While submarine chasers, destroyers and other craft were searching the sea and combing the coast for Capt. MacKenzie, his second mate and fifteen of the crew of the steamer Pinar del Rio, the missing men arrived here this morning on the United Fruit steamer Taunton. Capt. Arne Olsen, from Sama, Cuba, said the men had been out in their open boat, without food and but little water, for twelve hours when picked up sixty miles north of Hatteras. Capt. Olsen said the boat was nearly filled with water and was in a sinking condition.

A red speck on the horizon, one flare that had not become water-soaked, brought rescue when the small boat was leaking so badly it was kept above the waves only with constant bailing. Capt. Olsen said he spotted this light about 7.30 o'clock.

### 7,000 WORKERS ON NEW SUBWAY OUT ON STRIKE

#### City Has Two Days to Decide on Finance Plan or Faces Loss of Laborers' Services.

The Public Service Commission and the Board of Estimate, with Mayor Hylan backing it, have just forty-eight hours to get together on a plan for financing the new subway contractors, or the prospect of an indefinite tie-up of the new subway construction will be assured by the strike early to-day of 7,000 skilled and unskilled workmen on subway contracts.

"The Mayor's attitude has not changed," was the report of Grever A. Whalen, Secretary to the Mayor, when asked if the strike would have any effect upon Mayor Hylan's views.

Asked if any special action by the city was contemplated in view of the strike, Whalen answered there was none he knew of. He added that he supposed the Finance and Budget Committee of the Board of Estimate would discuss the strike at its regular meeting to-day.

It was said this afternoon that if the contractors show a disposition to continue their present attitude the Board of Estimate, working with the Public Service Commission, will try to take possession of the unfinished jobs and complete them on the cost, no-profit basis.

Matthew A. McConville, representing the skilled artisans, and Pietro Parelli, leader of the unskilled tunnel and trench workers, announced immediately after the strike was called at 8 A. M. to-day that they would hold their men for forty-eight hours pending a settlement of wages difficulties.

"What rise would we do than order the strike?" asked McConville when an Evening World reporter asked him how the strike order came about. "The contractors had asked the men to be patient; but Saturday night they notified the men they could not continue to pay the temporary advance in wages they had been making for a week.

"They asked the men to go back to the old wage scale until they could get relief from the Board of Estimate. Evidently there is nothing doing in the relief line.

"If the contractors do not come through in forty-eight hours we will release all our men to take other positions. Already there has been a call for 400 men, who can step into good jobs with advanced pay the minute we speak the word."

## FRENCH INFLECT GREAT LOSSES ON MONTDIDIER-NOYON FRONT

### AMERICANS REPULSE GERMANS ON THE WESTERN MARNE FRONT; BIG GUN BATTLE AT THIERRY

#### U. S. Forces in Picardy, Above Montdidier, Also Under Fire—Losses Inflicted on Enemy. [AMERICAN REPORT.]

WASHINGTON, June 10.—Gen. Pershing's communique to-day reports the repulse of a heavy enemy attack in the vicinity of Boursches, with severe enemy losses. There was lively artillery fighting in the Chateau-Thierry and Picardy sections.

Following is the text of Gen. Pershing's report:

"Northwest of Chateau-Thierry the enemy made a fresh attack during the night on our positions in the vicinity of Beuresches. The attack, which was preceded by artillery preparation and accompanied by heavy gun fire, broke down with severe losses to the assailants. In this region and in Picardy there was lively artillery fighting.

"On the Marne sector the day was marked by decreased artillery activity."

Following is the text of the communique sent yesterday by Gen. Pershing:

"Section A—Northwest of Chateau-Thierry hostile attacks were made on a front of two miles during the night, after artillery preparation. These were repulsed with heavy losses to the enemy and without having our lines pierced at any point.

"There is nothing to report from the other points occupied by our troops."

### One Town Changes Hands Several Times and Remains With French—Nine Hundred German Prisoners and 30 Machine Guns Taken in Two Days.

PARIS, June 10.—Although the Germans last night renewed with great violence their attacks on the new twenty-one-mile battle salient between Montdidier and Noyon, they made even less progress than yesterday, when their greatest gain was only three miles on less than one-quarter of this front.

In their attacks last night the Germans again made a slight gain in the centre. The fighting there was very bitter, German reinforcements having reached that point. The enemy reached the southern edge of Cuvilly Wood, which is eight miles southeast of Montdidier and Ressons-sur-Matz and Bellinglise Plateau, four miles south of Lassigny, one of the points from which the new drive started. These gains are far less than those made in the opening days of any previous drive.

On the French left there was also terrific fighting. The town of Courcelles-Epayelles, five miles southeast of Montdidier and two miles from Cuvilly wood changed hands several times, finally remaining in the hands of the French. On their right wing the French held their lines around Ville, three miles southwest of Noyon, and took 500 prisoners.

At Hautebraye, between Noyon and Soissons, the French completed an operation begun yesterday and took 150 prisoners.

### AMERICAN AND FRENCH TROOPS WIN.

On the Marne front American and French forces gained ground near Bussieres, seven miles northwest of Chateau-Thierry, increasing the number of prisoners to 250 and taking thirty machine guns.

Between the Ourcq and the Marne, further to the north, German attacks east of Vinly were repulsed.

In the region north of Rheims there was intense artillery fire. Altogether the prisoners taken in the last two days total 900.

The Germans had to bring up their troops at the last moment in order to avoid giving alarm to the Allies. As the columns arrived they were compelled to deploy from the column of march into the line of attack. This operation, which takes some hours, exposes the men to an unpleasant artillery fire unless the element of surprise is preserved.

The German attacking troops coming out to envelop the heights of Bouages and Liquebourg, dominating the Matz Valley, offered a splendid target to the French gunners. The enemy had to throw in division after division before he was able to drive his way forward to Ressons-sur-Matz and Mareuil along the Roye Road, which was swept by French fire.

The feeling which fairly represents the general sentiment is expressed by L'Ceuvre in the Caption: "This time we have not been surprised; but perhaps the Boches will be."

"It was a perfectly satisfactory day," said Premier Clemenceau.

### ONLY SLIGHT GERMAN GAINS IN RENEWAL OF LATEST DRIVE
