for loans on national securities.

STOCKHOLM, July 30.—The Swedish Riksbank to-day raised its discount rate from 4 1-2 to 5 1-2 per cent.

JAPAN WILL GIVE AID TO THE BRITISH IN CASE OF ATTACK.

TOKIO, July 30.—The Hoshi Shimbu, semi-official paper of Japan, to-day declares that if England is attacked Japan will give assistance to British arms.

WIRBALLEN BRIDGE REPORTED BLOWN UP.

CHICAGO, July 30.—The Daily News to-day publishes the following despatch from its staff correspondent in Berlin: "It is reported here that the Russians have blown up the railroad bridge at Wirballen, on the frontier between Germany and Russia."

How to See New York
THE secret of seeing a live, moving city is to be come part of the life and movement. On a Fifth Ave. Bus
—Business men snatch a breath of fresh air on their way up or downtown
—Shoppers, a refreshing moment on their tours
—Pleasure seekers make it a part of their outing.
The wise sight-seeer joins them, passes through the great arteries of the City, the fashion centres, the residence sections, by parks and public buildings—really see the city.
And the bus makes him part of it all—
